The Gift is a children's book that tells the story of a child asking their parents the common question, "How did I come to be?" The story unfolds with colorful illustrations of families from different cultures explaining to their child how they became part of their family. The intention of the book is to explain in a loving way that they are a gift and a treasured part of the family. The book leaves space for writing in the child's name and birthdate as part of the story so it feels personalized, making it a great gift for a baby shower. This book is available in hard cover, soft cover, and e-book. Available languages include English, Spanish, and bilingual (English/Spanish).

*Introduction to Chemistry* Sweet & Maxwell

"This is an outstanding collection of papers by top scholars in a range of disciplines who shed stimulating, complementary insights into the social, cognitive and semiotic frameworks that shape both the acquisition of language, and the constitution of social actors through that process. The intentionally loose ecological framing of the volume provides an arena within which a range of perspectives, all united by their opposition to a mechanistic view of language acquisition, can enter into dialogue with each other. This is a most stimulating collection, with a range of insightful investigations of settings as diverse as an autistic child learning to interact with others on the playing field, professional gate-keeping encounters, and foreign language classrooms." Professor Charles Goodwin, University of California at Los Angeles The book brings together well-known scholars in two relatively distinct fields, language acquisition and language socialization, and from a variety of orientations within applied linguistics to describe language development from a relational perspective. The papers in this volume are a response to three main questions: 1) What conceptual models best capture the ecological nature of language learning? 2) What research approaches are best likely to illuminate the relationship between language and social structure? 3) How is educational success defined for language acquisition and language socialization?

Since it was first established in the 1970s the Applied Linguistics and Language Study series has become a major force in the study of practical problems in human communication and language education. Drawing extensively on empirical research and theoretical work in linguistics, sociology, psychology and education, the series explores key issues in language acquisition and language use. What the learner contributes is central to the language learning process. *Learner Contributions to Language Learning* provides a uniquely comprehensive account of learners' personal attributes, their thinking, their feelings, and their actions that have been shown to have an impact upon language learning. Containing specific chapters from leading names in the field, this book provides both a review of what has been discovered from previous research and identifies important future directions for research on learner contributions. It is a landmark volume setting the agenda for language learning research in the 21st century and it provides invaluable information for all those engaged in language teaching. The contributors to the volume are- Michael P. Breen Bonny Norton Anna Chamot Rebecca Oxford Rod Ellis Anna Pavlenko James P. Lantolf Anita Wenden Diane Larsen-Freeman

*The Devil and Tom Walker* by Washington Irving Classic Short Horror Stories - The Devil By his interest in popular legends the first of the great American writers shows his sympathy with the Romantic movement, which prevailed in his time in all the countries of Europe. His devil, however, has not been imported from the lands across the Atlantic, but is a part of the superstitions of the New World. The author himself did not believe in "Old Scratch." The real devils for him were the slave-traders and the witch-hunters of Salem fame. It is interesting now to read a contemporary critic of Washington Irving's devil-story: "If Mr. Irving believes in the existence of Tom Walker's master, we can scarcely conceive how he can so earnestly jest about him; at all events, we would counsel him to beware lest his own spells should prove fatal to him" (Eclectic Review, 1825). Few people in those days had the courage to take Old Nick good-naturedly. "Even the clever Madame de Stael," said Goethe, "was greatly scandalized that I kept the devil in such good-humour." The devil appears in many colours, principally, however, in black and red. It is a common belief in Scotland that the devil is a black man, as may also be seen in Robert Louis Stevenson's story "Thrawn Janet." There is no warrant in the biblical tradition for a black devil. Satan, however, appeared as an Ethiopian as far back as the days of the Church Fathers. The black colour presumably is intended to suggest his place of abode, whereas red denotes the scorching fires of hell. The devil was considered as a sort of eternal Salamander. In the New Testament he is described as a fiery fiend. Red was considered by Oriental nations as a diabolical colour. In Egypt red hair and red animals of all kinds were considered infernal. The Apis was also red-coloured. Satan's red beard recalls the Scandinavian god Donar or Thor, who is of Phoenician origin. Judas was always represented in mediaeval mystery-plays with a red beard; and down to the present day red hair is the mark of a suspicious character. The devil also appears as yellow, and even blue, but never as white or green. The yellow devil is but a shade less bright than his fiery brother. The blue devil is a sulphur-constituted individual. He is the demon of melancholy, and fills us with "the blues." As the spirit of darkness and death, the devil cannot assume the colours of white or green, which are the symbols of light and life. The devil's dragon-tail is, according to Sir Walter Scott, of biblical tradition, coming from a literal interpretation of a figurative expression. A few interesting remarks on the expression "The Devil and Tom Walker" current in certain parts of this country as a caution to users will be found in Dr. Blondheim's article "The Devil and Doctor Foster" in *Modern Language Notes* for 1918.

