Animals Flash Cards For Kids, Girls And Boys, With Some Coloring Activities, Make Your Kid Learn When Coloring, Only For Animals Flash Cards Lovers. I know very well how to deal with a child in your child's years, especially in learning, because I work as a professor This appears well in my book because I have moved from simple exercises to move step by step to what is more difficult This is what it termed Gradual learning. We have enabled the look-inside feature to make sure the content is very effective and appropriate for your child's age We don't have to start with the child. Any exercise, how difficult was it. This is unhealthy for your child Also, we must not forget the motivational pages that make the child more willing to continue, and this is what we have in the book We have also put in place space for the mother and father to write a note on the child's achievement. Our book is very effective because we have been working in this field for a long time Appropriate For girls and boys Advice: Do not put your son in the learning cage while he reviews a lesson This is a mistake, or you ask him to calm down and sit upright This is wrong The child always loves to learn while he is moving at the same time, so this is the nature of children. Do not compare your way of learning with that of your child This book is based on many different methods of learning that I have studied and applied with my students The result is always good.
