The objective of this book is to guide the students to make the grades in the personal interview with the help of tips and solved examples of frequently

asked questions. It also incorporates the real interview experiences of the candidates who appeared for previous bank's interview phases and mock exercise set to encourage them to be prepared to face the toughest questions with a decent strategy. The topics put into this book are to equip candidates with fundamental knowledge of everything that could be asked from one during his interview for the final round of a bank examination.

Financial Control and

Compliance Manual for Presidential Primary Candidates Receiving Public Financing S. Chand Publishing
Francesco Daniele Padovano is a gliding instructor with more than 15.000 flights in his experience along with training commercial pilots as a TKI at CAE. He has been one of the main instructors of the national school in Spain and holds active SPL FI-FI, Acro and TMG ratings. Among others, he has laid the foundations of the gliding training programme in

Colombia and has taught in the Argentinean army in their courses dedicated to drone pilot training. He is currently developing a programme dedicated to children at risk of exclusion with a motivational programme through gliding and collaborating with various vocational schools to complement the training with gliding. He is the author of several publications in the aeronautical field: "El Manual del piloto de vuelo sin motor", "Manual del instructor de vuelo sin

motor”, “Meteorología para drones”, “Glider Flight Instructor Manual, development of the first period-basic course based on the EASA SFCL regulation of march 2020 with the introduction of competence criteria”. This book wishes to propose a standard for SPL examiners based on CBTA (Competence Training and Assessment) and related mission sheet. After the publication of the book "Glider flight instructor manual" with the introduction of the competence criteria

(CBTA), this text is the natural evolution because, if a competence-based teaching system is proposed, the evaluation at examination level of the candidates for obtaining the licences and ratings, foreseen in the EASA regulation EU 2020/358, remains unresolved. Therefore, this text aims to provide a solution to the doubts that may arise for examiners when conducting an examination.
