From the New York Times bestselling author of American Fascists and the NBCC finalist for War Is a Force That Gives Us Meaning comes this timely and compelling work about new atheists: those who attack religion to advance the worst of global capitalism, intolerance and imperial projects. Chris Hedges, who graduated from seminary at Harvard Divinity School, has long been a courageous voice in a world where there are too few. He observes that there are two radical, polarized and dangerous sides to the debate on faith and religion in America: the fundamentalists who see religious faith as their prerogative, and the new atheists who brand all religious belief as irrational and dangerous. Both sides use faith to promote a radical agenda, while the religious majority, those with a commitment to tolerance and compassion as well as to their faith, are caught in the middle. The new atheists, led by Richard Dawkins, Christopher Hitchens and Sam Harris, do not make moral arguments about religion. Rather, they have created a new form of fundamentalism that attempts to permeate society with ideas about our own moral superiority and the omnipotence of human reason. I Don't Believe in Atheists critiques the radical mindset that rages against religion and faith. Hedges identifies the pillars of the new atheist belief system, revealing that the stringent rules and rigid traditions in place are as strict as those of any religious practice. Hedges claims that those who have placed blind faith in the morally neutral disciplines of reason and science create idols in their own image -- a sin for either side of the spectrum. He makes an impassioned, intelligent case against religious and secular fundamentalism, which seeks to divide the world into those worthy of moral and intellectual consideration and those who should be condemned, silenced and eradicated. Hedges shatters the new atheists' assault against religion in America, and in doing so, makes way for new, moderate voices to join the debate. This is a book that must be read to understand the state of the battle about faith.		From the #1 New York Times- and Wall Street Journal-bestselling author comes the dramatic second adventure in the brand-new Clandestine Operations series about the Cold War, the fledgling Central Intelligence Agency—and a new breed of warrior. In Top Secret, W.E.B. Griffin introduced a remarkable new cast of heroes as they found themselves on the front lines of an entirely different kind of war. Now, these men and women are going to find out what they’ve really gotten themselves into. James Cronley thought he had done well—he didn’t know he’d done this well. His first successful mission for the about-to-be-official new Central Intelligence Directorate has drawn all kinds of attention, some welcome, some not. On the plus side, he’s now a captain; promoted to Chief, DCI, Europe; and in charge of a top secret spy operation. On the minus side, a lot of people would like to know about that operation, including not only the Soviets, but his own Pentagon, as well as a seething J. Edgar Hoover. Cronley knows that if just one thing goes wrong, he’s likely to get thrown to the wolves. As if that weren’t enough pressure, complications are springing up on all sides. He’s discovered a surprising alliance between the former German intelligence chief and, of all things, the Mossad. A German family that Cronley never knew he had has suddenly, and suspiciously, emerged. And he’s due for a rendezvous with an undercover agent against the Soviets known only as Seven K. It’s when he meets Seven K that he gets the real surprise.

Through a series of deeply personal interviews with individuals from different walks of life, the authors conduct a captivating discourse on discovering a "higher power." <i><b>You Believe In God, But You Don't Trust Him</b></i> Simon and Schuster		<i><b>A Manual for Creating Atheists</b></i> Simon and Schuster
When it comes to making great decisions, the way you think about things is usually a lot more influential than what you actually think. If you ever hired a person who 'looks the part', dated someone who 'gives you a good feeling', voted for the party that 'speaks the most sense' or got into an investment that 'cannot be missed', only to realise you made a horrible mistake, you might have wondered how you ever talked yourself into it. Yet, still bearing the bruises, you're likely to make exactly the same decision the next time. The beliefs that guide your ideas and the instincts that drive your actions, are all informed by your unconscious biases, and literally every single one of us has them, which irrationally tell us one thing is good and another is bad, one thing is absolutely true and another is utterly false, and make you act less smartly than you should. But the good news is that you can learn to see them, to manage them and ultimately overcome them. In Don't Believe Everything You Think, Colin J Browne shows you how biases work, why they matter, and how to reframe your thinking to make well-founded decisions about life and work, relationships and investing, and much else in between, to vastly improve your chances of success.		The universal insights of Eastern philosophy combine with practical and inspiring ways to create a new life, a new self, and a new awareness of the wonder of being in this simple but powerful book. Presenting eight common misunderstandings about the body and spirit—such as egoism, fear, attachment, and disorder—this manual shows how to divert life away from these behaviors towards happiness, peace, and harmony. Also asking subtle psychological questions, this guide helps readers find their divine nature and shows them how to embrace it and live life aligned with it in order to acknowledge the true magnificence that lies within.

