World History 2011 National Modern Student Edition Prentice Hall  
An Introductory Exploration of the History of the World The World's History encourages readers to explore the history of the world and

the significance of this unique study. The past is not simply a list of events, rather the records of historic interpretations of those events. Because interpretations differ from historian to historian, the study of history becomes a pool of various narrations told from different perspectives. The World's History celebrates these differentiating values offering readers a rich, comprehensive, and challenging introduction to the study of world history and the methods

and key interpretations of its historians. This title links chronology, themes, and geography in eight units, or parts of study. The parts move progressively along a timeline from emergence of early humans to the present day encouraging students to analyze historical events and develop a grasp of the chronology of human development. Readers will gain an appreciation of the national and cultural origins of all their diverse fellow citizens. MyHistoryLab is an

integral part of the Spodek program. Key learning applications include, the World History Video Series, MyHistoryLibrary, and the all new Writing Space. Teaching and Learning Experience This program will provide a better teaching and learning experience- for you and your students. It: Personalized Learning with MyHistoryLab: The new MyHistoryLab delivers proven results in helping students succeed, and provides engaging experiences that

personalize learning. Emphasized Critical Thinking: Learning tools throughout the text help students to focus their learning on key material and becomes more critical thinkers. Ages Hodder Education "Explore a variety of topics in American and world history and geography with the only officially approved program matching the Core Knowledge Sequence."--Page 4 of cover **Prentice Hall World History** Prentice Hall The World interweaves two stories—of our interactions with nature and with each other. The environment-centered story is about humans distancing themselves from the rest of nature

and searching for a relationship that strikes a balance between constructive and destructive exploitation. The culture-centered story is of how human cultures have become mutually influential and yet mutually differentiating. Both stories have been going on for thousands of years. We do not know whether they will end in triumph or disaster. There is no prospect of covering all of world history in one book. Rather, the fabric of this book is woven from

selected strands. Readers will see these at every turn, twisted together into yarn, stretched into stories. Human-focused historical ecology—the environmental theme—will drive readers back, again and again, to the same concepts: sustenance, shelter, disease, energy, technology, art. (The last is a vital category for historians, not only because it is part of our interface with the rest of the world, but also because it forms a record of how we see reality and

of how the way we see it changes.) In the global story of human interactions—the cultural theme—we return constantly to the ways people make contact with each another: migration, trade, war, imperialism, pilgrimage, gift exchange, diplomacy, travel—and to their social frameworks: the economic and political arenas, the human groups and groupings, the states and civilizations, the sexes and generations, the classes and clusters of identity.

### History McGraw-Hill/Glencoe

Most people's concept of the 'end of the world' comes from the book of Revelation. Today, there are an estimated 25 million Christian fundamentalists in the US who believe it will come with the 'Rapture;' others point to an ecological catastrophe, the AIDS pandemic, nuclear and biological warfare. With the benefit of a vast historical canvas, Pearson examines both apocalyptic theory (biblical literature, art,

and popular culture) and practice (politics, cults, war, and revolution), from its Biblical beginnings to the Branch Davidians, via the Vikings, the French Revolution, the Pilgrim Fathers, Hitler's Apocalyptic rhetoric, asteroids, Hollywood and suicide bombers. Pearson's illuminating study shows how our pictures of the end of the world have evoked and converged--and are still very much on the agenda.
