summary:  
Paul's Epistle  
to the Romans

<p>is considered a key document for Christian theology. This new commentary offers an extensive survey. German description: In den letzten Jahrzehnten hat die internationale und interkonfessionelle Diskussion über den Römerbrief des Apostels Paulus in beeindruckender Weise an Breite und Tiefe gewonnen und sich der Horizont religionswissenschaftlicher Erörterung weit gespannt. Diesen Veränderungen, die die gelehrte Forschung bestimmen, sucht dieser Kommentar ebenso Rechnung zu tragen wie der Aufforderung an einen wissenschaftlichen Kommentar, sich nicht nur für die Forderung theologischer Wissenschaft, sondern auch für den Gebrauch durch die Pfarrer- und Lehrerschaft als nützlich zu erweisen. Diese Auslegung des Römerbriefs achtet besonders auch die jüdischen Voraussetzungen, die das Denken des Apostels Paulus bestimmen, und sucht herauszuarbeiten, was der Apostel den Christen in Rom zu sagen hatte - mit ihnen aber zugleich den Christen aller Zeiten, und damit auch uns. Die Bearbeitung von Otto Michel (14., neubearbeitete Auflage 1978, 5.</p>	<p>nschaftlicher Erörterung weit gespannt. In dieser Neukommentierung des Römerbriefs innerhalb der renommierten Reihe "Evangelisch-Katholischer Kommentar (EKK)" wird der griechische Text von Röm 1-8 wissenschaftlich kommentiert. Detaillierte philologische und traditionsgeschichtliche Analysen

machen den Text dieses bedeutendsten Paulusbriefes transparent und stellen ihn in sein kulturelles und historisches Umfeld hinein. Diese Untersuchungen verbinden sich mit einer theologischen Interpretation, die das Profil des paulinischen Denkens, wie es in diesem Brief niedergelegt ist, herausarbeitet.

"Westerholm is admirably concerned to focus our attention on Paul's theology, specifically on the theological issues that arose for the Apostle in his valiant attempt to assess the role of the law after the advent of Christ. Beginning with an unusually mature account of the debate that is currently raging over Paul's understanding of the law, Westerholm

has provided an analysis of his own that will certainly claim the attention of all students of Paul the theologian." - J. Louis Martyn "This is the most clearly written and understandable treatment of the debate over the law in Pauline thought that I have seen." - Robert Jewett "Westerholm has produced an illuminating, engaging, and refreshing book. He sets forth the views of major interpreters of Paul with

clarity and candor, engages them, and then makes proposals of his own, which are both well considered and instructive. The book is both interesting and informative, a readers delight." - Arland J. Hultgren

 Gagnon offers the most thorough analysis to date of the biblical texts relating to homosexuality . He demonstrates why attempts to classify the Bible's rejection of same-sex intercourse as irrelevant for our contemporary context fail to do justice to the biblical texts and to current scientific data. Gagnon's book powerfully challenges attempts to identify love and inclusivity with affirmation of homosexual practice. . . . the most sophisticated and convincing examination of the biblical data for our time. —Jürgen Becker, Professor of New Testament, Christian-Albrechts University

und weiterentwickelt. Verschiedene kongregationalistische, reformierte und presbyterianische Kirchen, die sich auf Calvin als Hauptvertreter ihrer Überzeugungen berufen, haben sich über die ganze Welt verbreitet. Calvin war ein unermüdlicher Polemiker und apologetischer Schriftsteller, der viele Kontroversen auslöste. Mit vielen Reformatoren, darunter Philipp	Melanchthon und Heinrich Bullinger, tauschte er freundschaftliche und tröstende Briefe aus. Neben seiner bahnbrechenden "Unterweisung in der christlichen Religion" schrieb er Bekenntnisschriften, verschiedene andere theologische Abhandlungen und Kommentare zu den meisten Büchern der Bibel. However, in the modern period they became gradually separated which led to increasing subject specialization, but also to a lamentable lacuna within the various branches of

Divinity. As the lack of dialogue between Biblical Studies and the various theological disciplines increased, a minority-group of scholars in the past few decades reacted and sought to re-establish the time-honoured bonds between the disciplines. The present volume is part of this intellectual response, with contributions from scholars of various professional and

denominational backgrounds. Together, the book's 25 chapters seek to reinvigorate the crucial cross-disciplinary dialogue, involving biblical, narrative, historical, systematic-theological and philosophic-theological perspectives. The book opens the horizon to contemporary research, and fills a lamentable research gap with a number of fresh contributions

from scholars in the respective sub-disciplines *Scripture and Theology* Nabu Press This collection of studies, prepared in honor of one of the church's distinguished teachers and pastoral servants, Dr. Howard M. Ervin, attempts to address some of the pressing theological issues of our day. Important matters of biblical interpretation in the evangelical and

charismatic scenes are treated by three of the contributors, including one by the honoree himself. The role of the Holy Spirit in interpretation is critiqued by professor Horner, while professors F. F. Bruce and J. D. G. Dunn offer some penetrating insights into the work of the Spirit in Paul's churches and into the nature of the New Testament believer as understood by the great

apostle. Professor Rea gives us his timely observations on the nature of spiritual experience in the lives of Old Testament believers, drawing out appropriate lessons for today. We trust further that 'Essays on Apostolic Themes' may have something to offer to the discipline of historical theology with five essays, ranging from prophetic-type phenomena in Iranaeus's church and charismatic

motifs in Calvin's thoughts to critical assessments of Lewi Pethrus and Donald Gee, who are, within their own cultures, appraised as being dynamic figures of leadership in the pentecostal tradition. Similarly, based on his earlier book of the eighteenth century pioneer of pentecost, Dr. Strachan presents a stimulating piece on the development of Edward Irving's

thought. The early reception in America of the charismatic movement is sagaciously surveyed by Dr. Connelly and productive ideas on the mystical presence of Christ in our Lord's supper are advanced by professor Gelpi. 'Essays' concludes with a contribution to the much discussed issues of church growth, wherein practical suggestions are tabled based on the

potential implied by Luke's text of the book of Acts. Overall, the editor and respective authors submit this anniversary volume to their colleague and friend, Dr. Howard M. Ervin, and to its readers everywhere in the hope that these fourteen studies may make a useful international contribution to scholarship and that 'Essays' may be found helpful to preachers, teachers, and students of

God's word.

 This stimulating collection of essays by prominent scholars honours Turid Karlsen Seim. Bodies, Borders, Believers brings together biblical scholars, ecumenical theologians, archaeologists, classicists, art historians, and church historians, working side by side to probe the past and its receptions in the present.

The contributions relate in one way or another to Seim's broad research interests, covering such themes as gender analysis, bodily practices, and ecumenical dialogue. The editors have brought together an international group of scholars, and among the contributors many scholarly traditions, theoretical orientations, and methodological approaches

are represented, making this book an interdisciplinary and border-crossing endeavour. A comprehensive bibliography of Seim's work is included. *Critical and Exegetical Hand-book to the Epistle to the Romans* Vandenhoeck & Ruprecht This is a reproduction of a book published before 1923. scholarly picture of Paul's teaching on law. Acknowledging that Stoicism permeated Paul's intellectual milieu, Huttunen compares Paul's sayings

of law with those of Epictetus - drawing comparisons as a result of careful methodological considerations.