The Bible teaches that the goal of the Christian life is to become like Jesus—for our own personal growth and for the sake of others. Every believer needs to ask three big questions: What do I believe? What should I do? And who am I becoming? In Think, Act, Be Like Jesus, bestselling author and pastor Randy Frazee helps readers grasp the vision of the Christian life and get started on the journey of discipleship. After unfolding the revolutionary dream of Jesus and showing how our lives fit into the big picture of what God is doing in the world, Frazee walks readers through thirty short chapters exploring the ten core beliefs, ten core practices, and ten core virtues that help disciples to think, act, and be more like Jesus Christ. This compelling new book can be used in conjunction with the 30-week all-church Believe campaign or read separately as an individual study. Either way, readers will deepen their understanding of what it means to not just know the Story of God, but to live it.		"What grown woman claims to have seen Santa Claus? 		Do you really need to know if your daughter has tasted beer or your son has had his first kiss? Probably not. Teens keep secrets. They need this privacy to resolve their own dilemmas, make their own decisions, and start down the road to becoming independent, responsible adults. Although parents can't (and shouldn't) know everything, they are right to worry about giving their children too much freedom, since teens can be attracted to

dangerous behaviors. Parenting teenagers means allowing them the freedom to explore, make mistakes, learn, and keep moving forward. Dr. Peter Sheras, an expert in adolescent development, has taught countless parents how to know when to step back, when to ask questions, and when to take definitive action. In *I Can't Believe You Went Through My Stuff!* he explains how pushing for information or attempting to keep teens confined in too small a box will undoubtedly result in anger, resentment, and worst of all a penchant for trouble. The book includes solid, practical advice on: How you can learn more about your teenager's life without invading his privacy or losing her trust How to start a conversation when your teen won't talk What to do about lying, whether it's infrequent or often How to discuss family rules and establish consequences that really work How to tell if your teen needs professional help and where to find it *I Can't Believe You Went Through My Stuff!* will give you the key to keeping your teenager safe while building a trusting, warm, and communicative relationship.

**You've Gotta' Believe! or What You Didn'T Know That You Knew About Job Search and Career Marketing** Archway Publishing

This book is exciting, and it shows the New Age generation exactly what is going on in our realm today. It shows us how to combat the things that are just tearing us down in our daily lives without us even really noticing it. This book will show you how to persevere—not with miraculous signs and wonders, but with down-to-earth methods that are backed by age-old concepts, like the Constitution and the reason our preachers only preach the gospel. It reveals newly discovered secrets, well-defined and plainly written. To the end that it allows God and his Christ to be with us more than ever before. We've all got a little weak spot in us that we've got to work on within ourselves, because it's written. Our role wouldn't be as the rulers of this world. When people say they're not going to heaven. Try this: "I'm not ready to go to heaven yet." We have a lot that we may lose, but one thing we won't lose is our hope. I'm not trying to block anything that's in existence. I'm trying to provide a means to a better end result so that people can find their way into a more productive faith. By showing forth things right, like these, you could wind up being a real angel. This one girl told me that I don't really believe in anything. When I was young, I went to church because my parents made me. I couldn't understand the preacher because he spoke Polish, and I could never understand the Bible. I told her I couldn't understand my preacher either. But I read the story in the Bible about the man who died on the cross, and it made me want to help him. People who don't do the gospel, they're saying "I don't have to" or "I don't want to." What they're falling into is spiritual death. That's a faith that's not living or growing. When talking to them sometimes, you see they're on cloud nine, not in reality, doing everything and nothing. What this reminds me of is the prodigal son spending all his money on whores. He wasn't doing the gospel and saving his treasure up in heaven where his heart ought to be. I don't see what all the contention is about? If they're saved into life eternal, it's going to be by those who do the gospel of our Lord, Jesus Christ, slain from the foundation of the world. You know there is only one right way to do it. So get yourself a bag that grows not old and let's see how you do out there. Have mercy on the poor. Temper your faith. Carry on. Doing the gospel shows the Bible is to be mainly used for defense of the children of the cross. People are thinking that the poor or homeless people aren't Christ-like. But because that sort of suffering is a cross, it makes them Christ-like. That's also what the church shows. How the preachers don't accuse any but defend by saying you are forgiven by the Godhead. It says in the Bible God adds glory to the parts that have none. That's what he's doing by defending the poor—basically saying they're loved. When anybody says anything, and I have to reply, I give respect to him who has the right: Jesus. Know that being human is the first quality of being Christ-like. But also, for the animals, they are living breathing beings. If that's not Christ-like, I don't know what is. Following these guides, you will be tempering yourself into right actions. What does being self-righteous have to do with love? Guiding people to what's right in a loving way gives you soul. It builds your soul to be of love. That's not self-righteous; it's not parental. It's loving. Those demons and devils have been practicing their evil for like 150 million years. If you don't think you're going to have to study and do works accordingly to beat them, you're wrong. The thing that makes mass assembly generate low prices and large volume is simplicity. When I see everybody just sitting around and complicating everything, I know exactly what's going on.

