This is the complete reference to the classic yachts and dinghies still sailing today. Focusing on the most well-known, popular and enduring

designs - from the 7ft Optimist to the 125ft J class - this beautifully illustrated book showcases 144 boats from across the world,

with a wealth of detail on each class, including: the origins and history of the class; what it's like to sail one; fascinating stories about the boat, who sailed her, and her development; stunning photography, sailplans and sail symbol; full detail on her length, layout and designer. Featuring designers from an internationally recognised hall of fame (including William Fife, Olin Stevens, Maurice Griffiths and Uffa Fox), *Classic Classes* is the perfect resource for classic boat owners and

enthusiasts worldwide, whether their interest lies in high-performance thoroughbred racers, well-loved creek crawling cruisers or popular home-built classic dinghies. Published in advance of the 2012 Olympics, there is also a section devoted to the 46 Olympic classes. **Be Your Own Sailing Coach** Fernhurst Books Limited

Manitoba's Hayes River runs over 600 km, from Norway House to Hudson Bay. Traditionally used for transport and hunting by the indigenous Cree, it became a major fur trade route from the 17th to 19th centuries. This is the account of the author's journey on the Hayes in the company of modern-day voyageurs reliving the past. Arctic Naturalist J. Dewey Soper was the

last of the great pioneer naturalists in Canada, and spent many years in the Arctic, where he discovered the breeding grounds of the blue goose and charted the final unknown region of Baffin Islands coastline.

Driving down the glamorous Las Vegas Strip, Bryce Hartman is plotting revenge against his former boss, the powerful governor of Nevada. Three thousand miles away, in Washington, D.C., Peter

Holden, a two-bit lobbyist, will soon be doing the same. Long silenced by Governor Logan Key, they alone suspect the dark secret he hides, one that threatens a multimillionaire Las Vegas casino baron who will stop at nothing to protect his interests. When Albert Tom, a young Paiute Indian, discovers a body in the desert, he tells his story to reporter Mike Stanton. Now Stanton must uncover a web of deceit and murder stretching from Las Vegas to Washington, two cities

where power, greed and illusion are the real games of chance.

Based on 25 years of research and Olympic coaching, High Performance Sailing reinvents the strategies of sailboat racing. It presents revolutionary explanations of wind prediction and boat design, a fundamental rethinking of how to sail a boat fast--literally faster than the wind.

Bethwaite's theories boosted the average

speed of the highest-performance sailboats from two-thirds the windspeed to windspeed or faster. Bethwaite is Australia's most successful Olympic coach, and his family includes three Olympic sailing champions and three world champions. This book will have a revolutionary impact on racing sailboats and the way they are sailed. Essential for any serious racing sailor.--Gary Jobson
It represents a breakthrough in the way that it relates the

theoretical aspects of wind, seastate and rig shape to the way a crew would sail and handle a boat during a race. It has the potential to be a standard reference work on the subject and will not quickly date. It is a book that my Olympic squad will benefit from.--Rod Carr, British Olympic Sailing Team Manager
Frank's book is a treasure chest, full of brilliant insights into the ways of air and water as they flow around our sailing boats. Best of all, he tells us what to do when we go

sailing.--Alan Payne, Designer of America's Cup challengers Greta I and II
Allowed only one 'if only' in yacht racing . . . it would have been to have read Frank Bethwaite's High Performance Sailing years ago and to have it available for constant reference. Taking all the advice which he offers from his wide experience would have made championship winning a great deal easier.--Bob Fisher, Journalist, broadcaster and winner of many national and international sailing

championships The most significant scientific thinking about sailboat racing to come along in three decades. A brilliant and important book for serious racing sailors.--Ed Adams, US Sailing Team Coach; national, North American, and world champion sailor
Bethwaite's grasp of the entire spectrum of sailing speed is unique and formidable.--Gerry Hoyt, Yacht designer, sailing speed innovator

7 Steps to Successful Boat Docking AuthorHouse

John Kretschmer is sailing's practical philosopher – as much a doer as a thinker. And that is the overarching

theme of this chronicle of a sailing life. Often amusing, sometimes poignant, occasionally terrifying but always inspiring, his deeply personal account is a welcome reminder of the good life waiting at sea. With hundreds of thousands of nautical miles under his keel, John's adventures have taken him several times around the world, with challenging crossings of the Atlantic and the Pacific, a narrow escape from a coup in Yemen, an unlikely deliverance from

a coral reef off Belize as well as more serene, introspective passages where trade winds are blowing and stories are flowing. His crew has included CEOs, actors, writers, teachers, kids – in essence, everyone. John's narrative is interwoven with practical tips and advice in seamanship, but also, and just as importantly, his hard-won insights about making the most of our lives. He truly believes we find out who we really are, and what we are capable of, far from the shackles of land,

when we find a place where time changes shape - days may merge into one another, but minutes are memorable. To live adventurously is to live more fully, and that is the life John Kretschmer continues to live. In this book he shares his simple profundities that will inspire those who live to sail, and those seeking something more rewarding from life.

After Royal Navy captain Sir John Franklin disappeared in the Arctic

in 1846 while seeking the Northwest Passage, the search for his two ships, Erebus and Terror, and survivors of his expedition became one of the most exhaustive quests of the 19th century. Despite tantalizing clues, the ships were never found, and the fate of Franklin's expedition passed into legend as one of the North's great and enduring mysteries. Anthony Dalton explores the eventful and fascinating life of this complex and intelligent man, beginning with his

early sea voyages and arduous overland explorations in the Arctic. After years in Malta and Tasmania, Franklin realized his dream of returning to the Far North; it would be his last expedition. Drawing from evidence found by 19th-century Arctic explorers following in Franklin's footsteps and investigations by 20th-century historians and archaeologists, Dalton retraces the route of the lost ships and recounts the sad tale of Franklin, his officers and men in

their final agonizing months.

