*The War with Hannibal* Oxford University Press Trebia. Trasimene. Cannae. With three stunning victories, Hannibal humbled Rome and nearly shattered its empire. Even today Hannibal's brilliant, if ultimately unsuccessful, campaign against Rome during the Second Punic War (218-202 BC) make him one of history's most celebrated military leaders. This biography by Cornelius Nepos (c. 100-27 BC) sketches Hannibal's life from the time he began traveling with his father's army as a young boy, through his sixteen-year invasion of Italy and his tumultuous

political career in Carthage, to his perilous exile and eventual suicide in the East. As Rome completed its bloody transition from dysfunctional republic to stable monarchy, Nepos labored to complete an innovative and influential collection of concise biographies. Putting aside the detailed, chronological accounts of military campaigns and political machinations that characterized most writing about history, Nepos surveyed Roman and Greek history for distinguished men who excelled in a range of prestigious occupations. In the exploits and achievements of these illustrious men, Nepos hoped that his readers would find models for the honorable conduct of their

own lives. Although most of Nepos' works have been lost, we are fortunate to have his biography of Hannibal. Nepos offers a surprisingly balanced portrayal of a man that most Roman authors vilified as the most monstrous foe that Rome had ever faced. Nepos' straightforward style and his preference for common vocabulary make *Life of Hannibal* accessible for those who are just beginning to read continuous Latin prose, while the historical interest of the subject make it compelling for readers of every ability. [Hannibal](#) Penguin UK Telling the story of a man who stood against the overwhelming power of the mighty Roman empire, Hannibal is the

biography of a man who, against all odds, dared to change the course of history. Over two thousand years ago one of the greatest military leaders in history almost destroyed Rome. Hannibal, a daring African general from the city of Carthage, led an army of warriors and battle elephants over the snowy Alps to invade the very heart of Rome's growing empire. But what kind of person would dare to face the most relentless imperial power of the ancient world? How could Hannibal, consistently outnumbered and always deep in enemy territory, win battle after battle until he held the very fate of Rome within his grasp? Hannibal appeals to many as the ultimate underdog—a Carthaginian David against the Goliath of Rome—but it wasn't just his genius on the battlefield that set him apart. As a boy and then a man, his self-discipline and determination were legendary. As a military leader, like Alexander the Great before him and Julius Caesar after, he understood the hearts of men and had an uncanny ability to read the unseen weaknesses of his enemy. As a commander in war, Hannibal has few equals

in history and has long been held as a model of strategic and tactical genius. But Hannibal was much more than just a great general. He was a practiced statesman, a skilled diplomat, and a man deeply devoted to his family and country. Roman historians—on whom we rely for almost all our information on Hannibal—portray him as a cruel barbarian, but how does the story change if we look at Hannibal from the Carthaginian point of view? Can we search beneath the accounts of Roman writers who were eager to portray Hannibal as a monster and find a more human figure? Can we use the life of Hannibal to look at the Romans themselves in an unfamiliar way— not as the noble and benign defenders of civilization but as ruthless conquerors motivated by greed and conquest? Mastering the West Preface Publishing This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest

analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works. Hannibal's War Franklin Classics NATIONAL BESTSELLER For millennia, Carthage's triumph over Rome at Cannae in 216 B.C. has inspired reverence and awe. No general since has matched Hannibal's most unexpected, innovative, and brutal military victory. Now Robert L. O'Connell, one of the most admired names in military history, tells the whole story of Cannae for the first time, giving us a stirring

account of this apocalyptic battle, its causes and consequences. O'Connell brilliantly conveys how Rome amassed a giant army to punish Carthage's masterful commander, how Hannibal outwitted enemies that outnumbered him, and how this disastrous pivot point in Rome's history ultimately led to the republic's resurgence and the creation of its empire. Piecing together decayed shreds of ancient reportage, the author paints powerful portraits of the leading players, from Hannibal—resolutely sane and uncannily strategic—to Scipio Africanus, the self-promoting Roman military tribune. Finally, O'Connell reveals how Cannae's legend has inspired and haunted military leaders ever since, and the lessons it teaches for our own wars.

When he left his Spanish base one spring day in 218 B.C. with his 100,000-man army of mercenaries, officers, and elephants, Hannibal was launching not just the main offensive of the Second Punic War but also one of the great military journeys in ancient

history. His masterful advance through rough terrain and fierce Celtic tribes proved his worth as a leader, but it was his extraordinary passage through the Alps—still considered treacherous even by modern climbers—that made him a legend. John Prevas combines rigorous research of ancient sources with his own excursions through the icy peaks to bring to life this awesome trek, solving the centuries-old question of Hannibal's exact route and shedding fresh light on the cultures of Rome and Carthage along the way. Here is the finest kind of history, sure to appeal to readers of Steven Pressfield's *Gates of Fire*: alive with grand strategy, the clash of empires, fabulous courage, and the towering figure of Hannibal Barca. *Livy* Sutton Publishing

