The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government.

**Department of the Interior and Related Agencies Appropriations for 2001: Justification of the budget estimates, U.S. Geological Survey**

"One hundred and twenty tracts comprising 235,875 hectares (582,856 acres) are proposed for leasing action. The

tracts are located offshore Texas and Louisiana in water depths ranging from 4 m to 183 m and a distance from shore from 5 km to 293 km. If implemented, this sale is tentatively scheduled to be held in December 1977. All tracts offered pose some degree of pollution risk to the environment"--Title page verso. Code of Federal Regulations, Title 30, Mineral Resources, Pt. 200-699, Revised as of July 1 2010

The 2016 International Conference on Mechanics and Materials Science (MMS2016) was held in Guangzhou, China on October 15-16, 2016. Aimed at providing an excellent international academic forum for all the researchers and practitioners, the conference attracted a wide spread participation among all over the universities and research institutes.

MMS2016 features unique mixed topics of Mechatronics and Automation, Materials Science and Engineering, Materials Properties, Measuring Methods and Applications. This volume consists of 159 peer-reviewed articles by local and foreign eminent scholars, which cover the frontiers and hot topics in the relevant areas.
