Computing is designed for undergraduate students learning to develop cloud computing applications. Tomorrow's applications won't live on a single computer

but will be deployed from and reside on a virtual server, accessible anywhere, any time. Tomorrow's application developers need to understand the requirements of building apps for these virtual systems, including concurrent programming, high-performance computing, and data-intensive systems. The book introduces the principles of distributed and parallel computing underlying cloud architectures and specifically focuses on virtualization, thread programming, task programming, and map-reduce programming. There are examples demonstrating all of these and more, with exercises and labs throughout. Explains how to make design

choices and tradeoffs to consider when building applications to run in a virtual cloud environment Real-world case studies include scientific, business, and energy-efficiency considerations

Anchoring himself firmly on the ever-

contested space of Indian Law and Legal Processes, and drawing substantive support from his rich and varied experience as a Law Enforcement Officer in the Police Department of Tamil Nadu, India, the author, V. Sithannan in presenting this scholarly work, has sought to fulfill the legitimate requirements of Police Officers, Advocates, Judicial Officers, Social Activists, NGOs, Gender Activists and the general public. The Author's utopian ideal that no innocent person should be punished and no offender should go unpunished is the dominant message of the book. For this purpose, the Author has given a balanced treatment of the whole

problem of crime and its investigation. The book contains 27 Chapters and 4 Annexures. For example, the 1st Chapter deals with the origin, growth and development of Military and Police and the succeeding chapters elaborate the structure, powers and the duties of police, the conduct of investigation, the first information report, the jurisdictional limitations of police, dying declaration, inquest, search and seizure, examination of witnesses, arrest, interrogation, confession, bail, remand and custody, test identification parade, tender of pardon to approver, letter rogatory, extradition, burden of proof and

presumptions, Police diaries, final report, further investigation and maintenance of Police records. The comparative chart given to aid the Police Officers to conclude whether death is suicidal or homicidal or accidental in all forms of death that are encountered by the Police while conducting investigation will be of immense use with scientific accuracy. Another Chart provided indicating the procedural steps starting from the collection of evidence through the final analysis of the whole crime and its commission would surely empower the investigating officers with fool-proof methods of investigation. A most praise-worthy feature

of the book is its detailed discussion on the immature juveniles, who are in conflict with law and the crimes against children and women. The annexure to the book is of immense use as a ready-reckoner, especially annexure I and II by which a Police Officer may easily find whether a particular offence in any of the most frequently used special enactment is cognizable, bailable etc. The Author has fulfilled the needs of the investigating Officers in the epilogue by providing 47 points which may go against the prosecution, and therefore, has given 48 tips for the successful prosecution of a criminal case by a Police Officer. Again, in the spirit of an academic researcher,

the Author has given a catalogue of 724 Checklists in all the Chapters so that the readers would find the book highly informative to have a statutorily authorised answer to any doubt in a given situation in any of the investigative procedures. The citation of 785 landmark judgements of various High Courts and the Supreme Court for the period 1965-2008 in the appropriate chapters is another outstanding feature of the book, making it vade mecum for Police Officers, Advocates, Officers of Law and Courts and also for NGOs, Social Activists and Persons of Public Interest. *Police Investigation - Powers, Tactics and Techniques* Penguin Books India

An A to Z Catalog of Innovative Spices and Flavorings Designed to be a practical tool for the many diverse professionals who develop and market foods, the Handbook of Spices, Seasonings, and Flavorings combines technical information about spices—forms, varieties, properties, applications, and quality specifications — with information about trends, spice history, and the culture behind their cuisines. The book codifies the vast technical and culinary knowledge for the many professionals who develop and market foods. While many reference books on spices include alphabetized descriptions, the similarity between this

book and others ends there. More than just a list of spices, this book covers each spice’s varieties, forms, and the chemical components that typify its flavor and color. The author includes a description of spice properties, both chemical and sensory, and the culinary information that will aid in product development. She also explains how each spice is used around the world, lists the popular global spice blends that contain the spice, describes each spice’s folklore and traditional medicine usage, and provides translations of each spice’s name in global languages. New to this edition is coverage of spice labeling and a chapter on commercial seasoning formulas.

