The Little Book of Talent Side x Side Publishing

Elegant and stunningly illustrated, this monograph chronicles the life of one of history's most influential couturiers; Coco Chanel. She started a fashion revolution with her liberating inventions in sportswear and jersey, iconic suit, and little black dress. The Little Book of Chanel follows the great designer's evolution and innovation, from her impoverished childhood to her present-day legacy. With its detailed photographs of Chanel's designs, fashion photography, and catwalk shots, this is a fitting tribute to a legend.

The Little Book of Saints Simon and Schuster

Take your self-care and healing to the next level by redefining rest with these accessible and practical approaches to looking beyond sleep and focusing on other physical, mental, spiritual, and emotional parts of the self. Do you wake up in the morning and still feel tired? Do your supposedly relaxing activities actually just feel like another thing to check off that to-do-list? Do you feel like you never really have time to recharge? It's time to rethink rest! Rest is no longer about just getting a good night's sleep or taking an evening to relax on the couch and watch TV. It's a radical act of self-care that asks you to take into account all the different aspects of yourself that need to rest and take a break. And The Little Book of Rest has everything you need to get started. In this book, you'll find restful solutions that will impact each of every part of yourself, including: -Your body: Yes, sleep is important. But did you know that taking a bubble bath to relax your muscles or practicing foam rolling can also help your body chill out? -Your mind: Try some activities to help give your mind a break on those days when you're distracted and unfocused like doing a ten-minute meditation or taking a thirty-minute break from your phone. -Your emotions: After a stressful, difficult situation, your emotions need some cool down time too! Try cuddling with your pet or even spending ten minutes daydreaming about something pleasant. -Your spirit: Even something as simple as lying on a beach or sitting outdoors and listening to nature sounds can be enough to give your soul the rest it needs. With insight into why resting—really resting—can benefit you and your community as a whole, this book is your guide to slowing down, letting go, and finding peace and healing within yourself.

The Little Book of Books John Wiley & Sons

How did she turn a side hustle into a game-changing business, and at the same time, achieve happiness and fulfillment in her life? For Charlotte, it all came down to one thing—jeong. One of the most important Korean cultural values, jeong is a feeling of loyalty and of strong emotional connection to people and places. It goes deeper than love and friendship and grows stronger with time. In South Korea, jeong is critical for success in every facet of daily life, from cultivating hobbies to developing careers and relationships. In The Little Book of Jeong, Charlotte shares how jeong changed her own trajectory in life, landing her a job

opportunity in Seoul and giving her the fuel she and her husband Dave needed to launch a ground-breaking digital skin care platform and skin care line. A personal story that centers around the deep bond she built with Korea, Charlotte reveals how jeong can radically change our relationships with our loved ones, our work, and the world around us, and challenges us to cultivate jeong in our own lives.

The Little Book of Hygge Cider Mill Press

A concise, lively, and bracing exploration of an issue bedeviling our cultural landscape—plagiarism in literature, academia, music, art, and film—by one of our most influential and controversial legal scholars. Best-selling novelists J. K. Rowling and Dan Brown, popular historians Doris Kearns Goodwin and Stephen Ambrose, Harvard law professor Charles Ogletree, first novelist Kaavya Viswanathan: all have rightly or wrongly been accused of plagiarism—theft of intellectual property—provoking widespread media punditry. But what exactly is plagiarism? How has the meaning of this notoriously ambiguous term changed over time as a consequence of historical and cultural transformations? Is the practice on the rise, or just more easily detectable by technological advances? How does the current market for expressive goods inform our own understanding of plagiarism? Is there really such a thing as “cryptomnesia,” the unconscious, unintentional appropriation of another’s work? What are the mysterious motives and curious excuses of plagiarists? What forms of punishment and absolution does this “sin” elicit? What is the good in certain types of plagiarism? Provocative, insightful, and extraordinary for its clarity and forthrightness, The Little Book of Plagiarism is an analytical tour de force in small, the work of “one of the top twenty legal thinkers in America” (Legal Affairs), a distinguished jurist renowned for his adventuresome intellect and daring iconoclasm.

