Truth is not something we have to seek out. It is not something that is absent and far away, requiring great effort to find. Truth is present within you as the Life that is you. In Yoga of Heart, Los Angeles-based yoga instructor Mark Whitwell takes us back to the time when yoga was first developed--to the shamanic past of the Upanishads, when yoga was practiced as a means of acknowledging, enjoying, and participating in the very source of Life. Whitwell explores the deeper tantric dimensions of hatha yoga--how yoga's purpose is to link the mind to the wonder of our own condition. He shows how hatha yoga is participation in life's polarities already in union--through the male surrender to the female principle. Yoga of Heart shows how we can forge that union of polarities within our body: above and below, front and back, left and right, male and female. Yoga of Heart focuses especially on clearing the energy centers and meridians, fostering dynamic health and allowing practitioners to create a deeper intimacy with both their partners and the energetic life forces in the universe.

Dr. Doreen Virtue's life changed dramatically when angels miraculously warned her and then intervened during a carjacking. After her angelic encounter, Doreen began asking the angels for additional guidance. They answered her requests with very clear and loving words. She writes of how the angelic guidance affected her work as a psychotherapist: "I began helping my counselling clients to hear their own angels. Very quickly, I discovered that the healing power of the angels exceeds any form of 'man-made' therapy I had ever witnessed. The angels have wonderful gifts from God to impart to us." In Angel Therapy, Doreen delivers The Angelic Realm's messages of comfort and guidance that can help you with troubling emotions such as depression, boredom, confusion, and anger; and issues associated with careers, relationships, parenting, and much more.

In The Mastery of Love, don Miguel Ruiz illuminates the fear-based beliefs and assumptions that undermine love and lead to suffering and drama in

our relationships. Using insightful stories to bring his message to life, Ruiz shows us how to heal our emotional wounds, recover the freedom and joy that are our birthright, and restore the spirit of playfulness that is vital to loving relationships. The Mastery of Love includes: * Why "domestication" and the "image of perfection" lead to self-rejection * The war of control that slowly destroys most relationships * Why we hunt for love in others, and how to capture the love inside us * How to finally accept and forgive ourselves and others "Happiness can only come from inside of you and is the result of your love. When you are aware that no one else can make you happy, and that happiness is the result of your love, this becomes the greatest mastery of the Toltec: the Mastery of Love." - don Miguel Ruiz

The Birth Of A Mother John Wiley & Sons

The central question posed in this book is whether or not Newfoundland is becoming more violent. Three different papers examine various dimensions of crime and violence in the province from an historical perspective, illustrating how public perceptions of crime are formed. The first paper, by William O'Grady, discusses how violence is defined and measured. Based on examination of how official statistics are compiled and used, he assesses their ability to accurately record the incidence of violence. The next paper, by Elliott Leyton, investigates the role played by the press and by various interest groups in the period since the mid-1970s, in shaping and sustaining the idea that Newfoundland is in the midst of a wave of crime and violence. Overton's paper is an historical case study which examines the complex relationships between violence, questions of popular protest, public order, and economic and political conditions in Newfoundland in the 1930s.

Questo libro è una guida completa per Counselor ed Operatori olistici, scritta per essere accessibile a tutti. Il Counseling si occupa di favorire lo sviluppo delle potenzialità dell'individuo, aiutandolo a superare i conflitti interiori che gli impediscono di esprimersi pienamente e liberamente nella sua vita. Esaminando le radici storiche di questa disciplina, l'autore ci accompagna in un viaggio che ci riporta alle origini dell'umanità e alla sorgente della vita. Il counseling, infatti, ha a che fare con la vita di ognuno di noi, con le relazioni che stabiliamo con noi stessi e con gli altri, con i nostri 'problemi' e le nostre aspirazioni, con ciò che ci emoziona ci dà speranza. Ha a che fare con la natura, il pianeta, l'inquinamento, l'ecologia e l'utilizzo delle risorse naturali. Ha a che fare con il modo in cui nutriamo noi stessi, con il ritmo della nostra vita ed il nostro senso di alienazione. Nessuno di noi è un'isola: non possiamo crescere e prosperare come individui, se non ci rendiamo conto che ciascuno di noi è il nodo di un'immensa rete di rapporti e che siamo forti e sani tanto quanto lo sono le relazioni che intratteniamo con gli altri e con il pianeta.

A screenwriter and stand-up comic's hilarious and profound account of his journey into Zen monkhood—featuring a foreword by Leonard Cohen Shozan Jack Haubner is the David Sedaris of Zen Buddhism: a brilliant humorist and analyst of human foibles, whose hilarity is informed by the profound insights that have dawned on him—as he's stumbled and fallen into spiritual practice. Raised in a truly strange family of Mel-Gibson-esque Catholic extremists, he went on to study philosophy (becoming very un-Catholic in the process) and to pursue a career as a screenwriter and stand-up comic in the clubs of L.A. How he went from life in the fast lane to life on the stationary meditation cushion is the subject of this laugh-out-loud funny

account of his experiences. Whether he's dealing with the pranks of a juvenile delinquent assistant in the monastery kitchen or experiencing profound compassion in the presence of his spiritual teacher, Haubner's voice is one you'll be compelled to listen to. Not only because it's highly entertaining, but because of its remarkable insight into the human condition.

As you prepare to become a mother, you face an experience unlike any other in your life. Having a baby will redirect your preferences and pleasures and, most likely, will realign some of your values. As you undergo this unique psychological transformation, you will be guided by new hopes, fears, and priorities. In a most startling way, having a child will influence all of your closest relationships and redefine your role in your family's history. The charting of this remarkable, new realm is the subject of this compelling book. Renowned psychiatrist Daniel N. Stern has joined forces with pediatrician and child psychiatrist Nadia Bruschiweiler-Stern and journalist Alison Freeland to paint a wonderfully evocative picture of the psychology of motherhood. At the heart of *The Birth of a Mother* is an arresting premise: Just as a baby develops physically in utero and after birth, so a mother is born psychologically in the many months that precede and follow the birth of her baby. The recognition of this inner transformation emerges from hundreds of interviews with new mothers and decades of clinical experience. Filled with revealing case studies and personal comments from women who have shared this experience, this book will serve as an invaluable sourcebook for new mothers, validating the often confusing emotions that accompany the development of this new identity. In addition to providing insight into the unique state of motherhood, the authors touch on related topics such as going back to work, fatherhood, adoption, and premature birth. During pregnancy, mothers-to-be talk about morning sickness and their changing bodies, and new mothers talk about their exhaustion, the benefits of nursing or bottle-feeding, and the dilemma of whether or when they should return to work. And yet, they can be strangely mute about the dramatic and often overwhelming changes going on in their inner lives. Finally, with *The Birth of a Mother*, these powerful feelings are eloquently put into words.