*Believe You Can--The Power of a Positive Attitude* John Kuykendall

Over half of Americans believe in a literal heaven, in a literal hell. Most people who hold these beliefs are Christian and assume they are the age-old

teachings of the Bible. Ehrman shows that eternal rewards and punishments are found nowhere in the Old Testament, and are not what Jesus or his disciples taught. He recounts the long history of the afterlife, ranging from The Epic of Gilgamesh up to the writings of Augustine, focusing especially on the teachings of Jesus and his early followers. Ehrman shows that competing views were intimately connected with the social, cultural, and historical worlds out of which they emerged. -- adapted from jacket

**How to Become an Angel for Turtles** Christian Faith Publishing, Inc.

This book is intended to help you live your life, and to shed some light on your own values and ethics, if you don't believe in God. More than just a primer on Humanism, but not quite a full-blown treatise on philosophy, it offers some answers to those crucial questions Socrates asked: What is true? And how shall we live our lives? Those of us who don't believe in the supernatural sometimes struggle to understand how we can ground ourselves ethically, and how to find truth, meaning, purpose and joy. This book offers ideas about how to know, without depending on Holy Scriptures or guidance from a deity, what it means to lead a good and ethical life. "Humanism is a value system whose time has come: a positive philosophy for the surging proportion of the world's population who indicate 'None' as their religion but seek meaning, morality, and purpose in their lives. Michael Werner's statement of Humanism is clear, effective, and graceful, just right for our times." Steven Pinker, professor of psychology, Harvard University author, "The Better Angels of Our Nature" and "How the Mind Works." "Mike Werner captures the depth and breadth of Humanism in his latest work. He shows us what love, reason, imagination and science can have in common. In doing so, he demonstrates what we all have to live for, strive for, and believe in." Roy Speckhardt, executive director, American Humanist Association "Outstanding and a must read for everyone who takes life seriously." Rev. William R. Murry, former president, Meadville Lombard Theological School, University of Chicago

JUST FOR YOU, MOM is a book about the experience of a mother's love. It tells the story of the author's first great love, and brings to life the fine interplay and high regard that characterizes a relationship between a mother and son. JUST FOR YOU, MOM looks at different aspects of motherhood: a mother as comforter, teacher, friend, security and confidante. But above all it is about a mother and her relationship with God; a mother and prayer. Such prayers create a cloud of security, the circle of light in which the angels work. This is the all-embracing love of a mother for her child.

No President in living memory has entered office with a greater amount of goodwill and broad, bi-partisan support than Barack Obama. And few Presidents in living memory had arrived in Washington proclaiming such dramatically articulated vows to change the tone of politics, to usher in an era of post-partisanship in an effort to rally the nation behind his plan of enacting an ambitious program of social and economic change. He vowed to enact a broad bi-partisan agenda for health care reform, energy transformation, economic revitalization, job growth and restoration of America's standing in the world. And no President in living memory has more quickly and more completely abandoned his promises. He enacted a health care plan that far more resembled plans he had bitterly criticized his opponents for supporting rather than the one his campaign outlined His promised job growth through economic stimulus measures drove up the unemployment rate to double digits leading to millions of job losses His vows to restore fiscal probity resulted in the most ruinous deficits and public debt in U.S. history He 'green energy' program collapsed into a cesspool of crony political favoritism His vows to restore relations with hostile nations like Iran and North Korea had only deepened those nations' disdain for America Despite his harsh criticisms, Obama adopted nearly every plank in the Bush-era anti-terror policy His promise to restore science to its rightful place resulted in the most rigidly inflexible program of ideological extremism in modern memory Even more noteworthy was the fact that the new era of post-partisanship he had vowed to create in Washington resulted in the worst political gridlock in living memory. This book examines in detail hundreds of campaign promises Obama made while running for President, contrasting those with the record of failure and broken promises left in his wake. It is a story that has received too little attention - until now.
