Lonely Planet's Best in Travel 2021 New Directions Publishing Spain is one of the absolutes. Nothing is more compelling than the drama, at once dark and dazzling, of that theatre over the hills - the vast splendour of the Spanish landscape, the intensity of Spain's pride and misery, the adventurous glory of a history that set its seal upon half the world . . . Passionate, evocative and beautifully written, Spain is a companion to the country: its people, its history - and its character. First published in 1964 and no less compelling today, Jan Morris's classic work is back in

print, bringing Spain, its glory and its tragedy, vividly to life. Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Venice, Coronation Everest, Hong Kong, Spain, Manhattan '45, A Writer's World and the Pax Britannica Trilogy. Hav, her novel, was shortlisted for the Booker Prize and the Arthur C. Clarke Award. 'The most evocative book ever written about Spain.' Independent

Child psychologist Dr Alex Delaware returns after five years to Los Angeles' Western Pediatrics Hospital, called in by a former colleague to help with the case of twenty-one-month-old Cassie Jones. The little girl is persistently, terrifyingly ill, and nobody can explain why. Her doctor, Stephanie Eves, has finally come to suspect the unthinkable - that Cassie's own mother is deliberately trying to make her own child sick. But Stephanie needs an independent assessment of the Jones family, for Cassie Jones is none other than the granddaughter of the Chairman of the Board. Teaming up once again with his old friend Detective Milo Sturgis, Alex starts to investigate Western Pediatric's First Family, but rapidly uncovers layer after layer of high-level corruption and intrigue concerning the hospital itself. Added to which are the brutal killings of two members of the staff. Most importantly, Alex must find the answers to some intensely private questions about the workings of one family, with all its intimate deceptions and murderous hatreds. For at any given time, young Cassie Jones could be back at Western Pediatrics fighting for her life..

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used

as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either

too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

New York, more than any other city, has held a special fascination for filmmakers and viewers. In every decade of Hollywood filmmaking, artists of the screen have fixated upon this fascinating place for its tensions and promises, dazzling illumination and fearsome darkness. The glittering skyscrapers of such films as *On the Town* have shadowed the characteristic seedy streets in which desperate, passionate stories have played out-as in *Scandal Sheet* and *The Pawnbroker*. In other films, the

city is a cauldron of bright lights, technology, empire, egotism, fear, hunger, and change--the scenic epitome of America in the modern age. From *Street Scene* and *Breakfast at Tiffany's* to *Rosemary's Baby*, *The Warriors*, and *25th Hour*, the sixteen essays in this book explore the cinematic representation of New York as a city of experience, as a locus of ideographic characters and spaces, as a city of moves and traps, and as a site of allurements and danger. Contributors consider the work of Woody Allen, Blake Edwards, Alfred Hitchcock, Gregory La Cava, Spike Lee, Sidney Lumet, Vincente Minnelli, Roman Polanski, Martin Scorsese, Andy Warhol, and numerous others.
