Quirky, surprising and entertaining - with more than 400 houses, Jutaku is architecture at the speed of Japan. Frenetic. Pulsating. Disorienting. Japan's contemporary culture is constantly in flux. In stark contrast to the centuries old imperial architecture of Kyoto, recent Japanese architectural practices have ushered in an era of continuous experimentation. With 400 houses, one house per page, one image per house, Jutaku: Japanese Houses is a fast-paced, "quick hit" shock to the system that shines a Harajuku-bright neon light on the sheer volume, variety and novelty of contemporary Japanese residential architecture. Featuring the work of many of Japan's most famous architects including Shigeru Ban, Sou Fujimoto, Toyo Ito, Kengo Kuma, Jun Igarishi, Shuhei Endo and dozens of up and coming and completely unknown young architects, Jutaku is organized geographically taking

readers on a bullet train journey across Japan's architectural landscape. Essential reading for architects, designers and fans of contemporary Japanese culture.

WORLDWIDE "Workers looking for more fulfilling positions should start by identifying their ikigai." —Business Insider "One of the unintended—yet positive—consequences of the [pandemic] is that it is forcing people to reevaluate their jobs, careers, and lives. Use this time wisely, find your personal ikigai, and live your best life." —Forbes Find your ikigai (pronounced ee-key-guy) to

live longer and bring more meaning and joy to all your days. "Only staying active will make you want to live a hundred years." —Japanese proverb According to the Japanese, everyone has an ikigai—a reason for living. And according to the residents of the Japanese village with the world's longest-living people, finding it is the key to a happier and longer life. Having a strong sense of ikigai—where what you love, what you're good at, what you can get paid for, and what the world needs all overlap—means that each day is infused with meaning. It's the reason we get up in the morning. It's also the reason many Japanese never really retire (in fact there's no word in Japanese that means retire in the sense it does in English): They remain active and work at what they enjoy, because they've found a real purpose in life—the happiness of always being busy. In researching this book, the authors interviewed the residents of the Japanese village with the highest percentage of 100-year-olds—one of the world's Blue Zones. Ikigai reveals the secrets to their longevity and happiness: how they eat, how they move, how they work, how they foster collaboration and community, and—their best-kept secret—how they find the ikigai that brings satisfaction to their lives. And it provides practical tools to help you discover your own ikigai. Because who doesn't want to find happiness in every day?

The best-selling phenomenon from Japan that shows us a minimalist life is a happy life. Fumio Sasaki is not an enlightened minimalism expert or organizing guru like Marie Kondo—he's just a regular guy who was stressed out and constantly comparing himself to others, until one day he decided to change his life by saying goodbye to everything he didn't absolutely need. The

effects were remarkable: Sasaki gained true freedom, new focus, and a real sense of gratitude for everything around him. In *Goodbye, Things* Sasaki modestly shares his personal minimalist experience, offering specific tips on the minimizing process and revealing how the new minimalist movement can not only transform your space but truly enrich your life. The benefits of a minimalist life can be realized by anyone, and Sasaki's humble vision of true happiness will open your eyes to minimalism's potential.

New Zen is a unique publication - a collection of the most innovative modern Japanese tea ceremony rooms, or chashitsu, designed by contemporary architects. Traditionally chashitsu are made up of certain elements - an alcove (tokonoma), with a flower and painted scroll, tatami mats, a sunken hearth (ro) and chashitsu windows - never contain furniture and are used for contemplation. In the last fifteen years Japanese architects have been reinterpreting the tea ceremony room, creating modern meditative spaces. The result is that these rooms represent some of the most interesting interior design and architecture in Japan, featuring a vast array of materials, including paper, wood, plastic, metal and concrete. This book is the only one to examine this phenomenon.

Andy Couturier captures the texture of sustainable lives well lived

in these ten profiles of ordinary—yet exceptional—men and women who left behind mainstream existences in urban Japan to live surrounded by the luxuries of nature, art, friends, delicious food, and an abundance of time. Drawing on traditional Eastern spiritual wisdom and culture, these pioneers describe the profound personal transformations they underwent as they escaped the stress, consumerism, busyness, and dependence on technology of modern life. This intimate and evocative book tells of their fulfilling lives as artists, philosophers, and farmers who rely on themselves for happiness and sustenance. By inviting readers to enter into the essence of these individuals' days, Couturier shows us how we too can bring more meaning and richness to our own lives.

"Brown's book *Just Enough* is a compelling account of how Edo Japan confronted similar environmental problems and created solutions that connected farms and cities, people and nature." —Huffington Post The world has changed immeasurably over the last thirty years, with more, bigger, better being the common mantra. But in the midst of this constantly evolving world, there is a growing community of people who are looking at our history, searching for answers to issues that are faced everywhere, such as energy, water, materials, food and population crisis. In *Just Enough*, author Azby Brown turned to the history of Japan, where he finds a number of lessons on living in a sustainable society that translate beyond place and time. This book of stories depicts vanished ways of life from the point of view of a contemporary observer and presents a compelling argument around how to forge a society that is conservation-minded, waste-free, well-

housed, well-fed and economically robust. Included at the end of each section are lessons in which Brown elaborates on what Edo Period life has to offer us in the global battle to reverse environmental degradation. Covering topics on everything from transportation, interconnected systems, and waste reduction to the need for spiritual centers in the home, there is something here for everyone looking to make changes in their life. Just Enough is a much-needed beacon in our evolving world, giving us hope in our efforts to achieve sustainability now.

A standard-bearer of American design since 1993, House Industries answers the burning question, "Where do you find inspiration?" with this illustrative collection of helpful lessons, stories, and case studies that demonstrate how to transform obsessive curiosity into personally satisfying and successful work. Presented in House's honest, authentic, and often irreverent style, and covering topics ranging from fonts and fashion to ceramics and space technology, this beautifully useful 400-page volume offers a personal perspective on the origin of ideas for creative people in any field. Most important, this book shows that there's no sense in waiting for inspiration because inspiration is already waiting for you.

Super Potato Design Tuttle Publishing

A remarkable classic work on traditional Japanese architecture and its general integrative quality, the order of space and form,

the flexibility of partitions and room functions and other important or unique qualities. The author describes in detail, and with numerous architectural plans and drawings, the influence of the anatomy of the Japanese human body on traditional units of measurement and on house construction. This work is not simply a description of the features of the Japanese house, but "an invitation to probe the possibilities of utilizing this architectural achievement of the Japanese ...in modern living and building," according to the author, who further believes that the unique features of the Japanese house are better suited to serve as a pattern for contemporary housing than any other form of residential structure.
