It was as if American television audiences discovered the musical in the early 21st century. In 2009 Glee took the Fox Network and American television by storm with the unexpected unification of primetime programming, awkward teens, and powerful voices spontaneously bursting into song. After raking in the highest rating for a new show in the 2009-2010 season, Glee would continue to cultivate rabid fans, tie-in soundtracks and merchandising, and a spinoff reality competition

show until its conclusion in 2015. Alongside Glee, NBC and Fox would crank up musical visibility with the nighttime drama *Smash* and a string of live musical productions. Then came ABC's comedic fantasy musical series *Galavant* and the CW's surprise Golden Globe darling *Crazy Ex-Girlfriend*. Television and the musical appeared to be a perfect match. But, as author Kelly Kessler illustrates, television had at that point been carrying on a sixty-year, symbiotic love affair with the musical. From Rodgers and Hammerstein's appearance on the first *Toast of the Town* telecast and Mary Martin's iconic *Peter Pan* airings to Barbra Streisand's 1960s CBS specials, *The Carol Burnett Show*, *Cop Rock*, *Great Performances*, and a string of one-off musical

episodes of sitcoms, nighttime soaps, fantasy shows, and soap operas, television has always embraced the musical. Kessler shows how the form is written across the history of American television and how its various incarnations tell the stories of shifting American culture and changing television, film, and theatrical landscapes. She recounts and explores this rich, decades-long history by traversing musicals, stars, and sounds from film, Broadway, and Las Vegas to the small screen.

Teacher attrition is endemic in education, creating teacher quantity and quality gaps across schools that are often stratified by region and racialized nuance (Cowan et al., 2016; Scafidi et al., 2017). This reality is starkly reflected in South Carolina. Not too long ago, on May 1, 2019, a sea of approximately 10,000 people, dressed in red, convened at the state capital in downtown Columbia, SC (Bowers, 2019b). This statewide teacher walkout was assembled to call for the improvement of teachers'

working conditions and the learning conditions of their students. The gathering was the largest display of teacher activism in the history of South Carolina and reflected a trend in a larger wave of teacher walkouts that have rippled across the nation over the last five years. The crowd comprised teachers from across South Carolina, who walked out of their classrooms for the gathering, as well as numerous students, parents, university faculty, and other community members that rallied with teachers in solidarity. Undergirding this walkout and others that took hold across the country is a perennial and pervasive pattern of unfavorable teacher working conditions that have contributed to what some are calling a teacher shortage "crisis" (Chuck, 2019). We have focused our work specifically on the illustrative case of South Carolina, given the extreme teacher staffing challenges the state is facing. Across numerous metrics, the South Carolina teacher shortage has reached critical levels, influenced by teacher recruitment and retention challenges. For instance,

the number of teacher education program completers has declined annually, dropping from 2,060 in 2014-15 to 1,642 in the 2018-19 school year. Meanwhile, the number of teachers leaving the teaching field has increased from 4,108.1 to 5,341.3 across that same period (CERRA, 2019). These trends are likely to continue as COVID-19 has put additional pressure on the already fragile teacher labor market. Some of the hardest-to-staff districts are often located in communities with the highest diversity and poverty. To prosper and progress, reformers and public stakeholders must have a vested interest in maintaining full classrooms and strengthening the teaching workforce. An important element of progress towards tackling these longstanding challenges is to gain a comprehensive understanding of the problem. While teacher shortages are occurring nationwide (Garcia & Weiss, 2019), how they manifest regionally is directly influenced by its localized historical context and the evolution of the teaching profession's reputation

within a state. Thus, the impetus of this book is to use South Carolina as an illustrative example to discuss the context and evolution that has shaped the status of the teaching profession that has led to a boiling point of mass teacher shortages and the rise of historic teacher walkouts.

No Regrets: Love, Laughter and Life with Colon Cancer Springer

For two-thousand years, Christians around the world have sought the Blessed Virgin Mary as a guide to growing closer to her Son, Jesus. Through Scripture, Catholic teaching, devotions, and countless works of art, we come to see Mary as our Mother, too. Through the Year with Mary by Katherine Bogner brings together the Church's traditions in one place and provides a year-long plan for coming to know and love the Mother of God through Weekly passages from Scripture, saints, and scholars Reflections to nurture your understanding of Marian teaching and devotion Sacred art from around the world Marian prayers to teach you to grow closer to Jesus through Mary This comprehensive resource will help adults and

children alike to entrust themselves to the most loving Mother of Jesus. Through the Year with Mary has received the nihil obstat and imprimatur. Nihil obstat: Msgr. Philip D. Halfacre, V.G. Censor Librorum Imprimatur: Most Rev. Daniel R. Jenky, C.S.C. Bishop of Peoria September 15, 2021 Congressional Record Bernan Press

A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast-moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates, and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The Handbook of Research on Promoting Global Citizenship Education explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education.

