**Physiological Basis of Aging and Geriatrics** American Psychiatric Pub

As the most comprehensive resource on health promotion and maintenance for older adults and their families and caregivers, Toward Healthy Aging, 7th Edition includes the most current information you need to provide effective holistic care, promote healthy lifestyle choices, and address end-of-life issues. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing

and using Maslow's hierarchy of needs, this book includes complete coverage of both common and uncommon conditions in the older adult. Towards Healthy Aging also highlights key aging issues with sections devoted to basic physiologic needs, safety and security, the need to belong, self-esteem, and self-actualization. A strong focus on health and wellness emphasizes a positive approach to aging. Disease processes are discussed in the context of healthy adaptation, nursing support, and responsibilities. Careful attention to age, cultural, and gender differences are integrated throughout to help you remember these important considerations when caring for older adults. Up-to-date content on AIDS provides important information on addressing this growing concern among older adults. Consistent chapter is organization with objectives, case studies, critical thinking questions, research, and study questions make information easy to find and use. Assessment guidelines are incorporated throughout in helpful tables, boxes, and forms for quick access. Case studies at the end of most chapters explore realistic patient care scenarios to help you expand your knowledge and understanding. Resource lists and appendices provide opportunities for further research and study. With over 200 illustrations, the full-color design is engaging and easy to read. Healthy People 2010 boxes address healthy aging considerations. Evidence-Based Practice boxes help you incorporate the latest research findings into practice and advise you on how to avoid potentially harmful practices. A Nutritional Needs chapter includes the most current nutritional guidelines for older adults to help you better address patients' nutritional needs. Includes the latest scales and guidelines for assessing the gerontologic patient in the Health Assessment in Gerontological Nursing chapter. Expanded coverage of end-of-life issues helps you meet the needs of older adults and their families and caregivers during this difficult transition. Economics of aging discussions help you better understand the financial challenges your patients may face. The latest pharmacologic and nonpharmacologic pain management information helps you reduce pain and discomfort for your patients and helps you provide more effective care.

**Oxford Textbook of Geriatric Medicine** Elsevier Health Sciences  
Offering a comprehensive look at physical therapy science and practice, Guccione's Geriatric Physical Therapy, 4th Edition is a perfect resource for both students and practitioners alike. Year after year, this text is recommended as the primary preparatory resource for the Geriatric Physical Therapy Specialization exam. And this new fourth edition only gets better. Content is thoroughly revised to keep you up to date on the latest geriatric physical therapy protocols and conditions. Five new chapters are added to this edition to help you learn how to better manage common orthopedic, cardiopulmonary, and neurologic conditions; become familiar with functional outcomes and assessments; and better understand the psychosocial aspects of aging. In all, you can rely on Guccione's Geriatric Physical Therapy to help you effectively care for today's aging patient population. Comprehensive coverage of geriatric physical therapy prepares students and clinicians to provide thoughtful, evidence-based care for aging patients. Combination of foundational knowledge and clinically relevant information provides a meaningful background in how to effectively manage geriatric disorders Updated information reflects the most recent and relevant information on the Geriatric Clinical Specialty Exam. Standard APTA terminology prepares students for terms they will hear in practice. Expert authorship ensures all information is authoritative, current, and clinically accurate. NEW! Thoroughly revised and updated content across all chapters keeps students up to date with the latest geriatric physical therapy protocols and conditions. NEW! References located at the end of each chapter point students toward credible external sources for further information. NEW! Treatment chapters guide students in managing common conditions in orthopedics, cardiopulmonary, and neurology. NEW! Chapter on functional outcomes and assessment lists relevant scores for the most frequently used tests. NEW! Chapter on psychosocial aspects of aging provides a well-rounded view of the social and mental conditions commonly affecting geriatric patients. NEW! Chapter on frailty covers a wide variety of interventions to optimize treatment. NEW! Enhanced eBook version is included with print purchase, allowing students to access all of the text, figures, and references from the book on a variety of devices.  
**Instructors Guide T/A Basic Nurse Assisting** Elsevier Health Sciences  
GERONTOLOGIC NURSING provides comprehensive coverage of health promotion, gerontologic concepts and issues, and medical-surgical problems associated with the older adult. Divided into seven parts, each chapter follows a consistent organization

