Poetry. In Noel Sloboda's second book of poems, he delves beneath the surface of suburban life, weaving together ancient myths, childhood nightmares, and historical reveries. OUR RARER MONSTERS explores intersections between real and imagined geographies: a residential block where Grendel lives next door and Prospero is parked out in the street. These poems--and the accompanying linocuts by Marc Snyder--plumb the depths of memory to unearth roots that bind us to the literary, cultural, and mythological traditions of yesterday as we hurtle irresistibly through the twenty-first century. "Noel Sloboda's OUR RARER MONSTERS is an imaginative book full of wonder and charm."--Jeannine Hall Gailey "I kept coming back to Sloboda's poems and to Marc Snyder's exquisite linocuts included in this utterly winning book. Here is a poetry collection not to be missed for its audacity and verve."--Kristin Ong Muslim

Encounters between cultures are also encounters between knowledge systems. This volume brings together a number of case studies that explore how some knowledge in cultural contact zones becomes transient, evanescent, and ephemeral. The essays examine various aspects of cultural, especially colonial, epistemic exchanges, placing special emphasis on the fate of those knowledges that are not easily appropriated by or translated from one cultural sphere into another and thus remain at the margins of cross-cultural exchanges. In addition, the imposition of colonial power is unthinkable without the strategic deployment and use of knowledge; most colonial states, including those of Germany in the Baltic and in West Africa, were knowledge-acquiring machines - yet, acquisition always includes rejection, detainment and subjugation of recalcitrant epistemes. Bringing together insights from various scholarly disciplines, including literary studies, history, historical anthropology, and political science, the essays in this volume investigate how different or unfamiliar knowledge was, and in some cases still is, disarticulated by being belittled, discredited, and demonized. But they also show the strategies of resilience deployed by subjugated and subaltern people: the ways in which certain materials have escaped the coloniality of knowledge - how fragments and shards of other epistemologies remain inscribed in the polyphony and fuzziness of intercultural documents and archives.

The primary objective for providing this ANSWER KEY is to ease the burden of the teacher in marking the assignments. Many Teaching Assistants can use it to mark the assignments for the teacher. Even in situations where teachers have no Teaching Assistants, the class teacher may employ the conventional method of engaging the students in a-quick-in-class marking where students mark each other's assignments. Although I do not consider Practical English Level 365 completely self-instructional, some students, with the help of this ANSWER KEY, can use the text book with little or no help at all from professional teachers and/or parent-teachers. Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Elisa Allen is tending her chrysanthemums. Strong, with a handsome face she skilfully and proudly cultivates the best in the valley. Tonight, her husband is taking her to town. While she works, a squeak of heels and a plod of hoofs bring a curious vehicle, curiously drawn: a tradesman looking for directions and a job. He is met with curt replies and a hardened resistance. Then he notices her chrysanthemums. With his characteristic insight and evocative language, John Steinbeck creates a short story of a brief but striking encounter. Set in Salinas Valley, where he grew up, it dissects the myriad complexities of humanity, society and hidden longings.

Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

In *Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America.
