 We live in a sports-obsessed world. From fans wearing their favorite team's colors to high school soccer players practicing after school, we encounter sports every day. Nothing else in our culture produces so much passion and intrigue. Such obsession, for the Christian, must produce critical reflection. How should the Christian think about sports? What does Christ have to do with athletic competition? Can sports be redeemed? In

the Arena will answer these questions so that readers: Understand how the gospel of Christ shapes our understanding and enjoyment of sports. Receive practical instruction on how to use sports in parenting and discipleship. Become confident in using the arena of sports for discipleship, parenting, and recreation.

The Assist Crossway "Why is it that sports seem to bring out the best and the worst in us?" asks author C. J. Mahaney. "Sports are a gift from God. But as soon as you introduce the human heart, things get complicated." For the Christian athlete, sports are one of the

key battlegrounds in which pride and self-glory are regular temptations. If sports are indeed a gift from God, why are playing fields and courts so often arenas for our egos? How are we to enjoy sports in a godly way? Self-described “pastor athlete” C. J. Mahaney looks to Scripture for principles that speak to the role of sports in our lives. This booklet outlines how Christian athletes are to play for the glory of God and model gratitude, humility, and service. With candor and humor, Mahaney recounts his own story with sports and through illustrations and practical applications exhorts athletes not to waste their sports. The booklet concludes with application questions

and an addendum to parents. A great gift for Christian athletes, these booklets are also sold in packs of twelve. [The Complete Works of William Shakespeare](#)

In this day and age, competition, most visibly in sports, often brings out the worst in people. Many athletes and fans seem compelled to do things that cheat sports of their purpose-of God's purpose. This leads Christians to wonder how it is possible to bring honor to God in the world of sports today. Christian athletes in every sport have to ask: What is the true function of sports? Is it possible to hold fast to Christian values and be a competitive athlete? Is it acceptable to let Christian values slide

during competition?

Men love the game of
football because it
mimics the eternal war

perpetually existing
between good and evil.
This recondite battle is
analogous to football
because like human
beings themselves,
football is half a
physical game and half
a spiritual undertaking.
Football is fierce in
nature because tests
the hearts of men via
heathy competition
while simultaneously
offering a healthy
means of catharsis for
deep-seated masculine
fervor and release of
emotion put there by
God. Football makes
men better by
reminding us of our
mortality, because
severe injuries and
even deaths have
resulted from partaking
in the game. Being
cognizant of this
transience of life in
turn instills a deep
sense of awe and
humility because the

gift's brevity dawns on us. While playing football might not be able to source the evangelistic sprout of becoming a Christian, it can implant and nurture the seed of faith given to mankind in the anagogical nature of the Bible. The game of football has many parallels to the word of God, everyday life challenges that mature adult face, and aids in spiritual development while being an effective tool of discipleship. Has the spiritual effect of football on America's youth ever been researched in the short and long-term? It is my hope that this book carries both theoretical and practical implications for athletes, coaches and even more so to those entrusted with carrying

out the calling of Jesus' great commission commandment.

Unveiling the Mysteries of God Breakaway Books

Most Christian athletes know they are supposed to play for the glory of God, but what does that actually mean? How can the Bible be practically applied to sports? In *The Assist*, Brian Smith combines the wisdom of God's Word and his own experience working with athletes to help readers better understand how to integrate faith and sport. This book will show you how to: Use your sport to grow closer to God. Glorify God in every area of your sport, including practice, injuries, relating to teammates, and winning and losing graciously. Leverage

your position as an athlete to maximize your impact in God's kingdom. To be a Christian athlete means much more than just giving your best and making sure God gets the credit. It means living out your faith in every aspect of your sport. Smith's book is aimed at helping you do just that: it is designed to assist you in integrating your faith with your life as an athlete.

 “This is much more than a story of different religions, Jewish and Catholic, meeting on the cross-country course. I was drawn into the story by an even more eternal struggle: old vs new. Coach Bloom preaches the value of pain, hard work, suffering, and delayed gratification. His cross-country kids are, well, kids. They want to have fun, chase girls, and enjoy the loosey-goosey life. In Bloom’s inspiring tale, both coach and kids learn surprising lessons from each other.” —Amby Burfoot, executive editor, *Runner’s World*
 “God on the Starting Line is a classic, a tribute to all those who pursue excellence with

talent, pride, courage, and the ability to endure. It’s the best sports book I’ve read in years and should be required reading.”
 —Bud Greenspan, Emmy Award-winning Olympic filmmaker

When Marc Bloom began coaching boys’ cross-country at a small Catholic high school, he almost quit in frustration. The boys rejected Bloom’s attempts at discipline, fooled around at practice and, one day, tossed a team member into the ocean. Bloom persisted, seeking to instill good values and help the boys achieve a sense of personal heroism through running. Fueled by the spiritual teachings of his Jewish faith to “repair the world,” Bloom began to make

an impression on the boys, drawing out their courage and elements of their own faith. When Bloom combined ideas of hard work, passion, prayer, and suffering for a cause—a belief system necessary to sustain the rigors of cross-country running—the Running Roses ran their hearts out, making them state championship contenders and teaching the coach many lessons along the way. This is an important book for all runners, and for parents, coaches, and everyone who is touched by the joy and exaltation of young people who have much to teach the adult world about honor, decency, and the pursuit of excellence.

