Peaks of Europe' is not a traditional landscape photography book. It's the result of a 5-month adventure across 17 countries told through the lens of a European travel

photographer who took 29 years to finally explore the continent on which in he was born. The book has been designed for a specific purpose: telling the story of a 5-month road trip and what it takes to be living out of a car for several months, with all the good and bad moments. For this project, Johan Lolos wasn't just documenting the landscapes. This book features a series of photos with a

focus on the storytelling as much as the imagery. At the end, the people he met were what he remembered most.

Heart disease poses the greatest health threat that women in the United States face: One in every three women will die from it

each year. But that doesn't have to be the case. Heart disease is not an inevitable part of growing older. In fact, if you reach the age of 50 without developing the major risk factors for heart disease, you can live your entire life without it, and your chances of dying from it decrease from 50 percent to a strikingly low 8 percent. The key to preventing heart disease is embracing a heart-healthy lifestyle—and the sooner,

the better. In this groundbreaking book, the American Heart Association shows how even the smallest changes can make a big difference over time to protect the health of your heart. The Complete Guide to Women's Heart Health explains how gradual and sustainable shifts in your routine, such as using just a little more than one percent of your time each week to exercise or losing just 10 percent of your body weight, can have a far-reaching impact on your health. With specific pointers on diet, exercise, and health care, this book shows you how to get past the common obstacles as well as how to make taking care of your heart easy and attainable for the busy life you lead, at every age. In chapters targeted for every decade of a woman's life from her 20s to her 70s and beyond, the American Heart Association gives women age-appropriate advice on healthy lifestyle choices and heart-health care. Additional information addressing issues of special interest to women and how those issues affect the heart include:

- Smoking
- Pregnancy
- Menopause and hormone therapy
- Aging
- Diabetes and

other health conditions
 With the latest guidelines on prevention, suggestions on how to work with your healthcare providers to maintain and improve your vitality, details on screening technologies, and facts about common diagnoses and treatment options, this book is the ultimate resource to help you—and all the women in your life—fight heart disease. From the Hardcover edition.

 ★★★★★ "This story grabs your heart and never lets go." Saving Lucy is the true and inspiring story of two creatures in need of healing and rescue—who find home in each other. Ishbel Rose Holmes was adrift and alone when she set out to bicycle across the world. She was pedalling across Turkey

when a street dog, Lucy, crossed her path and changed her life forever. Ishbel did not want anything or anyone to slow her down, but when she witnessed Lucy attacked by other dogs, Ishbel rescued her—forming a deep bond between the pair. Ishbel recognized her own vulnerability in her new canine friend and launched a heartfelt mission to find Lucy a home and give her a happy life. Their

adventures took them over 1,000 miles to the Syrian border and into the hearts of everyone who met them. People around the world who followed the story on Ishbel's blog, World Bike Girl, watched as Lucy's unconditional love broke down the wall around Ishbel's heart. Peaks of Europe The Mountaineers Books Bradt's fully illustrated wildlife guides focus on regions of the world

The travel writer Paul Theroux turns his unflinching eye on an American South too often overlooked. He finds there a paradoxical place, full of incomparable music, unparalleled cuisine, and yet also some of the nation's worst schools, housing, and unemployment rates. On road trips spanning four seasons, wending along rural

highways, Theroux visits gun shows and small-town churches, laborers in Arkansas, and parts of Mississippi where they still call the farm up the road 'the plantation.' He talks to mayors and social workers, writers and reverends, the working poor and farming families ... the unsung heroes of the south, the people who, despite it all, never left, and also those who returned home to

rebuild a place they could never live without *Aconcagua* Lonely Planet Sustainable mobility is an approach to designing sustainable neighbourhoods, and therefore plays an important role in every society. Hence, this monograph is an important tool for all people with the power to introduce sustainability into the design of transport networks, since education is

Imagine learning from a nosy classmate that your mother is

having yet another baby.
To Ralph's classmates, news of one more Fletcher baby is just "scuttlebutt."
But for Ralph, the oldest of nine, being part of a large family means more kids to join in the fun—from making tripods in the woods and "snicking" up the rug, to raising chicks and even discovering a meteor (well, maybe). It doesn't feel like there's life beyond Marshfield, Massachusetts . Then one

day Dad's new job moves the family to Chicago, and there's so much Ralph has to leave behind. In this humorous and captivating memoir, Ralph Fletcher traces the roots of his storytelling.

The Sahara: a dream-like, far away landscape of Lawrence of Arabia and Wilfred Thesiger, The English Patient and

Star Wars, and home to nomadic communities whose ways of life stretch back millennia. Today it's a teeth-janglingly dangerous destination, where the threat of jihadists lurks just over the horizon. Following in the footsteps of 16th century traveller Leo Africanus, Nicholas Jubber went on a turbulent adventure to the forgotten places of North Africa and the legendary Timbuktu. Once the seat of African civilization and home to the richest man who ever lived, this mythic city is now scarred by terrorist occupation and is so remote its own inhabitants hail you with the greeting, 'Welcome to the middle of nowhere'. From the cattle markets of the Atlas, across the Western Sahara and up the Niger river, Nicholas joins the camps of the Tuareg, Fulani, Berbers, and other communities, to learn about their craft, their values and their place in the world. The Timbuktu School for Nomads is a unique look at a resilient city and how the nomads pit ancient ways of life against the challenges of the 21st century.
