HAMMOND PRECIOUS

Immigrant and Refugee Children and Families

Psychology Press

With four million Syrian refugees as of September 2015, there is urgent need to develop both short-term and long-term approaches to providing education for the children of this population. This report reviews Syrian refugee education for children in the three neighboring countries with the largest population of refugees—Turkey, Lebanon, and Jordan—and analyzes four areas: access, management, society, and quality.

International Refugee

Law Springer Nature
Children make up half of the world's refugees and over 40 per cent of the world's asylum seekers. However, children are largely invisible in historical and contemporary refugee law.

Furthermore, there has been very limited interaction between the burgeoning children's rights framework, in particular the Convention on the Rights of the Child (CRC), and the 1951 Convention relating to the Status of Refugees (Refugee Convention). This book explores the possibility of a children's rights approach to the interpretation of the Refugee Convention and within that what such an approach might look like. In

order to construct a children's rights approach, the conceptualisations of children outside the legal discipline, within international children's rights law and then within refugee law and refugee discourse are analysed. The approach taken is socio-legal and comparative in nature and the suitability of the Refugee Convention as a framework for the interpretation of child claims is examined. The book analyses to what extent the Refugee Convention is capable of dealing with claims from children based on the modern conceptualisation of children, which is underscored by two competing ideologies: the child as a vulnerable object in

law to be protected and the child as subject with rights and the capacity to exercise their agency. The influence each regime has had on the other is also analysed. The work discusses how a children's rights approach might improve outcomes for child applicants. The book makes an original contribution to child refugee discourse and as such will be an invaluable resource for academics, researchers and policymakers working in the areas of migration and asylum law, children's rights and international human rights law. *Education of Syrian Refugee Children* Berghahn Books The first comprehensive look at the global dilemma of

child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved

to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political

analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

Complementary Protection in International Refugee Law United Nations
Designed for students of social work, public policy, ethnic studies, community development, and

migration studies, *Immigrant and Refugee Children and Families* provides the best knowledge for culturally responsive practice with immigrant children, adolescents, and families. This textbook summarizes the unique circumstances of Asian/Pacific Islander, Latino, South Asian, African, and Middle Eastern immigrant and refugee populations and the challenges faced by the social service systems, including child welfare, juvenile justice, education, health, and mental health care, that attempt to serve them. Each chapter features key terms, study questions, and resource lists, and the book meets many Council on Social Work Education Educational

Policy and Accreditation Standards (EPAS) competencies. The book addresses the policy landscape affecting immigrant and refugee children in the United States, and a final section examines current and future approaches to advocacy.

Children's Rights and Refugee Law

Oxford University Press
The child asylum seeker poses unique challenges for reception and refugee status determination systems, not least because the child is entitled to have his or her rights as a child respected as a matter of international and regional human rights law. In the last decade the European Union has increasingly engaged with

children's rights, with the entry into force of the Lisbon Treaty in December 2009, and a new Article 3(3) of the Treaty on European Union that commits the Union to promoting the 'protection of the rights of the child.' This book addresses the question of whether the Common European Asylum System (CEAS) complies with the rights of the child. It contrasts the normative standards of international child rights law with the treatment of child asylum seekers and refugees in the CEAS. Ciara Smyth identifies the attributes of the rights of the child that are most relevant to the asylum context and systematically examines whether and to what extent those attributes are reflected

in the CEAS legislation. The book goes on to assess whether the CEAS instruments direct Member States to comply with the rights of the child, offering a comprehensive examination of the place of the child within European asylum law and policy. The book will be of great use and interest to scholars and students of international law, immigration and children's rights studies.

The Interplay of Children's Rights and International Refugee Law University of Chicago Press

The long-awaited second edition of this seminal text, reconceived as a critical analysis of the world's leading

comparative asylum jurisprudence.

Child Migration and Human Rights in a Global Age Edward Elgar Publishing

This Handbook draws together leading and emerging scholars to provide a comprehensive critical analysis of international refugee law. This book provides an account as well as a critique of the status quo, setting the agenda for future research in the field.

An Introduction to International Refugee Law Charlesbridge Publishing

An accessible picture book that oh-so-simply and graphically introduces the term "refugee" to curious young children to help them better understand the world in which they live. Who

are refugees? Why are they called that word? Why do they need to leave their country? Why are they sometimes not welcome in their new country? In this relevant picture book for the youngest children, author-illustrator Elise Gravel explores what it means to be a refugee in bold, graphic illustrations and spare text. This is the perfect tool to introduce an important and timely topic to children.