Simon and Schuster  
Hannibal Barca, general of the Carthaginian army, strikes terror in the hearts of his Roman foes. Hannibal is determined to march on Italy and attack the people he has pledged to hate. After a victory in Saguntum, an Iberian ally of Rome...  
...the legendary general presses onward.  
Carthage's strength and growth threaten the Roman reputation and ego, and Rome's pride prevents any peace. It is said, "Saguntum was the flint and Hannibal the rock, but it was Roman-laid tinder that ignited." Yet a Roman consul, Old Scipio, and his son, Young Scipio, nobles of Rome, have little fear of such an enemy. Their army is superior in weaponry and numbers, and they ride out to battle, confident in a victory. Although it seems impossible...  
...somehow the shrewd

and fearless barbarian general turns the Roman advantage on its head. A general who can successfully bring an entire army-and a herd of war-elephants-through the bitter cold and harsh conditions of the Alps is an enemy rightly to be feared. With allies like the African king Masinissa and the barbarian princess Frederix, Hannibal is poised for what history will call the Second Punic War. He neither knows nor cares about Old Scipio's message to Carthage... "Submission or death: those are the choices Rome gives you." He was undermanned, under-armed, and yet he would play by the rules, even if the Romans he fought would not. How could he ever expect to win? By being that damn good. His tactics would redefine war... ..and his principles would redefine man. Hannibal brings to life the ancient and epic battle between General Hannibal Barca, one of the greatest generals of all time, and the might of the Roman Empire.

**Hannibal and His War with Rome** War College Series

A "crisply written, well researched . . . superb piece of scholarship about one of the most dramatic and decisive battles in the ancient world" (Journal of Military History). At Zama (in what is now Tunisia) in 202 BC, the armies of two

great empires clashed: the Romans under Scipio Africanus and Carthaginians, led by Hannibal. Scipio's forces would win a decisive, bloody victory that forever shifted the balance of power in the ancient world. Thereafter, Rome became the dominant civilization of the Mediterranean. Here, Brian Todd Carey recounts that battle and the grueling war that led up to it. He offers fascinating insight into the Carthaginian and Roman methods of waging war, their military organizations, equipment, and the tactics the armies employed. He also delivers an in-depth critical assessment of the contrasting qualities and leadership styles of Hannibal and Scipio, the two most celebrated commanders of their age. With vivid prose and detailed maps of the terrains of the time, Hannibal's Last Battle is an essential text for fans of military history and students of the classical period.

One of the names most synonymous with brilliant military strategy is Hannibal. He was the legendary Carthaginian

general who marched elephants over the snowy Alps and took on Rome, the growing power in Europe at the time. He outsmarted the best strategists that Rome had to offer and twice sat in front of the gates of Rome with his army.

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War.

When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. Richard A. Gabriel's brilliant new biography shows how Hannibal's genius nearly unseated the Roman Empire.

Hannibal is "an exciting

biography of one of history's greatest commanders...a thrilling page-turner" (Kirkus Reviews, starred review) about the brilliant general who successfully crossed the Alps with his war elephants and brought Rome to its knees, and who is still regarded today as one of the greatest military strategists in history. Hannibal Barca of Carthage, born 247 BC, was one of the great generals of the ancient world. His father, Hamilcar, imposed Carthaginian rule over much of present-day Spain. After Hamilcar led the Carthaginian forces against Rome in the First Punic War, Hannibal followed in his father's footsteps. From the time he was a teenager, Hannibal fought against Rome. He is famed for leading Carthage's army across North Africa, into Spain, along the Mediterranean coast, and then crossing the Alps with his army and war elephants. Hannibal won victories in northern Italy by outmaneuvering his Roman adversaries and defeated a larger Roman army at the battle of Cannae in 216 BC. Unable to force Rome to capitulate, however, he was eventually forced to

leave Italy and return to Carthage when a savvy Roman general named Scipio invaded North Africa. Hannibal and Scipio fought an epic battle at Zama, which Hannibal lost. Many Carthaginians blamed Hannibal, who was exiled until his death. Hannibal is still regarded as a military genius. Napoleon, George Patton, and Norman Schwarzkopf, Jr. are only some of the generals who studied and admired him. His strategy and tactics are still taught in military academies. "With wonderful energy...archeologist and historian Patrick Hunt distills his survey of literature about the Second Punic War into a brightly dramatic story that covers virtually every anecdote connected with Hannibal" (The Christian Science Monitor). "Hunt's story of the doomed general, whose exploits are more celebrated than those of his vanquishers, will appeal to any reader interested in military history or strategy" (Publishers Weekly). *Hannibal's Road* Franklin Classics Trade Press Hannibal is acknowledged to be one of history's greatest generals, and his crossing of the Alps - complete with elephants -

to make war against Rome on its home soil is legendary. But even Hannibal met his match in Scipio, and ultimately Carthage was defeated by the rising power of Rome. In *Hannibal's War*, J. F. Lazenby provides the first scholarly account in English since 1886 solely devoted to the Second Punic War - what some have called the first "world war" for mastery of the Mediterranean world. By closely examining the accounts of Livy and Polybius, supplemented with the fruits of modern research, Lazenby provides a detailed military history of the entire war as it was fought in Italy, Spain, Greece, and North Africa. This edition includes a new preface covering recent research on Hannibal's war against Rome.

In *The War with Hannibal*, Livy (59 BC-AD 17) chronicles the events of the Second Punic War between Rome and Carthage, until the Battle of Zama in 202 BC. He vividly recreates the immense armies of Hannibal, complete with elephants, crossing the Alps; the panic as they approached the gates of Rome; and the decimation of the Roman army at the Battle of Lake Trasimene. Yet it is also the clash of personalities that fascinates Livy, from great debates in the Senate to the historic meeting between Scipio and Hannibal before the

decisive battle. Livy never hesitates to introduce both intense drama and moral lessons into his work, and here he brings a turbulent episode in history powerfully to life. **Books 21-30** Wiley-Blackwell