including learning objectives, emergency boxes, client and family teaching boxes, research boxes, key points, special insights, and new health promotion and nutrition boxes. The second edition also includes a new chapter on health promotion, expanded chapters on nutrition and functional assessment, and a dedicated MERLIN which provides the student and instructor with additional up-to-date tools and resources to enhance and expand their content knowledge. Highlights fundamental aging theories to provide a basis for biological and psychosocial aspects of quality nursing care. Provides complete and comprehensive coverage of assessment recapping normal, deviations from normal and abnormal findings. Uses a 5-step nursing process format to provide the consistent framework for presentation of nursing care. Features care plans with clinical situations for those disorders most prevalent in the elderly. Includes a separate chapter on cultural influences and integrates cultural awareness boxes throughout to focus on specific customs related to how a nurse might care for the aging client. Includes separate chapters focusing on acute, home and long term care to provide a complete discussion of care in each of these settings. Provides detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse to explain potentially complex aspects of aging and the related care. Provides a consistent chapter pedagogy including learning objectives, summary, key points, and critical thinking exercises. Includes Client/Family teaching boxes that emphasize key aspects of practice and teaching for self-care. Highlights Home Care Tips Boxes to promote practical, effective care for the home-bound older client. Integrates Insight boxes that provide realistic vignettes on caring for the elderly and helpful hints from today's practicing gerontological nurses. Provides Emergency Treatment boxes that alert the student to danger signs and list immediate interventions. Includes research boxes with abstracts of current research and implications for practice. Provides a nuts-and-bolts guide to blood-product administration for adult and pediatric patients. Outlines and explains transfusion reactions. Describes the effect of different types of fluids used in resuscitation. Includes formulas used in fluid administration. Provides the most up-to-date information about oxygen delivery devices. Presents information on how to help a Spanish-speaking child identify his/her level of pain. Includes the pediatric coma scale. Features the pediatric trauma score which is used to help evaluate the severity of injury. Provides information about domestic violence in the Mental Health Conditions chapter. Includes a section on the role of the Sexual Assault Nurse Examiner (SANE) and the latest findings on sexual assault. Presents additional information on mammalian bites and anaphylactic shock. Highlights major points of care for quick reference with bold or italicized text. Presents pediatric and adult content separately in the reference section of the book for fast and easy access. Includes stroke and hypothermia algorithms. Covers the latest information on conscious sedation according to JCAHO standards, including a table on deep sedation. Features several new and updated tables which include the following information: conversion of Centigrade and Fahrenheit, updated normal lab values, updated medication tables, etc. (Includes a FREE MERLIN website at: [www.harcourthealth.com/MERLIN/Lueckenotte/](http://www.harcourthealth.com/MERLIN/Lueckenotte/))

Lippincott Williams & Wilkins

Over the past two decades there has been a marked change in global age demographics, with the number of over-60s increasing by 82% and the number of centenarians by 715%. This new-found longevity is testament to the success of recent advances in medicine, but poses significant challenges to multiple areas of health care concerning older patients. Building upon its predecessor's reputation as the definitive resource on the subject, this new edition of the Oxford Textbook of Geriatric Medicine offers a comprehensive and multinational examination of the field. Fully revised to reflect the current state of geriatric medicine, it examines the medical and scientific basis of clinical issues, as well as the ethical, legal, and socio-economic concerns for healthcare policy and systems. Over 170 chapters are broken up into 16 key sections, covering topics ranging from policy and key concepts through to infection, cancer, palliative medicine, and healthy ageing. New material includes focus on the evolving concepts of malnutrition, sarcopenia, frailty, and related geriatric syndromes and integration of geriatric principles from public health, primary and specialized care, and transitional stages from home to emergency, medicine and surgery, rehabilitation, and long term care. The Oxford Textbook of Geriatric Medicine brings together specialists from across the globe to provide every physician involved in the care of older patients with a comprehensive resource on all the clinical problems they are

likely to encounter, as well as on related psychological, philosophical, and social issues.

