International Harvester Australia

Motorbooks

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

Galloway P/L

Farmall, International Harvester and Case-IH tractors built from 1958 to 2013 are covered with in-depth information about how these tractors were designed and constructed. The story traces the

innovations and struggles of the final days of Farmall and International Harvester, and then the exciting story of the creation of the Case-IH Magnum, an innovative machine that blends some of the great engineering done by International Harvester in their final days with thoughtful engineering additions and refinements from the newly blended team.

Mogul Oil Tractors Amberley Publishing Limited

This is the ultimate book on International Harvester Farmall tractors, one of the most popular, revolutionary, and common of all tractors. It is the first book to feature every Farmall model, chronicling the background of McCormick-Deering and International Harvester and outlining the beginnings of IH's production of the treasured Farmall tractor from its inception in 1923 until the last model rolled off the assembly line in the mid-1970s. This comprehensive volume also includes descriptions and hundreds of color photographs of all models, complete with performance comparisons.

The Farm Tractor Voyageur Press

This colorful history covers the final three decades of International Harvester operations, including the six-cylinder's marketplace domination and the abundance of model choices in the 1960s, the redefinition of tractor power and comfort in the 1970s, and International's buyout in 1984. 120 illustrations, 80 in full color.

International Harvester Tractors,

1955-1985 Voyageur Press

This book is a guide to the best practices for plowing with tractors, written by the International Harvester Company in the mid-20th century. Covering topics like tractor selection, plow types, and soil preparation, this book is an essential

resource for anyone involved in agriculture. With detailed diagrams and clear instructions, *Tractor Plowing at Its Best* is perfect for farmers and agricultural professionals. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. 2606

The Keystone Steel Frame Windrow Hay Loader

To many people, a wheel loader is called a PayLoader, thanks to the dominance of the classic rubber-tired, hydraulic front-end loader first developed by the Frank G. Hough company in 1944. When International Harvester acquired Hough and combined it with its struggling construction equipment division in 1974, PayLine was born, with the PayLoader as its signature machine. This book tells the story of PayLine, which marked the high point of International Harvester's foray into construction equipment. Oscar H. Will III chronicles the company's early efforts, its success with machines ranging from the PayLoader to the PayHauler, and it's expansion right up to its sale to Dresser Industries in 1982. With attention to each particular model, including history, specifications, market position, and color photographs of these mighty machines at work, this book is a fitting tribute to International Harvester's giants in the earth, and a critical chapter in the story of American industry.
