My philosophy towards life became the one as stated in this quote by Shyam: "If you wish to enjoy life as nectar and honey, make sure your banks and trousers have sufficient money." Life About an EMI is the story of a small-town boy Shyam who dwells in the heart of every middle-class Indian who has huge

aspirations from life and wants to lead the world through his intrinsic and inborn qualities - until at every step he is made to believe that life is not a bed of roses, but instead a struggle, and that you are here to earn your living and sacrifice the rest for family's nurturing. Shyam's childhood orientation paved the way for a life towards accumulations, possessions, social obligations and worldly emotions, until nature showered her grace upon him in the form of Radha. Radha entered his life as a fragrance of divine love and made him understand the importance of balance in life. She became a gift of God who blew him away with such an intensity of selfless love that her physical and metaphysical presence changed the course of his life. It was time for Shyam now to decide how to lead his life. Compulsively or consciously? Incompletely or absolutely? Desperately or willingly? Abruptly or profoundly? Was he willing to continue his life as an Equated Monthly Instalment? Or was he striving to live it with Each Minute Insight? What Shyam decided changed his life from an unconscious piece of life getting transformed in a radiant, vibrant & absolute conscious ray of light for humanity that became known to the world as Swami Shyam Charandasjee Maharaj.

At a time when communal antagonism was at its peak (1920s), Premchand was perceptive enough to fathom the cause for religious intolerance being rooted in mutual ignorance of communities about each other's faith. To alleviate this, he decided to write a play about Karbala, a 7th Century event in Islamic history, in which the grandson of Prophet Muhammad, Imam Hussain withstood the brute forces of the debauch ruler Yazid and sacrificed his life along with that of his companions and family members in the battlefield of Karbala, in modern day Iraq. In an unprecedented leap of faith, Premchand's play draws the Dutt brothers, descendants of Ashwathama, spending their exile years in Arabia, in the battlefield of Karbala. Inspired by the uprightness of the Imam and bound by their moral duty to justice, the seven brothers join forces with the Imam and sacrifice their lives for him, singing praises of their motherland Bharatwarsh. An illuminating blend of historical facts and imagination, this outstanding play reflects Premchand's profound and enlightening grasp of the communal conflict in early nineteenth century India and his unique way of imagining the nation along the Gandhian principles of communal harmony and co-existence of religions.

Before the 42 Laws of Maat and the 10 Maat Virtues, the ancient philosophers of Kamit (Egypt) relied upon a set of shamanic principles that taught how to work the Ra (the Spirit of God), called the Seven Codes of Maa. Similar to the 7 Universal Laws,

the 7 Codes of Maa allowed the Kamitic people to see science and magic as the same thing, and work them both. In this book you will learn how to discover your purpose in life, reconnect to your ancestral past, create sacred spaces, and foretell the future using ordinary objects found in nature in order to change your dreams into a reality.

"All I wanted was to be by her side in her journey, but she chose to walk the path alone." Tarun, a handsome and accomplished individual with commendable human values, finds himself captivated by Megha, an exceedingly ambitious young woman. However, after a span of six years, Tarun comes to the realization that he was unknowingly caught in a relationship that lacked commitment and shared expectations, commonly referred to as a "situationship". This revelation renders him emotionally fragile, ultimately leading him into a state of depression. "I was far from realizing my dream and struggled to keep my loved ones happy." Pallavi, a captivating and self-assured young woman, envisions the day she will establish her very own yoga studio. Filled with hope, she embarks on an arranged marriage with Girish, driven by his assurance to support her dream of opening the studio. However, after four years of wedded life, Girish went back on his promise, giving rise to a significant conflict between them. One night things went out of hand, and a fuming and disheartened Pallavi abandons her marital home in the dead of night. Can Tarun overcome his emotional pain and begin anew? Will Pallavi discover a supportive companion once more and accomplish her lifelong aspiration? *I Will Always Be by Your Side* is a poignant tale that delves into the intricate realm of emotions entwined

with shattered relationships and the true essence of finding one's soulmate. This fascinating narrative will captivate your heart, as you find yourself cheering for both protagonists in unison, drawn to the mesmerizing manner in which they harmonize with each other.

Heterogeneous Enantioselective Hydrogenation: Theory and Practice reviews the development of enantioselective hydrogenation reaction catalysts. It looks at the first relatively ineffective catalysts right through to modern highly effective enantioselective catalytic systems, comparable in their efficiency to chiral metal complexes and enzymatic systems. The book begins with a summary of the first work on heterogeneous metal catalysts, which showed only the principal possibilities of enantioselective reactions. It then elaborates on metal catalysts which have enantioselectivities close to 100%. Finally, the practical utilization of chiral catalytic systems in processes of hydrogenation is described. The alpha- and beta-hydroxy carboxylic acid esters produced are precursors for manufacturing many synthones used for medicines as well as for monomers used for biodegradable polyesters, both of which have important practical applications. The volume summarizes more than 800 scientific papers in the field of enantioselective catalytic hydrogenation reactions, mainly those using heterogeneous metal catalysts. It provides detailed explanations of special techniques for the preparation of effective dissymmetric catalysts which provide highly efficient catalytic systems.

Little India is a rich historical and ethnographic examination of a fascinating example of linguistic plurality on the island of Mauritius, where more than two-thirds of the population is of Indian ancestry. Patrick Eisenlohr's groundbreaking study focuses on the formation of diaspora as mediated through the cultural phenomenon of Indian ancestral languages—principally Hindi, which is used primarily in religious contexts. Eisenlohr emphasizes the variety of cultural practices that construct and transform boundaries in communities in diaspora and illustrates different modes of experiencing the temporal relationships between diaspora and homeland.
