Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."-Gunilla Norris, author of *Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full Practices* "Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword

The economic and political systems, legal code and religious beliefs of the people of the New Guinea village of Busama were analysed by H. Ian Hogbin in his earlier work, *Transformation Scene* (1951). In this new study founded on field work carried out at intervals over a seven year period, he is concerned primarily with the individual in his relations with the kinship structure. He takes a typical Busama through a full span of life, from birth through infancy, childhood, adolescence, and marriage to maturity and death; and he shows how each stage in the individual's life involves a change in his kinship relationships and responsibilities. This approach gives the professional anthropologist a set of carefully presented data analysed in line with the contemporary emphasis on seeing the relations between kin in the context of the local community, and it also offers the general reader an enjoyable and authentic account of the intimacies of Melanesian life.

Exploring the key ideas in social psychology, this collection of classic and contemporary readings includes accounts of specific experimental findings as well as more general articles summarizing studies on such topics as attraction, prejudice, and aggression. The new edition adds 15 new readings while retaining a number of classics by leading psychological thinkers such as Stanley Milgram on obedience and Solomon Asch on conformity. Readings makes the perfect companion for the Aronson's highly praised book, *The Social Animal* as it follows the same major themes. The Reader can also be used with any introductory social psychology text or even in lieu of a text. Using both *The Social Animal* textbook and the reader is a unique and engaging combination for understanding social psychology and its research.