**The Comprehensive Resource on Geriatric Health and Social Care** Springer Publishing Company

Describes the theories and concept of aging along with information on the physiological and psychosocial changes and problems of the aging process, and covers the appropriate nursing interventions.

**Strategies for the COTA** Oxford University Press

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. **Tabbner's Nursing Care** Prentice Hall

Prepare to succeed on the CPAN® and CAPA® exams with this authoritative guide from ASPAN! PeriAnesthesia Nursing Core Curriculum, 3rd Edition is a comprehensive reference that helps you care for patients before and after anesthesia in all types of settings. There's no other review like it. Coverage of the full scope of perianesthesia nursing makes it an ideal resource for both in-hospital and ambulatory care. And to keep you current, this edition also describes the newest advances in interventional radiology, robotics, and endoscopy procedures. Written by the American Society of PeriAnesthesia Nurses and edited by respected perianesthesia nurses Lois Schick and Pam Windle, this book will help you develop the skills and expertise you need to excel on your certification exam and in practice. Authoritative ASPAN authors cover the core content necessary to demonstrate competency as a perianesthesia nurse, including ASPAN's full scope of practice for the CPAN® and CAPA® certifications. Six sections cover required competencies in these key areas of perianesthesia nursing: professional issues, preoperative assessment, patient care across the life span, perianesthesia, body systems, and education and discharge. Easy-to-use outline format provides a quick review of the fundamentals and standards of practice for patient assessment and care. Objectives at the beginning of each chapter help you focus on and learn key content. Numerous boxes, tables, and illustrations highlight important information and make the book a valuable reference. Preoperative Assessment Competencies section addresses all aspects of the complete assessment of the patient and family, including areas such as transcultural nursing and alternative therapies as well as the mentally and physically challenged patient. Life Span Considerations section prepares you for the care of patients of all ages with chapters on pediatric, adolescent, adult, and geriatric patients. Useful appendixes cover the CPAN and CAPA certification programs and provide test-taking strategies, helping you to prepare for and pass your exam. A bibliography at the end of every chapter lists additional research resources. NEW content covers interventional radiology, robotics, endoscopy procedures, and the latest technology as it impacts perianesthesia nurses. NEW! Streamlined chapters provide a more concise book. UPDATED Professional Competencies section includes the latest safety, regulatory, and healthcare policies. UPDATED Education and Discharge Competencies section addresses the changes in ambulatory settings and patient discharges.

**Fundamental Concepts and Skills for Nursing + Mosby's Nursing Video Skills: Student Online Version 3.0** Jones & Bartlett Learning

The American Psychiatric Publishing Textbook of Geriatric Psychiatry is an indispensable resource for psychiatric clinicians and trainees charged with assessing, diagnosing, and treating mental disorders in our nation's burgeoning population of older adults, as well as the nurses and other professionals who provide critically important care day to day. Building on the prodigious strengths of previous editions, this revision is the most current, comprehensive, and systematic textbook of geriatric psychiatry available today, and the only one that is DSM-5® concordant. The text's organization is user-friendly and practical, with sections addressing the basic science of geriatric psychiatry, the diagnostic interview in late life, psychiatric disorders in late life, treatment, and special topics. In addition, an array of useful features are included: The new DSM-5 structure and classifications have been integrated into every chapter, ensuring that readers understand how the changes impact diagnosis and patient care. Not only do the authors provide up-to-date information on psychiatric disorders, they also contextualize that information for the geriatric population, presenting the latest thinking on the phenomenology, diagnosis, and assessment of late-life mental disorders such as dementia and other neurocognitive disorders, mood disorders, anxiety disorders, and circadian rhythm disorders. All treatment sections have been thoroughly updated to incorporate the most recent knowledge and research findings on psychotherapeutic, psychopharmacological, and other somatic treatments. The book offers an impressive set of graphical and illustrative features to help the reader comprehend and retain the material, including outlines, bulleted key points, and tables, as well as lists of essential readings to deepen understanding of complex topics. Widely recognized as the standard in its field, The American Psychiatric Publishing Textbook of Geriatric Psychiatry serves a critical need for clinicians challenged to meet the mental health needs of an aging population.