Covering a range of topics such as global issues and academic migration, this major reference work is ideal for academicians, industry professionals, policymakers, researchers, scholars, instructors, and students. Code of Federal Regulations Corwin Press Many teacher education programs globally are undergoing significant changes in response to government policy, imperatives driven by global competitiveness, as well as local conditions. This is particularly relevant in the South African context where teacher education seeks to navigate from the ravages of apartheid education towards addressing the developmental needs of the majority of its citizens. This book records and explores efforts by academic staff members within the Faculty of Education at Stellenbosch University, South Africa, responding to the demands of a new program in initial teacher education. It brings together diverse views seeking to present a coherent program in the Postgraduate Certificate in Education (PGCE). It examines how curriculum design unfolds across

disciplines in the program, and crucially, the commonalities in the presentation of course material. Lecturers examine the purpose, structure and content of their teaching as they engage with putting democratic policy goals into practice in the core, as well as subject-specific modules of the program.

*Cases on Teacher Preparation in Deaf Education* McGraw Hill Professional

*Risk Society and School Educational Policy* explores the impact of risk society on policy in the US, UK and Australia through both practical and theoretical perspectives. The book develops an in-depth understanding of risk society itself, and guides the reader in applying this knowledge to the problem of how this impacts policy and practice in school education. Drawing on work by Ulrich Beck and Anthony Giddens, Rodwell explores the development of risk society as a field of interest, discussing its

history, contemporary significance and links with neoliberalism, school education, and both mainstream and social media. He also examines its impact on government policies and the practical implications of how this impacts the educational experiences of children around the globe today. A book for policy professionals, researchers, academics and postgraduate students interested in Education Studies, Theory and Policy, and International and Comparative Education, *Risk Society and School Educational Policy* is the first international academic monograph published in the field.

Patsy was diagnosed with Stage IV colon cancer February 25th, 2013. She was 34 years old, a happy, healthy mother of 3 with no symptoms or family medical history of colorectal cancer. Her next 3 years would be filled with chemo, surgeries, CT/PET scans and disappointments as treatment failed to clear the cancer. But they were also filled with happiness, faith, love, laughter,

advocacy and dancing. We put her writings together in order that others can benefit from her amazing spirit and so we can share her with the world. This is the book she always wanted to write. *Family Engagement in the Digital Age* Beyond The Galaxy Publishing / Prophetic Fire Distribution

In this Book the Prayer, Prophecy, Discipleship, and The Holy Spirit; is a basic Textbook style of simple studies of a beginning scholar entering into the deep waters of God's apostolic calling. It introduces you to the order in which God developed Apostle Curtis Marsh's calling, Character, and competency in Affirming his Office of the Apostle. Through his first two Chapters being about prayer he felt that God has charged him with prayer to be the Lifeline of his five fold apostolic gifts. He expresses how prayer can change your life situations as it did his. Therefore, quoted by Apostle Marsh, "knowing the will of God's word in prayer is part of the believers driving power as he petitions God." However, prayer, as stated by Apostle Marsh, "gives insight on matters and issues of the heart of God." Nevertheless, this

book provides a comprehensive textbook-style view for those who do not have the ability or time to research and understand Biblical terminology, when it comes to text, content, and context of theological doctrine as well. The uniqueness of this book is to guide already trained lay leaders and potential laid leaders in an upscale fast track training and study guide text; to understanding the apostolic way of life. This is the life that Jesus Christ walked and lived in. This creates an atmosphere of Spiritual, physical and social well-being benefits for the lay members, as well as, the community they live in. This book is also, recommended by Apostle Marsh for colleges around the world to draw from the basic research and knowledge of simple modern day terminology. This book is not just for a particular group or audience. It has the ability to connect non-believers, as well as, a believer with a greater influence and regard for the Kingdom of God. The effectiveness of this book will affect your ministry; allowing it to grow in every area God intended it to. The practical applications of this book are design to

