The author traces the history of Indian women from the nineteenth century under colonial rule, to the twentieth century after Independence. She begins with the reform movement, established by men to educate women, and demonstrates how education changed their lives, enabling them to take part in public life. Through the women's own accounts, the author has compiled an accessible and immediate record of their achievements over the past two centuries, which will be of interest to students of South Asia and to anyone concerned with women and their history.

From the bestselling, Booker Prize-winning author of *The White Tiger* and *Amnesty*, a “ferociously brilliant” (Slate) novel about two brothers coming of age in a Mumbai slum, raised by their crazy, obsessive father to be cricket champions. *A NETFLIX ORIGINAL SERIES * AN NPR BEST BOOK OF THE YEAR * A NEW YORK TIMES and WASHINGTON POST NOTABLE BOOK Manjunath Kumar is fourteen and living in a slum in Mumbai. He knows he is good at cricket—if not as good as his older brother, Radha. He knows that he fears and resents his domineering and cricket-obsessed father, admires his brilliantly talented sibling, and is fascinated by curious scientific facts and the world of CSI. But there are many things, about himself and about the world, that he doesn’t know. Sometimes it even seems as though everyone has a clear idea of who Manju should be, except Manju himself. When Manju meets Radha’s great rival, a mysterious Muslim boy privileged and confident in all the ways Manju is not, everything in Manju’s world begins to change, and he is faced by decisions that will challenge his sense of self and of the world around him. Filled with unforgettable characters from across India’s social strata—the old scout everyone calls Tommy Sir; Anand Mehta, the big-dreaming investor; Sofia, a wealthy, beautiful girl and the boys’ biggest fan—Selection Day “brings a family, a city, and an entire country to scabrous and antic life” (Chicago Tribune).

The Partition of the Indian subcontinent in 1947 left a legacy of hostility and bitterness that has bedevilled relations between India and Pakistan for over fifty-five years. The two countries, both nuclear powers now, have fought three wars since Independence and have twice come to the brink of war in recent years. Each of their attempts to make peace has failed, and each failure has added a new layer of anger and mistrust to existing animosities. So what will it take for India and Pakistan to put the long shadows of Partition behind them, once and for all? Reviewing the turbulent history of their past relationship, Radha Kumar analyses the chief obstacles the two countries face and looks afresh, in particular, at the Kashmir conflict, in the light of the new opportunities and challenges that the twenty-first century presents. Kumar’s comparisons with partition-related peace processes in Bosnia, Ireland, Cyprus and Israel-Palestine offer a radically different perspective on the prospects for peace between India and Pakistan, and illuminate the key elements that go into a successful peace process. Lucid, incisive and optimistic, Radha Kumar’s essay, written at a time when a new peace process between India and Pakistan has begun to unfold, challenges received wisdom as it argues persuasively that the South Asian neighbours are today better placed to make peace than ever before.

Women's Movement in India Oxford University Press, USA

About the Author Prof. Radhavallabh Tripathi is known for his original contributions to literature as well as for his studies on Nāṭyaśāstra and Sāhityaśāstra. He has published 162 books, 227 research papers and critical essays. He has received 35 national and international awards and honours for his literary contributions. About the Book Vāda, meaning debates, dialogues, discussions, was the quintessential of Indian spirit, enabling and promoting the growth of different philosophical and knowledge systems of India. It percolated deep into our mindset and enriched the moral, ethical, religious and sociocultural edifice of anything that was essentially Indian in nature. As continuation of Ānvikṣīki from the bc era, vāda helped thrive Indian traditional knowledge systems. It subsists on diversity and its tradition envisages pluralism. Most of our Sanskrit works, covering a wide gamut of knowledge systems, are structured in the techniques of debate. This reality applies not only to the philosophical writings, but to Indian medical systems (Ayurveda), Arthaśāstra of Kauṭilya and Kāmasūtra of Vātsyāyana as well. Even great epics like Rāmāyaṇa and Mahābhārata are no exceptions. Vāda culture involved verbal duals, attacks and even violence of speech, and all major religious systems — old or modern — were parties to it. This book also elucidates how vāta was vital and critical for the growth of our socio-political fabrics. It shows how some of the major conflicts in philosophical systems were centred around karma, jñāna, choice between violence and non-violence, pravṛtti and nivṛtti. It also presents the manifestations of vāda on a vast canvas during the nineteenth and twentieth centuries. Modern spiritual and religious gurus like Ramana Maharshi, J. Krishnamurti and Vinoba Bhave were men of dialogues. Our scholars have applied the varied techniques of vāda against the philosophical and scientific systems of the West to prove them correct. This collector’s issue should enthrall a wide audience of philosophers, scholars and believers in Indian knowledge systems.