The remarkable untold story of the mercurial cycling prodigy Frank Vandenbroucke, written by William Hill award-winning author Andy McGrath. They called him God. For his grace on a bicycle, for his divine talent, for his heavenly looks. Frank Vandenbroucke had it all, and in the late Nineties he raced with dazzling speed and lived even faster. The Belgian won several of cycling's most illustrious races, including Liège-Bastogne-Liège, Paris-Nice and Ghent-Wevelgem. He was a mix of poise and

panache who enthralled a generation of cycling fans. Off the bike, he only had one enemy - himself. Vandembroucke dabbled in nocturnal party sessions mixing sleeping pills and alcohol and regularly fell out with team managers. By 1999 his team had suspended him and this proved to be the start of a long, eventful fall from grace. Depression, a drug ban, addiction, car crashes, divorce and countless court appearances subsumed his life. He threatened his wife with a gun. He tried to commit suicide twice. And when police found performance-enhancing drugs at his house, Vandembroucke said they were for his dog. It seemed he had finally learned from his

mistakes. Then, on 12 October 2009, aged just 34, Vandembroucke was found dead in a hotel room in Senegal. Guided by exclusive contributions from his family, friends and team-mates, William Hill award-winning author Andy McGrath lays bare Vandembroucke's chaotic, complicated life and times. *God is Dead* is the remarkable biography of this mercurial cycling prodigy.

In football, coaches must trust their players not to make the same mistake over and over again. However, God never gives up on us, no matter how many times we make

mistakes or commit sins. Remember that sinning is different from a mistake. To sin against the law of God requires intent against the law of God and the original Ten Commandments that God gave Moses. The connection between religion and sports is everywhere in our culture. Athletes and fans alike are known for praising God for all success. But beyond these public displays of religion is a spiritual connection that exists between our faith and our favorite teams. *God and Football: Why Men Love the Game* takes an in-depth look at this connection to show the spiritual reasoning behind our passions for the game. Playing or watching the game of football is beneficial physically

and spiritually. Real-time decisions made during a game simulate decisions that will be made later in life off the field. Yet risk is involved and attached to the activity. Injuries can and do occur during games, just as spiritual injuries occur in our daily lives. While football is a fierce game, it teaches us the importance of following the rules, embracing discipline, committing to a team, and trusting in a higher power. Football helps make men better by reminding us of our mortality as well as teaching us valuable life and spiritual lessons. Find out more about the connection between football and spirituality in *God and Football: Why Men Love the Game*.

The Athiest's Primer is a concise but wide-ranging introduction to a variety of arguments, concepts, and issues pertaining to belief in God. In lucid and engaging prose, Malcom Murray offers a penetrating yet fair-minded critique of the traditional arguments for the existence of God. He then explores a number of other important issues relevant to religious belief, such as the problem of suffering and the relationship between religion and morality, in each case arguing that atheism is preferable to theism. The book will appeal to both students and professionals in the philosophy of religion, as well as general

audiences interested in the topic.

Game Day and God: Football, Faith, and Politics in the American South takes seriously the often-stated assertion that college football in the South is a religion. To this end, Eric Bain-Selbo draws upon a wide range of theoretical approaches in religious studies and cultural criticism. He also relies upon field research on several campuses in the Southeastern Conference where he interviewed fans and experienced "game day." Consequently, the author is able to make the case that college football does function religiously for many people in the South. In addition, the author introduces key

concepts and theories of religion and culture to a general audience Game Day and God also recounts the role that college football has played in Southern history and culture. Going back as far as the Civil War, the work explains the cultural meaning of college football in the South, delivering a much-needed critical perspective to the subject Scholars of religion will find the work a compelling extension of key concepts and theories to an otherwise "secular" activity. Scholars of American culture and sports will find the work to be an interesting case study, one that-unlike much work in the area-focuses our attention on the religious dimension of the

phenomenon of sport in American culture. And general readers will find that college football or any sport can be much more than they imagined as well as discover important theories with which to make sense of the complexity of our daily lives Book jacket. *The Christian Athlete* Bloomsbury Publishing USA

This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. Sports

Around the World: History, Culture, and Practice provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major

controversies. Spanning topics as varied as modern professional cycling to the fictional movie Rocky to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to

general readers, students with school projects, university students and academics alike. Additionally, the four-volume *Sports Around the World* spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player. [God and Football...  Why do sports matter so much to so many people? And why should we care? Far from being a distraction or a trivial pastime, sports tell us deep truths about ourselves. Big-time sports are a particularly potent mirror for humanity--reflecting both our promising possibilities and our demonic

distortions. Theologian (and football coach's wife) Marcia Mount Shoop invites you to take a closer look at the hold that sports have on us. *Touchdowns for Jesus* takes you beneath the veil in some of the most challenging issues in sports today: fanaticism, sexism, racism, and abuse of power. And beneath the lifted veil you also encounter wisdom about how we can find our way back to what is most life-giving about sports. If you love sports, or if you just wonder why others do, *Touchdowns for Jesus* will give you a whole new way to view the games people play. *Congressional Record Universe* Publishing(NY)
 'Sport' and 'religion' are cultural institutions

with a global reach. Each is characterised by ritualised performance and by the ecstatic devotion of its followers, whether in the sports arena or the cathedral of worship. This fascinating collection is the first to examine, in detail, the relationship between these two cultural institutions from an international, religiously pluralistic perspective. It illuminates the role of sport and religion in the social formation of collective groups, and explores how sport might operate in the service of a religious community. The book offers a series of cutting-edge contemporary historical case-studies, wide-ranging in their social and religious

contexts. It presents important new work on the following fascinating topics: * sport and Catholicism in Northern Ireland * Shinto and sumo in Japan * women, sport and the American Jewish identity * religion, race and rugby in South Africa * sport and Islam in France and North Africa * sport and Christian fundamentalism in the US * Muhammad Ali and the Nation of Islam. With God on their Side is vital reading for all students of the history, sociology and culture of sport. It also presents important new research material that will be of interest to religious studies students, historians and anthropologists.