Child, Adolescent and Family Refugee Mental Health

Praeger
Through an examination of interviews provided by 100 children of refugees in Cyprus, born after their family's displacement, Hadjiyanni illustrates

the formation of a refugee consciousness, an identity adopted by many children who never experienced the actual displacement of their family. Focusing on the process by which a child born into a refugee family develops a refugee identity, the book identifies nine dimensions that inform this consciousness. Establishing the family as the primary transmitter of the refugee identity and the child as its constructor, the author points to the power of homeplace in forming and supporting such an identity. The book challenges the notion that refugee consciousness is a separate identity and a crisis by reinterpreting it as a resistance to adversity. Shedding

new light on what it means to be a refugee, this work is a welcome addition to the field. Beginning with a discussion of the meaning of the term refugee, and how it has been adopted by the children of some refugees in Cyprus, the author moves to an examination of the meaning of past and present to the formation of a refugee consciousness. She then looks to the causes of such identity formation, focusing on the transference of identity from parent to child, and the effects of past loss on children who have not actually experienced displacement. Housing issues are also examined as a contributing factor, as refugee housing is typically distinct, and

constrained, compared to housing for native citizens of a community. The author concludes her work with a discussion of the implications of the Cyprus example for both the future and for general refugee studies.

Protecting Migrant Children Univ of California Press

This book addresses the intersection of various domains of international law (refugee law, human rights law including child rights international law and humanitarian law) in terms of the implications for State obligations to child refugee asylum seekers in particular; both as collectives and as individual persons. How these State obligations have been

interpreted and translated into practice in different jurisdictions is explored through selected problematic significant cases.

Further, various threats to refugee children realizing their asylum rights, including refoulement of these children through State extraterritorial and pushback migration control strategies, are highlighted through selected case law. The argument is made that child refugee asylum seekers must not be considered, in theory or in practice, beyond the protection of the law if the international rule of law grounded on respect for human dignity and human rights is in fact to prevail.

Family reunification for refugee and migrant children UN

The first comprehensive study of the challenges faced by children in establishing entitlement to refugee protection. This book, which draws extensively on national case law from the United States, the United Kingdom, Canada, New Zealand and Australia, will be an invaluable resource for any academic, decision-maker or practitioner working in the area.

Contemporary Issues in Refugee Law

Edward Elgar Publishing
 Stalin's Niños examines how the Soviet Union raised and educated nearly three thousand child refugees of the Spanish Civil War. An analysis of the archival record and numerous

letters, oral histories, and memoirs uncovers a little-known story that describes the Soviet transformation of children into future builders of communism and reveals the educational techniques shared with other modern states. Classroom education taught patriotism for the two homelands and the importance of emulating Spanish and Soviet heroes, scientists, soldiers, and artists. Extra-curricular clubs and activities reinforced classroom experiences and helped discipline the mind, body, and behaviours. Adult mentors, like the heroes studied in the classroom, provided models to emulate and became the tangible expression of the ideal Spaniard and Soviet.

The Basque and Spanish children thus were transformed into hybrid Hispano-Soviets fully engaged with their native language, culture, and traditions while also imbued with Russian language and culture and Soviet ideals of hard work, comradeship, internationalism, and sacrifice for ideals and others. Throughout their fourteen-year existence and even during the horrific relocation to the Soviet interior during the Second World War, the twenty-two Soviet boarding schools designed specifically for the Spanish refugee children – and better provisioned than those for Soviet children – transformed displaced niños into Red Army heroes, award-winning Soviet athletes and

artists, successful educators and workers, and in some cases valuable resources helping to rebuild Cuba after the revolution. Stalin's Niños also sheds new light on the education of non-Russian Soviet and international students and the process of constructing a supranational Soviet identity.

World Migration Report 2020 Martinus Nijhoff Publishers

This book provides an overview of the development and substance of existing international refugee law with a view to reveal its gaps, caveats, and inadequacies that militate against the establishment of an effective legal regime to address mounting global refugee crises.

The book pursues a reformist agenda towards affording legal coverage to all refugees generated by any genuinely involuntary grounds.

The Child in International Refugee Law Cambridge University Press

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key

information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

European Asylum Law and the Rights of the Child

Cambridge University Press

How can schools best prepare themselves to successfully educate refugee children? By focusing on the education of refugee children, this book takes a rare look at a subject of increasing significance in current educational spheres. Highlighting the many difficulties facing refugee children, the editors draw upon a wealth of international experience and resources to present a

broad, informative and sensitive text.

