When we ask our kids, "What'd you do in school today?" and they mumble, "Nothin'," they're telling the truth. Steve Perry gets it. He understands why some parents are panicked about what's going on in their kids' classrooms, and how other parents, whose kids supposedly attend the "good" schools, still fear that their children are falling behind. As principal of one of the best performing schools in America - one that sends 100% of its mostly minority students to four-year colleges - Perry delights in proving "the system" wrong. In this solution-oriented manifesto, Perry covers the full range of issues holding back today's students. He shows parents and principals how to find great teachers (and get rid of the bad ones), how to make readers out of kids who hate to read, how to make the school curriculum thrilling rather than sleep-inducing, how to conduct an all-important education "home audit," how to "e-organize" if school boards and administrators aren't getting the message, how to build a "school of the future," and much more. The era of third-rate education is over. Push has come to shove!

Once activated, you will gain immediate online access to the product. Frequently Asked Questions Do I have to be a CPA to get the certificate? You do not have to be a CPA to obtain the certificate. The certificate is designed to benefit CPAs and non-CPA alike, including anyone who works for, or with, a nonprofit. Those who obtain the certificate will receive the recommended CPE / CAE credits. Are there any prerequisites I need to take prior to starting the NFP Certificate program? There are no required prerequisites, but a foundational knowledge of NFP accounting, such as can be obtained from taking the first in the Not-for-Profit Certificate series, is recommended. Those with prior experience with NFP financial reporting can take the second certificate without having completed the first. How is the course material presented? Designed to be highly interactive, this program offers multiple opportunities for learning, including case study analysis and several gaming scenarios. Participants will be offered the opportunity to apply their new NFP knowledge in a simulated real-world environment. Tests are presented after each course to allow you to apply what you just learned. There are no

additional tests at the end of tracks or when you've completed the certificate. How long will it take me to complete? This varies from individual to individual and is completely dependent upon the time the participant allocates to completing the coursework. A commitment of approximately 28 hours will be required for most individuals to successfully complete the program. What period of time do I have to complete the program? You have twenty-four (24) months from the date of purchase to complete all the courses. You are encouraged to complete the program within a twelve (12) month period or less. Can I complete the program in any order? There are no limitations on the order in which you can take the courses. When will I receive a hard copy of my certificate? You will receive your certificate in the mail 6-8 weeks after completing the program. Once I complete the program and obtain my Certificate, how long is it valid? The NFP Certificate is not a professional credential or license, it is evidence that the program was successfully completed as of a certain year, therefore it does not expire. However, we anticipate that some individual courses may be updated every 1-3 years to reflect changes in the industry. For your certificate to remain current, you will need to successfully complete those updated courses. However, updates are likely to be at a fraction of the cost of the original certificate. Plus, you have access to the program for 24 months from purchase, if the courses are updated during that period, you will have access to the updated courses at no additional cost. Completion of these updated courses will earn a new Certificate, with the current year's date. Is there any cost savings in purchasing the entire certificate over buying tracks individually? Individual courses are priced higher than the bundles, so buying the governance track is less expensive than buying the individual courses separately, and buying the certificate is less expensive than buying each of the 3 tracks separately. If I were to purchase one course or track, and then decided to purchase the entire certificate, will I still get the full bundled price savings? Yes, as long as you haven't already paid more than the full certificate price. The price you paid for the courses or tracks you have already taken will be deducted from the total certificate price. If I am unable to complete the entire NFP Certificate Program, will I receive CPE credit for the courses I do complete? You are not required to complete the entire program to earn CPE credit. The courses are offered individually, so you will earn CPE credit for each course you take and successfully complete the exam. However, you must successfully complete the exam for all courses in the entire program in order to receive the NFP Certificate. Am I required to obtain a certain number of CPE credits annually for the Certificate to remain current and active? There are no specific annual requirements for maintaining your Certificate. However, we anticipate that some individual courses may be updated every 1-3 years to reflect changes in the industry. For your certificate to remain current, you will need to successfully complete those updated courses. However, updates are likely to be at a fraction of the cost of the original certificate. Plus, you have access to the program for 24 months from purchase, if the courses are updated during the access period, you will have access to the updated courses at no additional cost. I have prior experience working with NFPs. Will I be allowed to test out of certain courses while still earning the certificate? Actual completion of the courses is required to earn the NFP Certificate. CPE credit is being awarded for the courses, and the CPE standards do not allow for "testing out of" a course as a way to earn credit. System Requirements AICPA's online CPE courses will operate in a variety of configurations, but only the configuration described below is supported by AICPA technicians. A stable and continuous internet connection is required. In order to record your completion of the online learning courses, please

