Colouring Country is an all-ages art therapy colouring book with a difference. It features full-colour reproductions of 42 superb Indigenous artworks, each accompanied by a brief description of its context and meaning within Australian Aboriginal culture, together with a colouring-in template for each work. In Indigenous artmaking, the symbols, and the stories behind them, are the maps, the clues, to observing the Law, and living life in harmony with the elements and the cosmos. The rhythm of concentric dotted circles, linear motifs of game and flora, and lithe human forms, illustrate life in balance with the majesty of nature. It is the joyful visual language of the world's oldest continuing culture. The images in Colouring Country are from the Balarinji Art & Design Archive, held by the National Museum of Australia, Canberra. The Archive is an iconic collection of art, design and objects created between 1983-2003 by Sydney-based design studio, Balarinji. Best known for covering Qantas aircraft with Aboriginal designs, Balarinji was established in 1983 by Ros Moriarty and John Moriarty.

In Effective STL, best-selling author Scott Meyers (Effective C++, More Effective C++) reveals the critical rules of thumb employed by the experts -- the things they almost always do or almost always avoid doing -- to get the most out of the library. This book offers clear, concise, and concrete guidelines to C++ programmers. While other books describe what's in the STL, Effective STL shows the student how to use it. Each of the book's 50 guidelines is backed by Meyers' legendary analysis and incisive examples, so the student will learn not only what to do, but also when to do it - and why.

This early work by Dorothy Wall was originally published in 1933 and we are now republishing it with a brand new introductory biography. 'Blinky Bill: The Quaint Little Australian' is a children's story about Australia's most popular mischievous koala. Dorothy Wall was born on January the 12th, 1894 in New Zealand. From a young age Wall showed great talent as an artist and at age eleven won a scholarship for her drawing skills. She is most famous for creating Blinky Bill, an anthropomorphic koala who was the central character in her books Blinky Bill: the Quaint Little Australian, Blinky Bill Grows Up, and Blinky Bill and Nutsy. In 1985 a postage stamp honouring Wall for her creation, Blinky Bill, was issued by Australia Post as part of a set commemorating children's books.

Blackstar Theory takes a close look at David Bowie's ambitious last works: his surprise 'comeback' project *The Next Day* (2013), the off-Broadway musical *Lazarus* (2015) and the album that preceded the artist's death in 2016 by two days, *Blackstar*. The book explores the swirl of themes that orbit and entangle these projects from a starting point in musical analysis and features new interviews with key collaborators from the period: producer Tony Visconti, graphic designer Jonathan Barnbrook, musical director Henry Hey, saxophonist Donny McCaslin and assistant sound engineer Erin Tonkon. These works tackle the biggest of ideas: identity, creativity, chaos, transience and immortality. They

enact a process of individuation for the Bowie meta-persona and invite us to consider what happens when a star dies. In our universe, dying stars do not disappear - they transform into new stellar objects, remnants and gravitational forces. The radical potential of the Blackstar is demonstrated in the rock star supernova that creates a singularity resulting in cultural iconicity. It is how a man approaching his own death can create art that illuminates the immortal potential of all matter in the known universe.

Australia's most famous children's cake book - reprinted in a collector's edition. The Australian Women's Weekly's Children's Birthday Cake Book was first published in 1980 and has sold more than half a million copies. In response to all the requests we have had, often from mothers who remember fondly all the cakes from their own childhood, we have taken this book from our archives and reprinted it 30 years after it first appeared. We have had to make a minor change - four of your little friends are missing, but they've been replaced by other cakes you'll love just as much. Apart from that we've left it just as it was - a true collectors' cookbook especially for you. Now you can recreate your favourite cakes - the swimming pool, rocket and that train from the cover for your own child.