Educational Interventions for Refugee Children identifies school-based interventions, whilst suggesting methods and measures with which to assess the efficacy of such programmes. It also develops a useful model that provides a standard for assessing refugee experience, offering diagnostic indicators for: * Evaluating support services for refugee children * Future avenues of research * Practical implications of creating supportive educational environments for refugee children The need to identify and prepare for the education of refugee children is an international issue, and

this is reflected in the broad outlook and appeal of this book. The editors have developed an overall model of refugee experience, integrating psychological, cultural and educational perspectives, which researchers, practitioners and policy makers in education will find invaluable. *The Rights of Refugees under International Law* Schwartz & Wade A practical guide to assist legislators and legal practitioners in facilitating the reunification of refugee and migrant children with their families As a result of the sharp increase in the refugee and migrant population in recent years, many children and their families have experienced family separation. Member

states are bound by various obligations related to family reunification, and the practical reunification of refugee and migrant children with their family members has proved complex. This handbook is a practical guide both to key legal standards and to promising practices in the field of family reunification and restoring family links. This publication is conceived as a point of reference for capacity-building material, technical assistance, co-operation projects and new practices for and with relevant authorities and institutions. It focuses on the reunification of families with children in the context of international migration, and in particular on reunification

possibilities for unaccompanied and separated refugee and migrant children. It presents an overview of legal principles of human rights, children's rights, refugee law and EU law relevant to family reunification and then discusses key features of family reunification procedures, with promising examples of law and practice and relevant applicable standards. The handbook contributes to achieving the objectives of the Action Plan on Protecting Refugee and Migrant Children in Europe (2017-2019).

Baby Jails Springer

The status of the refugee in international law, and of everyone entitled to protection, has ever been precarious, not least in

times of heightened and heated debate: people have always moved in search of safety, and they always will. In this completely revised and updated edition, the authors cast new light on the refugee definition, the meaning of persecution, including with regard to gender and sexual orientation, and the protection due to refugees and those affected by statelessness or disasters. They review the fundamental principle of non-refoulement as a restraint on the conduct of States, even as States themselves seek new ways to prevent the arrival of those in search of refuge. Related principles of protection—non-

discrimination, due process, rescue at sea, and solutions— are analysed in light of the actual practice of States, UNHCR, and treaty-monitoring bodies. The authors closely examine relevant international standards, and the role of UNHCR, States, and civil society, in providing protection, contributing to the development of international refugee law, and promoting solutions. New chapters focus on the evolving rules on nationality, statelessness, and displacement due to disasters and climate change. This expanded edition factors in the challenges posed by the movement of people across land and sea in search of refuge, and their interception,

reception, and later treatment. The overall aim remains the same as in previous editions: to provide a sound basis for protection in international law, taking full account of State and community interests and recognizing the need to bridge gaps in the regime which now has 100 years of law and practice behind it.

The Child in International Refugee Law University of Toronto Press

Do states have a duty to assimilate refugees to their own citizens? Are refugees entitled to freedom of movement, to be allowed to work, to have access to public welfare programs, or to be reunited with family members? Indeed, is there even a duty to admit refugees at all?

This fundamentally rewritten second edition of the award-winning treatise presents the only comprehensive analysis of the human rights of refugees set by the UN Refugee Convention and international human rights law. It follows the refugee's journey from flight to solution, examining every rights issue both historically and by reference to the decisions of senior courts from around the world. Nor is this a purely doctrinal book: Hathaway's incisive legal analysis is tested against and applied to hundreds of protection challenges around the world, ensuring the relevance of this book's analysis to responding to the hard facts of refugee life on the ground.

Counting Kindness
Routledge
The scope and complexity of child migration have only recently emerged as a critical factors in global migration. This volume assembles for the first time a richly interdisciplinary body of work, drawing on contributions from renowned scholars, eminent practitioners and prominent civil society advocates from across the globe and from a wide range of different mobility contexts. Their invaluable pedagogical tools and research documents demonstrate the urgency and breadth of this important new aspect of international human mobility in our global age.
Stalin's Niños Rand Corporation

This book provides a comprehensive analysis of complementary protection, from its historical development through to its contemporary application. By examining the human rights foundations of the Convention, the architecture of Convention rights, regional examples of

complementary protection, and principles of non-discrimination, the book argues that the Convention acts as a type of *lex specialis* for persons in need of international protection, providing a specialized blueprint for legal status, irrespective of the legal source of the protection obligation.