Education is the key to America's economic growth and prosperity and to our ability to compete in the global economy. It is the path to higher earning power for Americans and is necessary for our democracy to work. It fosters the cross-border, cross-cultural collaboration required to solve the most challenging problems of our time. The National Education Technology Plan 2010 calls for revolutionary transformation. Specifically, we must embrace innovation and technology which is at the core of virtually every aspect of our daily lives and work. This book explores the National Education Technology Plan which presents a model of learning powered by technology, with goals and recommendations in five

essential areas: learning, assessment, teaching, infrastructure and productivity.

This special edition of *The Templeton Twins Have an Idea: Book One* also includes a sneak preview of *The Templeton Twins Make a Scene: Book Two* and a Q&A with the author. Suppose there were 12-year-old twins, a boy and girl named John and Abigail Templeton. Let's say John was pragmatic and played the drums, and Abigail was theoretical and solved cryptic crosswords. Now suppose their father was a brilliant, if sometimes confused, inventor. And suppose that another set of twins—adults—named Dean D. Dean and Dan D. Dean, kidnapped the Templeton twins and their ridiculous dog in order to get their father to turn over one of his genius (sort of) inventions. Yes, I said kidnapped. Wouldn't it be fun to read about that? Oh please. It would so. Luckily for you, this is just the first in a series perfect for boys and girls who are smart, clever, and funny (just like the twins), and enjoy reading adventurous stories (who doesn't?!).

Writing in an age when the call for the rights of man had brought revolution to America and France, Mary Wollstonecraft produced her own declaration of female independence in 1792. Passionate and forthright, *A Vindication of the Rights of Woman* attacked the prevailing view of docile, decorative femininity, and instead laid out the principles of emancipation: an equal education for girls and boys, an end to prejudice, and for women to become defined by their profession, not their partner. Mary Wollstonecraft's work was received with a mixture of admiration and outrage. Hugh Walpole called her "a hyena in petticoats." Yet it established her as the mother of modern feminism.

*Learner Contributions to Language Learning* Bloomsbury Publishing

The Fellows family has joined numerous others striving to make a go of homesteading in the Oregon high desert. But the venture has been disastrous from the start. Mr. Fellows, who is not a farmer, resents any advice from his wife, who grew up on a farm. Ma is not only troubled about the farming, but 7-year-old Ellie's chronic illness has become a source of constant worry and expense. 12-year-old Chris, who cannot seem to please his father no matter what he does, eases his own misery by stealing time away from work to watch a neighbor's scarcely broken black pony, only to get into more trouble. When it seems circumstances could not get worse for the struggling family, Fellows gets drunk and dies. Not willing to give up, Ma stubbornly—and creatively—seeks a way for the family to stay in Oregon. Frank Chase, an unintentional element in the death of Chris's father, is added to the mix and challenged by Ma to keep his word to help the family. The resultant dramatic and sometimes humorous contest of wills comes to a satisfying culmination when, after Frank's purchase of the wild black pony for Chris, Ma is reluctantly forced to once again use her "backbone of steel" for the good of all. Walt Morey's careful research and vivid storytelling talent warmly bring to life the struggles and triumphs of homesteading in the Oregon high desert country in the early 1900's.