ensure you are connected to the internet at all times while taking the course. It is your responsibility to validate that CPE certificate(s) are available within your account after successfully completing the course and/or exam. Supported Operating Systems: Macintosh OS X 10.10 to present Windows 7 to present Supported Browsers: Apple Safari Google Chrome Microsoft Internet Explorer Mozilla Firefox Required Browser Plug-ins: Adobe Flash Adobe Acrobat Reader Technical Support: Please contact [service@aicpa.org](mailto:service@aicpa.org).

This is the book you should have bought the day you decided you could make more money running a construction company than banging nails for somebody else. It provides you with the answers to those business questions that plague contractors: what am I doing wrong and what's stopping me from making the money that I deserve? You'll meet Mike, a remodeler who thought he owned a business but actually had a low-paying job. Many contractors start out like Mike. This book, in a very simple and easy to understand way, follows Mike as he learns to understand his numbers, adopts new systems, and creates a repeatable process for profit. "Every contractor should read this book. It is the first and only book that makes the numbers game easy to understand, but, more importantly, easy to incorporate into a contractor's business. Bravo!" - Shawn McCadden, CR, CLC, CAPS, award-winning remodeler, columnist, and nationally recognized remodeling industry specialist. "The authors have distilled many of the mysteries of the small-business person who can no longer manage the business by quick thinking and fast actions." - Mike Gorman, CR, construction industry author and speaker.

"Contractors love a good story, and that's what they get. All of the basics are covered, including cash flow analysis, distinguishing job costs from overhead expenses, and calculating mark-up." - Sal Alfano, Editorial Director, Hanley Wood Business Media. Melanie Hodgdon (Business Systems Management, Inc.) and Leslie Shiner, MBA (The ShinerGroup) both manage successful consulting and coaching companies. With over 40 years combined experience, they help contractors better understand and improve business practices and maximize profits. In 2007, they began to work on a series of joint projects that would capitalize on their combined talents. This book is one product of that collaboration.

Most accounting & bookkeeping firms stagnate because they haven't found the right way to: + Acquire the right type of client, predictably & consistently + Maintain quality service delivered through a high performance team + Develop workflows that drive client retention and firm profitability Smart firm owners know that in order to grow their firm, they'll need to adjust. Doing the "same old" will not magically create a better practice. But instead of randomly searching through the world of books, blogs, conferences and journals, this book shows you the exact steps you need to take to build a sustainable, high growth firm. In Double Your Accounting Firm, David Cristello (Founder of Jetpack Workflow) and Joe Cassandra, CPA (Principle of JC Copy) curated some of the best frameworks and principles from 100+ top practitioners, and their community of 20,000 accounting professionals. Inside you'll learn how to: + Make the transition from hourly billing to fixed (and then to value). Hint: It doesn't happen overnight + The key questions (and mistakes) that will make you rethink your workflow. For example: How often do you consider the client experience in your process creation? + How to identify your core client, and create a Unique Selling Proposition (USP) that positions your marketing material + The ideal way to run a consultation, so clients view you as the expert (and not a commodity that is traded on price!) + How to drive rapid growth through service expansion or M&A (note: you'll want to create a solid workflow and process structure before doing so!) And much more. Double Your Accounting Firm is a seminar worth of material, condense into an easy access book. At the end of each chapter are also links to interviews with the experts, which you can access for free from your computer or smartphone. If growing your firm is a priority, then this book is your springboard towards acceleration.