move your lay leaders forward in a framework of their God given purpose and plan. "For I know the thoughts that I think toward you, saith the LORD, thoughts of peace, and not of evil, to give you an expected end. Then shall ye call upon me, and ye shall go and pray unto me, and I will hearken unto you. And ye shall seek me, and find me, when ye shall search for me with all your heart" Jeremiah" (29:11-13). The National Elementary Principal International Monetary Fund Family Engagement in the Digital Age: Early Childhood Educators as Media Mentors explores how technology can empower and engage parents, caregivers and families, and the emerging role of media mentors who guide young children and their families in the 21st century. This thought-provoking guide to innovative approaches to family engagement includes Spotlight on Engagement case studies, success stories, best practices, helpful hints for media mentors, and "learn more" resources woven into each chapter to connect the dots between child development, early learning, developmentally

appropriate practice, family engagement, media mentorship and digital age technology. In addition, the book is driven by a set of best practices for teaching with technology in early childhood education that are based on the National Association for the Education of Young Children (NAEYC) and Fred Rogers Center joint position statement on Technology and Interactive Media. African Sun Media  
"This picture book celebrates, through words and images, the best birthday gift of all--a whole day that is yours to unwrap"--  
*Legislative Calendar*  
Lulu.com  
This introductory text integrates evidence-based models and best practices with relational-cultural theory, which is responsive to the many forms of traumatic stress and tragedies that clients experience. It is a unique contribution that emphasizes the power of the connections counselors form with clients and communities in crisis and the means by which counselors can intervene, inspire growth, and promote healing during times of tragedy and loss. Readers will gain vital skills as they learn real-life approaches to

crisis work with diverse populations in a variety of settings, including individuals, families, communities, students, military personnel, violence survivors, and clients who are suicidal. The authors provide strength-based, trauma-informed applications of cognitive behavioral therapy, behavioral therapy, neurofeedback, mindfulness, and creative practices. In addition, each chapter contains compelling case examples, multiple-choice and essay questions, and key topic discussion prompts to guide student learning and promote classroom discussion.

[Risk Society and School Educational Policy](#) Taylor & Francis  
Currently, many states are adopting the Next Generation Science

Standards (NGSS) or are revising their own state standards in ways that reflect the NGSS. For students and schools, the implementation of any science standards rests with teachers. For those teachers, an evolving understanding about how best to teach science represents a significant transition in the way science is currently taught in most classrooms and it will require most science teachers to change how they teach. That change will require learning opportunities for teachers that reinforce and expand their knowledge of the major ideas and concepts in science, their familiarity with a range of instructional strategies, and the skills to implement those strategies in the classroom. Providing these kinds of learning opportunities in turn will require profound changes to current approaches to supporting teachers' learning across their careers, from their initial training to continuing professional development. A teacher's capability to improve students' scientific understanding is heavily influenced by the school and district in which they work, the community in which the

school is located, and the larger professional communities to which they belong. Science Teachers' Learning provides guidance for schools and districts on how best to support teachers' learning and how to implement successful programs for professional development. This report makes actionable recommendations for science teachers' learning that take a broad view of what is known about science education, how and when teachers learn, and education policies that directly and indirectly shape what teachers are able to learn and teach. The challenge of developing the expertise teachers need to implement the NGSS presents an opportunity to rethink professional learning for science teachers. Science Teachers' Learning will be a valuable resource for classrooms, departments, schools, districts, and professional organizations as they move to new ways to teach science.

### **Belonging and Inclusion in Identity Safe Schools IAP**

This second handbook offers all new content in which readers will find a thoughtful and measured

interrogation of significant contemporary thinking and practice in urban education. Each chapter reflects contemporary cutting-edge issues in urban education as defined by their local context. One important theme that runs throughout this handbook is how urban is defined, and under what conditions the marginalized are served by the schools they attend. Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations. This second handbook focuses on factors such as social stratification, segmentation, segregation, racialization, urbanization, class formation and maintenance, and patriarchy. The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe. Researchers will find an analysis framework that will make the current practice and outcomes of urban education, and their alternatives, more transparent, and in turn this will lead to solutions that can help improve the

life-options for students historically underserved by urban schools.

**Pumpkin Time!**

Candlewick Press

This paper discusses the economic developments, outlook, risk, and policies of Croatia. This East European country has begun since the last quarter of 2014 to

gradually recover from a six-year recession. In 2015 real GDP grew by 1.6 percent, driven by strong exports and tourism, a revival of private consumption, and higher public investment. Consumer prices have largely been declining over the past two years, mainly due to lower energy and food prices.

Unemployment declined only slightly since 2014 and remains very high. However, absent concrete measures to underpin some of the planned reforms, slightly higher deficit in 2016 and a slower pace of consolidation over the medium term are projected.