The Little Book That Beats the Market Side x Side Publishing

New York Times Bestseller Embrace Hygge (pronounced hoo-ga) and become happier with this definitive guide to the Danish philosophy of comfort, togetherness, and well-being. Why are Danes the happiest people in the world? The answer, says Meik Wiking, CEO of the Happiness Research Institute in Copenhagen, is Hygge. Loosely translated, Hygge—pronounced Hoo-ga—is a sense of comfort, togetherness, and well-being. "Hygge is about an atmosphere and an experience," Wiking explains. "It is about being with the people we love. A feeling of home. A feeling that we are safe." Hygge is the sensation you get when you're cuddled up on a sofa, in cozy socks under a soft throw, during a storm. It's that feeling when you're sharing comfort food and easy conversation with loved ones at a candlelit table. It is the warmth of morning light shining just right on a crisp blue-sky day. The Little Book of Hygge introduces you to this cornerstone of Danish life, and offers advice and ideas on incorporating it into your own life, such as: Get comfy. Take a break. Be here now. Turn off the phones. Turn down the lights. Bring out the candles. Build relationships. Spend time with your tribe. Give yourself a break from the demands of healthy living. Cake is most definitely Hygge. Live life today, like there is no coffee tomorrow. From

picking the right lighting to organizing a Hygge get-together to dressing hygge, *Wiking* shows you how to experience more joy and contentment the Danish way.

The Little Book of Contentment Gibbs Smith

Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. A title in *The Little Books of Justice and Peacebuilding Series*.

The Little Book of Living Small Princeton University Press

Looks at the orbital patterns of the planets and the mathematical patterns surrounding them.

The Little Book Pantheon

Tony Rothman offers a primer on the science of the big bang and the questions we still can't answer about the origins of the universe. Enlisting thoughtful analogies and a step-by-step approach, Rothman guides readers through dark matter, dark energy, quantum gravity, and other topics at—and beyond—the cutting edge of cosmology.

The Little Book of Life Skills Bloomsbury Publishing USA

A SUNDAY TIMES DESIGN BOOK OF THE YEAR

The definitive guide for harnessing the power of colour to improve your happiness, wellbeing and confidence Wouldn't you like to boost your confidence simply by slipping on 'that' yellow jumper? Or when you get home after a stressful day, be instantly soothed by the restful green of your walls? The colours all around us hold an emotional energy. Applied Colour Psychology specialist, Karen Haller, explains the inherent power of colour; for example, looking closely at the colours we love or those we dislike can bring up deeply buried memories and with them powerful feelings. A revolutionary guide to boosting your wellbeing, *The Little Book of Colour* puts you firmly in the driver's seat and on the road to changing the colours in your world to revamp your mood and motivation. Illuminating the science, psychology and emotional significance of colour, with key assessments for finding your own true colour compatibility, this book will help you to rediscover meaning in everything you do through the joy of colour. Get ready to join the colour revolution, and change your life for the better.

The Little Book of Chanel Welbeck Publishing Group

Contentment is a super power. If you can learn the skills of contentment, your life will be better in so many ways: You'll enjoy your life more. Your relationship will be stronger. You'll be better at meeting people. You'll be healthier, and good at forming healthy habits. You'll like and trust yourself more. You'll be jealous less. You'll be less angry and more at peace. You'll be happier with your body. You'll be happier no matter what you're doing or who you're with. Those are a lot of benefits, from one small bundle of skills. Putting some time in learning the skills of contentment is worth the effect and will pay off for the rest of your life.

The Little Book of History Sounds True

The cutting-edge science that is taking the measure of the universe *The Little Book of Cosmology* provides a breathtaking look at our universe on the grandest scales imaginable. Written by one of the world's leading experimental cosmologists, this short but deeply insightful book describes what scientists are revealing through precise measurements of the faint thermal afterglow of the Big Bang—known as the cosmic microwave background, or CMB—and how their findings are transforming our view of the cosmos. Blending the latest findings in cosmology with essential concepts from physics, Lyman Page first helps readers to grasp the sheer enormity of the universe, explaining how to understand the history of its formation and evolution in space and time. Then he sheds light on how spatial variations in the CMB formed, how they reveal the age, size, and geometry of the universe, and how they offer a blueprint for the formation of cosmic structure. Not only does Page explain current observations and measurements, he describes how they can be woven together into a unified picture to form the Standard Model of Cosmology. Yet much remains unknown, and this incisive book also describes the search for ever deeper knowledge at the field's frontiers—from quests to understand the nature of neutrinos and dark energy to investigations into the physics of the very early universe.

The Little Book of Philosophy Harvard University Press

A pocket-sized and fully illustrated story of one of the world's most luxurious fashion houses.

The Little Book of Peace Penguin UK