The women most crucial to the feminist movement that emerged in the 1960's arrived at their commitment and consciousness in response to the unexpected and often shattering experience of having their work minimized, even disregarded, by the men they considered to be their colleagues and fellow crusaders in the civil rights and radical New Left movements. On the basis of years of research, interviews with dozens of the central figures, and her own personal experience, Evans explores how the political stance of these women was catalyzed and shaped by their sharp disillusionment at a time when their skills as political activists were newly and highly developed, enabling them to join forces to support their own cause.

Women's Agency and Social Change Orient Blackswan

This first-of-its-kind book approaches peacemaking in a unique way. It makes an innovative application of simulation—as training exercises for peacemaking—and puts readers in the role of key actors during conflict and conflict resolution processes, giving them a nuanced understanding of the risk, opportunity and cost of making peace. These simulations are also aimed at helping would-be negotiators and/or mediators prepare better. The six exercises included in the book are mostly based on actual or potential negotiations in ongoing peace processes. They cover the following aspects of negotiating peace in deeply divided societies: preventing escalation of the conflict (also called conflict management), initiating Confidence Building Measures (CBMs) that pave the way for political resolution, addressing the root causes of conflict, arriving at a comprehensive agreement to end the conflict and post-conflict peace-building. As a set of exercises, the six simulations in this book will be useful for administrators, negotiators and peacekeeping forces. This book will also be an important source of information for students and academics studying Politics, International Relations and Peace Studies.

Police Matters moves beyond the city to examine the intertwined nature of police and caste in the Tamil countryside. Radha Kumar argues that the colonial police deployed rigid notions of caste in their everyday tasks, refashioning rural identities in a process that has cast long postcolonial shadows. Kumar draws on previously unexplored police archives to enter the dusty streets and market squares where local constables walked, following their gaze and observing their actions towards potential subversives. Station records present a textured view of ordinary interactions between police and society, showing that state coercion was not only exceptional and spectacular; it was also subtle and continuous, woven into everyday life. The colonial police categorized Indian subjects based on caste to ensure the security of agriculture and trade, and thus the smooth running of the economy. Among policemen and among the objects of their coercive gaze, caste became a particularly salient form of identity in the politics of public spaces. Police Matters demonstrates that, without doubt, modern caste politics have both been shaped by, and shaped, state policing. Thanks to generous funding from the Andrew W. [The History of Doing](#) Verso

Women's Agency and Social Change: Assam and Beyond focuses on varied oppression, power relations and ideologies embedded in the complex yet interdependent social, political, economic and legal structures, and women's subordination therein. British intervention, 1826-1947, by itself did not impact the agency aspect on women directly, but the emergence of new forces and factors sowed the seeds of women's agency to impact social change, even if minimal. In the post-Independence period, British colonial legacy perpetuated the subordination of women through caste and class hierarchy at several levels, but an undercurrent of a feminist struggle persisted, not merely as a movement but also at individual levels. The book is written with the hope of encouraging future research on women's experiences in the Northeastern region of India, and elsewhere; hence, a discussion on sources, methods and methodology is included in the conclusion. This book is based on the belief that knowledge production is, in itself, the praxis against oppressive structures and the need to understand the historical processes that slowly transformed women to become catalysts of social transformation.

Education in Colonial India Routledge

A Gender Atlas of India is a seminal body of work which comprehensively maps and grades India's

performance from 2001 to 2016 on issues of concern for women. Taking into account 8 overall indicators and 28 sub-indicators, it looks at how India is performing on various aspects, including sex ratio, women's education, employment, health, political participation and representation; and prevention of crimes against women. Unlike previous attempts, this book examines the change in India's performance over a 15-year period, compares the situation of women in India to that in its neighborhood and internationally, and rates each Indian state and union territory individually. The findings in this book are both provocative and incentivizing for policymakers--they show that where the central and state governments share concerns India's performance on gender has improved, but where they diverge women's condition has deteriorated even further.

The Resurgence of Indian Women John Wiley & Sons

A thematic history of the women's movement in India both before and after independence, this book covers the period from the nineteenth century to the present day. It looks at how women's issues were raised, initially by men and as part of the movements for social reform, and then with the involvement of women in the nationalist movement, by women themselves. Using photographs, old and new documents, excerpts from letters, books and informal writings, the author documents the growing involvement of women and the formation of the early women's organizations; she examines the foregrounding of the women's issue during the reform and nationalist movements and its subsequent disappearance from the agenda of public debate until the post independence period of the Sixties and Seventies when it surfaces again