Whether racing dinghies or yachts, every sailor wants to drive through the fleet and cross the line first. In this groundbreaking book, international racer Fred Imhoff shows how to do just that. By means of on-the-water action shots and detailed commentary about a sailor's tactics, sail trim, helming, crew positioning and psychological attitude,

Fred shares the secrets of competitive racing success. Whether first-time club racer or international America's Cup hotshot, every sailor's goal is to constantly improve and stay one step ahead of the competition. Fred's logical, clinical analyses accompanied by fantastic action shots, including many from the 2012 Olympics, will be a godsend to budding and improving racers alike. From advice on mental preparation, honing your gear, working the weather

and analysing the course, to briefing your crew, sussing out the other competitors and analysing your mistakes, this book is full of never-before-discussed gold dust that will be absolutely indispensable to all racers, whatever their age or level.

Sailing Big on a Small Sailboat Fernhurst Books Limited
'Monumental!' - Bob Ross, Australian Sailing High Performance Sailing is now regarded as the bible of racing sailors and carries a string of

endorsements from high achievers. Since its publication in 1984, racing yachts and dinghies have developed out of all recognition - a new high-tech breed of 'apparent wind' fast racers has claimed the water and so far no-one has applied themselves seriously to analysing what makes these boats sail fast (and what will make them faster). This is Frank Bethwaite's groundbreaking achievement in Higher Performance Sailing. By means of extensive research, and

working with sailors of different racing calibre, Bethwaite analyses how to harness the apparent wind for increased speed and better position on your rivals. Higher Performance Sailing will provide the key to racing sailors' dreams. Praise for Bethwaite's High Performance Sailing: 'It represents a breakthrough...It is a book that my Olympic squad will benefit from.' Rod Carr, former British Olympic Sailing Team Manager 'Allowed only one "if only" in yacht

racing, it would have been to have read Higher Performance Sailing years ago.' Bob Fisher, journalist, broadcaster and international championship winner **Winner's Guide to Optimist Sailing** McGraw Hill Professional Gold medal winning coach, Jon Emmett works with sailors and coaches around the world and is frequently asked things like: 'What is a good exercise to improve this?' 'Why do we do this exercise?' 'How do we make the exercise more /

less difficult?' This book is the answer to those frequently asked questions. It contains training exercises for each element of a sailing race. As well as describing and illustrating the exercise, it tells you what skills you are trying to improve, why and how to make the exercise harder or easier. The book will enable coaches to deliver better, more focussed, training sessions, but it will also help sailors who don't have the benefit of a coach to practise and improve their sailing

skills. The exercises are marked as to whether they are suitable for solo boats, groups of boats or those with a coach boat. As Aristotle said: "We are what we repeatedly do. Excellence then is not an act, but a habit." Armed with this book, get out, do some training and improve your sailing skills!

Training to Win Dundurn "How to Slay a Pirate" is the ultimate guide to achieving exciting and real success by inspiring you to set your goals in motion, slay your pirates

(your negative self-talk), and finally achieve what you've only dreamed of until now. It delivers five surprisingly simple lessons and strategies for turning your vision into reality and reaching your true potential.

Accompanied by travel blog excerpts from the author's nearly two-and-a-half year family sailing adventure across the Pacific, this book delivers a candid account of challenge, risk and reward to make a compelling case for why finding and following your passion is

essential.

Plot Your Course to Adventure Sheridan House, Inc.

Olympic gold medallist and multiple world champion, Paul Goodison, explains why this book is important if you want to win races. He says: "To win sailboat races you need to sail the boat fast. This comes down to hours on the water training and

tuning – there are few shortcuts to hours of practising on the water. To consistently win races you need to sail fast and smart – making the right decisions to sail the best course. If you are not the fastest boat, you are still able to win races and regattas by managing risk and sailing smart. This is where good tactics come in. But, unlike boatspeed, tactics may be learnt by thinking about each leg of the course and different situations from the comfort of your own home. Jon Emmett's new

book, *Tactics Made Simple*, is a great tool to help fast track this learning." This book explains simply, through hundreds of diagrams, what tactics can be applied around the race track. Individual boats in each scenario are given names so that you can easily understand what they are doing. Individual chapters take you around the race course, from before you get on the water, through the pre-start, start, different legs and manoeuvres. Each section contains detailed

advice for the beginner, intermediate and advanced sailor so you can just look at the level of tactics relevant to you. Ideal for dinghy sailors, there is also a wealth of advice that will benefit yachtsmen. This is a practical way to improve your racing results, whether starting out, moving up the club circuit or competing at national level and beyond. The life we live is a real truism of cause and

effect. Consequently, to succeed we need to understand the laws that govern success, which are as pervasive on us as the physical laws of gravity. 'Sail Your Boat' argues in favor of, and identifies, universal metrics of success which 'measure' our successes in life irrespective of our individual callings. The book also brings out five imperative factors of success which are derived from the metrics. In turn, these imperative factors 'generate' the hundreds of offshoot factors that many

consider as the 'fundamentals'. Success is a mindset that creates principles for an objective-driven life as well as a lifestyle that guides daily actions. To succeed, we need to: 1. Clearly understand and define success itself, 2. Understand the five imperative factors of success, 3. Know the traits and counter-traits of successful people, 4. Develop the success mindset, 5. Live the success lifestyle. The book consolidates key success issues and brings out the

explicable linkage between life and success as that of a journey with various destinations. 'Sail Your Boat' will be of great value to young adults striving to make sense of the direction they are taking in life. It will also clarify various issues to senior adults and help them make necessary corrections or put things in their proper perspectives. Success is a lifestyle and a journey, and we can only live lives of success if we understand what it takes to do that.