Going beyond the scope of most spice books, this reference describes ingredients found among the world's cuisines that are essential in providing flavors, textures, colors, and nutritional value to foods. It explores how these ingredients are commonly used with spices to create authentic or new flavors. The author has created a complete reference book that includes traditionally popular spices and flavorings as well as those that are emerging in the US to create authentic or fusion products. Designed to help you meet the challenges and demands of today's dynamic marketplace, this book is a complete guide to developing and

marketing successful products.

This book "Facets of Contemporary History" is a selection of research papers, presented in the International Conference on Contemporary History which was held on 30th and 31st January 2015. This conference was organized by the Department of History, Tourism and Travel Management, Ethiraj College for Women, Chennai. It gives us great pleasure to put together a selection of the papers for the public in the form of a book in the interest of research.

Contemporary History refers to the history of the immediate past or that which can be

expected to remain in living memory. While there are areas of history which have branched off from contemporary history such as social history and economic history this conference took a very broad look at contemporary events from not just a historical but also a social science perspective. This Book contains 6 Sections namely Political History, Socio-Cultural History, Gender, Economic History, Environment and Tourism. We would like to place on record the Management of the college for the moral and financial support extended in the conduct of the Conference and in the production of the book. Thanks are due to our respected Chairman of

the Trust Board, Mr. V.M.Muralidharan for all his support and encouragement. Heartfelt thanks are due to Prof.Dr.Karu. Nagarajan Member Secretary, TAMIL NADU STATE COUNCIL FOR HIGHER EDUCATION for their generous financial Assistance towards the conduct of the Conference. We would be failing in our duty if we do not thank the faculty of the Department of History, Tourism and Travel Management for their support and encouragement in the conduct of the Conference. *TOURISM IN TAMIL NADU* Jaypee Brothers Medical Publishers Written by top experts in the field Platelets play a critical role in the pathophysiology of acute coronary

syndromes (ACS) and thromboembolic complications associated with atrial fibrillation. Anticoagulant and antiplatelet therapies are central to the treatment of ACS and atrial fibrillation. Over the last several decades, a better understanding of the pathogenesis of coronary heart disease and atrial fibrillation has led to refinements in antithrombotic strategies and clinical outcomes. With this in mind, some of the issues outlined in this book are new insights in genetic testing and modification of individualized antiplatelet therapy based on rapid bedside platelet analyzers. Most importantly, the current update of pros and cons of novel

antiplatelet agents such as prasugrel and ticagrelor are provided in detail. Conventional antiplatelet strategies with aspirin and clopidogrel are also discussed. Special attention is devoted to experimental antiplatelet agents like PAR-1 thrombin receptor antagonists or aptamers. The ability to focus on different diseases beyond ACS, including heart failure and atrial fibrillation, distinguishes this publication. Each chapter was written by top experts in the field and scientists with the utmost authority and expertise to provide cardiologists, internists, and clinical pharmacologists with the latest updates. 'A glossary of colloquial Anglo-Indian words and phrases, and of kindred terms, etymological, historical, geographical and discursive.'

Hobson-Jobson is a unique work of maverick scholarship. Compiled in 1886 by two India enthusiasts, it documents the words and phrases that entered English from Arabic, Persian, Indian, and Chinese sources -

and vice versa. Described by Salman Rushdie as 'the legendary dictionary of British India' it shows how words of Indian origin were absorbed into the English language and records not only the vocabulary but the culture of the Raj. Illustrative quotations from a wide range of travel texts, histories, memoirs, and novels create a canon of English writing about India. The definitions frequently slip into anecdote, reminiscence, and digression, and they offer intriguing insights into Victorian attitudes to India and its people and customs. With its delight in language, etymology, and puns, *Hobson-Jobson* has fascinated generations of writers from Rudyard Kipling to Tom

Stoppard and Amitav Ghosh. This selected edition retains the range and idiosyncrasy of the original, and includes fascinating information on the glossary's creation and its significance for the English language.

