Passenger Cars Motorbooks

The officially licensed Corvette Stingray: The Mid-Engine Revolution chronicles the full development story behind Chevrolet's re-imagined sports car with an engaging, detailed text and photography from GM's archives and Corvette team members. Corvette is Chevrolet's iconic performance car. Its importance to the brand cannot be overstated. Thus each new generation is sweated by Chevy's designers, engineers, marketing staff, and executives to ensure that it sets the bar higher than the preceding version. With the eighth generation, Chevrolet has done more than raise the bar or move the goalpost—they've torn down the stadium and started from scratch. For the first time ever in a production version, the new Corvette features a mid-engine configuration. Though Corvette engineers have experimented with this engine placement over the past several decades, 2020 marks the first time GM has committed it to production cars. Corvette already had prodigious power on tap, but its front-engine configuration put some limitations on its handling and traction. The new mid-engine Corvette eliminates any final performance barriers and takes the battle to supercar rivals like Ferrari, Lamborghini, and McLaren. It's the story every Corvette fan needs to read.

Business Venezuela Chilton Book Company

"The Child's Play Polo, Ibiza & Fabia" explains, step by step, with a picture for each, how to do the service of your car. It is based on the certainty that everyone can do it, if clearly explicated and shown. Because it is very simple. This manual is suitable for these models, that must have an engine 1.4 TDI 51, 55 or 59 kw :VW : Polo (2001 - 2009), Fox (2005 - 2010) SEAT : Ibiza (2003 - 2008) ; Cordoba (2002 - 2009) SKODA : Fabia (2003 - 2010) ; Roomster

(2006 - 2010) It contains an accurate list of the tools you need, a detailed procedure to do your service, but also to check and replace your front brakes (pads and discs). You will see an example of the service book you should keep up to date, and the scheduled maintenance for all the tasks that have to be done to keep your car in the best conditions. The main goal is to save money. For each maintenance, it will cost you from 35€ to 50€ maximum, while it costs more than 200€ at your car dealer. You save at least 150€ per service. More than money, you save time here ! We assure you that after the first learning, you will not need more than 30 minutes! Better than go to the car dealer and wait for two hours. The Child's Play Maintenance manuals have the goal to allow anyone to do its car service himself. We think that your mechanic charge far too much for what it is, and we want you to avoid this useless expense. Each manual is specific to a single model (location of the parts are different, as the way to replace them)
