In this new
book, Bauman
examines how
we have
moved away
from a 'heavy'
and 'solid',
hardware-
focused
modernity to a
'light' and
'liquid',

modernity.
This passage,
he argues, has
brought
profound
change to all
aspects of the
human
condition. The
new
remoteness
and un-
reachability of
global
systemic

structure coupled with the unstructured and under-defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to

make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. Liquid Modernity concludes the analysis undertaken in Bauman's two previous books *Globalization: The Human Consequences* and *In Search of Politics*. Together these volumes form a brilliant analysis of the changing

conditions of social and political life by one of the most original thinkers writing today. *La Quinzaine* Fordham Univ Press
How have we thought "the body"? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the "mystical body of Christ"—all these (and others) are incorporated in the word *Corpus*, the title and topic of Jean-Luc Nancy's

masterwork. *Corpus* is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program—reviewing classical takes on the “corpus” from Plato, Aristotle, and Saint Paul to Descartes, Hegel,

Husserl, and Freud, while demonstrating that the mutations (technological, biological, and political) of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold, bravura rendering. To

the title essay are added five closely related recent pieces—including a commentary by Antonia Birnbaum—dedicated in large part to the legacy of the “mind-body problem” formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is “The Intruder,” Nancy’s philosophical meditation on his heart

transplant.

The book also serves as the opening move in Nancy's larger project called "The deconstruction of Christianity."

Dictionnaire infernal John Wiley & Sons In The World Upside Down Vincent Robert-Nicoud offers an account of the topos of the world upside-down in sixteenth-century French literature and visual culture with reference to the social, political, and religious turmoil of the

period.

Dictionnaire de la langue française La Fontaine de Siloë Marcel Mauss was the nephew and most distinguished pupil of mile Durkheim, whose review L'Ann e sociologique he helped to found and edit. Henri Hubert was another member of the group of sociologists who developed under the influence of Durkheim. The present book is one of the best-known

essays

published in L'Ann e sociologique and has been regarded as a model for method and mode of interpretation. Its subject is at the very center of the comparative study of religion. The authors describe a basic sacrifice drawn from Indian sources and show what is fundamental and constant, comparing Indian and Hebrew practices in particular, then Greek and Roman,

then
additional
practices from
many eras
and cultures.