This extensive reference volume presents the etymological history of thousands of English words. The story of how words come to be is the story of how humans think, and how we fashion our civilizations. Words can be the product of long and intertwining histories, migrations from other languages, or new coinages of science or slang. This diversity of origins is part of what gives the English language its beauty and power. In *Dictionary of Word Origins*, etymologist Joseph T. Shipley

provides a fascinating window into the evolution of modern English, from the onomatopoeic aspect of “abash” to the animalistic origins of “zodiac.”

1. Introduction, 2. Spiritual Heritage Tourist Centres in Tamil Nadu, 3. Cultural Heritage Tourist Centres in Tamil Nadu, 4. Natural Heritage Tourist Centres in Tamil Nadu, 5. Fairs, Festivals and Folk Entertainments in Tamil Nadu, 6. Tourism Plant Facilities in Tamil Nadu, 7. Conclusion and Suggestions. - PREFACE: “Tourism in Tamil Nadu - Growth and Development” is a captivating theme. Man has been fascinated by travel and tourism from the

earliest historical period. He always has had the urge to discover the unknown, to explore new and strange places, to seek changes of environment and to undergo new experiences. Travelling to achieve these ends is not new, but tourism is of a relatively modern origin. Tourism is distinguishable by its mass character from the travel undertaken in the past. This is largely a post-second world war phenomenon. Until recently only affluent people participated in tourism. Increased leisure, higher incomes and greatly enhanced mobility have combined to enable more people to participate in Tourism. Revolution in transport, technological progress

and the emergence of a middle class with time and money to spare for recreation, has led to the growth of tourism—"the modern holiday industry". Thus tourism is no longer the prerogative of a few but is an accepted part of life of a large number of people. India is one of the oldest civilizations with a kaleidoscopic variety and rich cultural heritage. For centuries India has been a centre of attraction for different people for different reasons. The ancient invaders viewed it as a goldmine with unlimited wealth to plunder; the learned were fascinated by its mystic spiritualism and profound philosophy; the uninitiated saw it as a land of naked

fakirs and snake charmers; while the others were simply charmed by the sheer beauty of its natural attractions and amazing variety of its flora and fauna.

Director, writer, and actor Jay

Chandrasekhar tells the hilarious stories behind his films Super Troopers and Super Troopers 2 (out on 4/20/2018!), the history of his comedy group, Broken Lizard, and everything in between. Jay Chandrasekhar has spent the past two decades writing, directing, and acting in film and TV. With his comedy group, Broken Lizard, he has produced and directed beloved movies such

as Super Troopers, Beerfest, and Club Dread. Now, with the upcoming release of the long-awaited Super Troopers 2, Jay is ready to tell the ridiculous, madcap, dead-honest story of how he built his career, how he formed Broken Lizard, and, ultimately, how he made Super Troopers. Jay grew up Indian American in the lily-white suburbs of Chicago, and he had an outsider's perspective from the beginning. Instead of taking the traditional acting path, he formed his own troupe, wrote his own scripts, and made movies his own way. And he had an incredibly good time doing so as readers will learn in this hilarious story about making it in Hollywood and directing, cowriting,

and costarring in one of the best-loved and most-watched comedies of all time. Part humorous memoir, part film study, this book will inform, entertain, and tell readers what drinking multiple bottles of maple syrup is really like.

Like to walk through one of the hathivanas (elephant forests) maintained by Mauryan king Chandragupta? Wish to be part of the royal dinner of a Mughal Emperor, with the palate containing a variety of forty meat dishes? Desirous of having a glimpse of the head on the shield and full-mount trophies of tigers and lions, decorating the halls and walls of the military lounges, lavish palaces and royal houses of the British Raj? Conservation Conundrum - Journey of India's wildlife

through ages is a pen-picture of the glory and good times, the trials and tribulations, persecution and perturbation of the country's wild animals in its recorded history. The author has captured the theme through a historian's kaleidoscope, where from a period of plenty in the ancient India, animal numbers plummeted to its lowest, when the country was into its first two decades of independence. From a situation of no-hope,

how most of the iconic wildlife species registered a turn around and smart recovery in a span of half a century, despite the odds working against them forms the central thread. The author takes the reader through the pages in finding an answer to the usual dilemma, as to whether it is human need and interest or the future of the wild denizens that is important to a developing nation like India.
