Critical, independent voices are seldom found within the citadels of international finance. That's what makes Nomi Prins unique. During fifteen years as an executive at skyscraping banks like Goldman Sachs, Bear Stearns, and Lehman Brothers, Prins never lost her ability to see the broader picture. She walked away from the game in 2002 out of disgust with the burgeoning corporate corruption, just as its magnitude was becoming clear to the public. In this acclaimed exposé, named one of the best books of 2004 by The Economist, Barron's, Library Journal, and The Progressive, Prins provides fascinating firsthand details of day-to-day life in the financial leviathans, with all its rich absurdities. She demonstrates how the much-publicized fraud of recent years resulted from deregulation that trashed the rules of responsible corporate behavior, and not simply the unbridled greed of a select few. While the stock market roared on the back of phony balance sheets, executives made out like bandits and Congress looked the

other way. Worse yet, as the new foreword to the paperback edition makes clear, everything remains in place for a repeat performance.

In this searing exposé former Wall Street insider Nomi Prins shows how the 2007-2008 financial crisis turbo-boosted the influence of central bankers and triggered a massive shift in the world order. Central banks and international institutions like the IMF have overstepped their traditional mandates by directing the flow of epic sums of fabricated money without any checks or balances. Meanwhile, the open door between private and central banking has ensured endless opportunities for market manipulation and asset bubbles -- with government support. Through on-the-ground reporting, Prins reveals how five regions and their central banks reshaped economics and geopolitics. She discloses how Mexico navigated its relationship with the US while striving for independence and how Brazil led the BRICS countries to challenge the US dollar's hegemony. She explains how China's retaliation against the Fed's supremacy is aiding its ongoing ascent as a global superpower and how Japan is negotiating the power shift from the West to the East. And she illustrates how the European response to the financial crisis fueled instability that manifests itself in everything from rising populism to the shocking Brexit vote. Packed with tantalizing details about the elite players orchestrating the world economy -- from Janet Yellen and Mario Draghi to Ben Bernanke and Christine Lagarde -- Collusion takes the reader inside the most discreet conversations at exclusive retreats like Jackson Hole and Davos. A work of meticulous reporting and bracing analysis, Collusion will change the way we understand the new world of international finance.

In the bestselling tradition of *The Red Tent*, *The Family Orchard* is

a spellbinding novel of one unforgettable family, the orchard they've tended for generations, and a love story that transcends the ages. Nomi Eve's lavishly imagined account begins in Palestine in 1837, with the tale of the irrepressible family matriarch, Esther, who was lured by the smell of baking bread into an affair with the local baker. Esther passes on her passionate nature to her son, Eliezer, whose love for the forbidden Golda threatened to tear the family apart. And to her granddaughter, Avra the thief, a tiny wisp of a girl who thumbed her nose at her elders by swiping precious stones from the local bazaar-and grew to marry a man she met at the scene of a crime. At once epic and intimate, *The Family Orchard* is a rich historical tapestry of passion and tradition from a storyteller of beguiling power.
