Tomas Sedlacek has shaken the study of economics as few ever have. Named one of the "Young Guns" and one of the "five hot minds in economics" by the Yale Economic Review, he serves on the National Economic Council in Prague, where his provocative writing has achieved bestseller status. How has he done it? By arguing a simple, almost heretical proposition: economics is ultimately about good and evil. In *The Economics of Good and Evil*, Sedlacek radically rethinks his field, challenging our assumptions about the world. Economics is touted as a science, a value-free mathematical inquiry, he writes, but it's actually a cultural phenomenon, a product of our civilization. It began within philosophy--Adam Smith himself not only wrote *The Wealth of Nations*, but also *The Theory of Moral Sentiments*--and economics, as Sedlacek shows, is woven out of history, myth, religion, and ethics. "Even the most sophisticated mathematical model," Sedlacek writes, "is, de facto, a story, a parable, our effort to (rationally) grasp the world around us." Economics not only describes the world, but establishes normative standards, identifying ideal conditions. Science, he claims, is a system of beliefs to which we are committed. To grasp the beliefs underlying economics, he breaks out of the field's confines with a tour de force exploration of economic thinking, broadly defined, over the millennia. He ranges from the epic of Gilgamesh and the Old Testament to the emergence of Christianity, from Descartes and Adam Smith to the consumerism in *Fight Club*. Throughout, he asks searching meta-economic questions: What is the meaning and the point of economics? Can we do ethically all that we can do technically? Does it pay to be good? Placing the wisdom of philosophers and poets over strict mathematical models of human behavior, Sedlacek's groundbreaking work promises to change the way we calculate economic value.

From the incomparable David Rakoff, a poignant, beautiful, witty and wise novel in verse whose scope spans the 20th Century. David Rakoff, who died in 2012 at the age of 47, built a deserved reputation as one of the finest and funniest essayists of our time. This intricately woven novel, written with humour, sympathy and tenderness, proves him the master of an altogether different art form. Love, Dishonor, Marry, Die; Cherish, Perish leaps cities and decades as Rakoff, a Canadian who became an American citizen, sings the song of his adoptive homeland--a country whose freedoms can be intoxicating, or brutal. Although World War II began as a war in Europe, many in the United States, foreseeing the inevitable, began to prepare for war, putting no faith in the Neutrality Act. Preparations for war, essentially ending the Great Depression, affected the entire country, with Virginia particularly playing a major role. More than one million service men and women came to Virginia. The sheer scope of the military development in Virginia of the Army, Navy, Coast Guard and Air Force, providing training bases and support facilities, underscores the national resolve to be prepared. The book includes the Civil Air Patrol, wartime industry, POW camps, U-boat attacks, the Beach Patrol and other Virginia-related topics.

Award-winning author of fiction and nonfiction Jewell Parker Rhodes is a master of her craft, understanding how both real and imagined stories can serve as a pathway to enlightenment. *Porch Stories* is Rhodes's tribute to her beloved grandmother, a real account of the love she received and the lessons she learned. Jewell Parker Rhodes was left in the care of her father and his mother when her own mother abandoned the family. Grandmother Ernestine's house in Pittsburgh, Pennsylvania, was home to four other grandchildren as well. And while its crumbling bricks, lack of air-conditioning, and neighborhood rodents meant that life was anything but easy, the family house was filled with love. Everyone on their street knew and loved Grandmother Ernestine; men would tip their hats and children would rush up for a hug any time she was outside. No one loved Grandmother Ernestine more than Jewell, who would pass up a movie with her cousins to sit outside on Ernestine's front stoop and listen to her stories and her words of comfort. Jewell would later move out West to live with her mother and father as they reattempted marriage. But that was a short-lived experience. Before long, she was back in the loving arms of her grandmother, whose wisdom and warmth gave all of her children the tools to overcome the ordinary and extraordinary challenges life brings. *Porch Stories*, described by Rhodes as "an intergenerational love song," is a loving tribute that is at once candid, courageous, and reverent -- a literary portrait of family love that readers from all walks of life can see in themselves.

Gary Thomas, pastor and bestselling author of *Sacred Marriage*, believes that one simple word can bring hope, light, and life into any marriage: Cherish. Most marriages survive by gritting teeth and holding on. But what if surviving marriage wasn't the goal? What if we aimed to thrive instead? In *Cherish*, Thomas teaches us that although there are a countless number of marriages consisting of two people just going through the motions, there are real ways this pattern can be reversed: when husbands and wives learn to cherish one another in their everyday actions and words. The way we treat something acknowledges whether we cherish it or hold it with indifference or contempt. To

truly cherish something is to go out of our way to show it off, protect it, and honor it. We want others to see and recognize and affirm the value that we see. Thomas reminds us that in a world desperate for marriage redemption, the act of cherishing is needed now more than ever. Cherishing your spouse will elevate your marriage relationally, emotionally, spiritually, and even physically. You will set different goals for your relationship, and you'll see your marriage with fresh eyes. Through personal stories, real-world examples, and timeless biblical truths, Thomas shares the tools you need to turn your marriage around, including: Using your mind to change your heart Sacrificing for your spouse Praying with intentionality Prioritizing your life partner Through the biblical act of cherishing, we can empower our spouses to become who they are called by God to be, and in the process to become more of who we are called to be, creating a marriage that feels more precious, more connected, and more satisfying. If you're ready to revolutionize your relationship, it's time to learn how to truly Cherish it.

She's back. Molly Ivins, our most perceptive, outrageously funny political commentator, has given us an uproarious new book. In *Nothin' But Good Times Ahead*, Ivins proved that no one has a steadier gaze or a quicker trigger finger, as she hits the bull's-eye in such targets as George Bush, Bill Clinton, Camille Paglia, the Clarence Thomas hearings, and the ethics-twisting, English-slaughtering pols of her beloved Texas. Here's Molly on: The 1992 Republican Convention: "Many people did not care for Pat Buchanan's speech; it probably sounded better in the original German." Texas politics: "Better than the zoo, better than the circus, rougher than football, and even more aesthetically satisfying than baseball." Gibber Lewis, former House Speaker of the Texas State Legislature: "He once announced, 'This is unparalyzed in the state's history.'" Another Gibberism: "It could have had ramifications in the hilterlands."
