Edge of Darkness
Ballantine Books
The debut short-story collection from the acclaimed author of *The Chalk Man*, hailed as "Britain's female Stephen King" (Daily Mail), featuring eleven bone-chilling and mind-bending tales "All hail the queen of scream. *A Sliver of Darkness* is C. J. Tudor at her spine-tingling, nightmare-inducing best. Read it if you dare."—Chris Whitaker, *New York Times*

bestselling author of *We Begin at the End* Time slips. Doomsday scenarios. Killer butterflies. C. J. Tudor's novels are widely acclaimed for their dark, twisty suspense plots, but with *A Sliver of Darkness*, she pulls us even further into her dizzying imagination. In "The Lion at the Gate," a strange piece of graffiti leads to a terrifying encounter for four school friends. In "Final Course," the world has descended into darkness, but a group of old friends make time for one last dinner party. In "Runaway Blues," thwarted love, revenge, and something very nasty stowed in a hat box

converge. In "Gloria," a strange girl at a service station endears herself to a coldhearted killer, but can a leopard really change its spots? And in "I'm Not Ted," a case of mistaken identity has unforeseen fatal consequences. Riveting, macabre, and explosively original, *A Sliver of Darkness* is C. J. Tudor at her most wicked and uninhibited.

The Apocalypse Taken World

Seminar paper from the

year 2003 in the subject English Language and Literature Studies - Comparative Literature, grade: 1,7 (A-), University of Bayreuth (English Literature), course: Literature and Media Transformations, language: English, abstract: "When a great artist in one medium produces a work based on a masterpiece in the same or other medium, we can expect interesting results" (E. N. Dorall: Conrad and Coppola: Different Centres of Darkness). In his essay The Rethoric of Narrative in Fiction And Film, film critic Seymore Chatman observes that 'a lot of ink has been spilled in recent years on film adaptations of novels (...). Too much of the discussion has centred on questions of story content, with particular respect to 'fidelity', as if the source novel were some sacrosanct object whose letter as well as spirit the film had to follow.' He continues that this approach 'often leads to an unproductive prescriptivism that finds the film inadequate because it does not 'read' like the novel'. It seems that John Milius and Francis Ford Coppola who both wrote the screenplay

for the movie Apocalypse Now, had the same thoughts in mind when they decided to adapt Conrad's novel Heart of Darkness -as Milius stated himself - 'in some shape or form'. They certainly did not want to spill any ink and he also did not see the novel as a sacrosanct object. Apocalypse Now is not a conventional film adaptation of Conrad's novel since -at least at first glance- it does not pay particular respect to 'fidelity'; a Vietnam war movie does not seem to have much in common with a novel written in 1898 and dealing with colonialism. However, it is said that HD can be seen as the 'root' for AN, because 'a seventeen-year old John Milius heard his English reader, Irwin Blackter, extol the splendour of Conrad's novel Heart of Darkness". And if we take a closer look at the movie, the parallels to Conrad's novel become obvious. This essay will be divided into two major parts. The first one of will focus on the comparison of the plot and narrative structure of HD and AN. It will establish a general overview of the formal aspects of novel and film as well as of the

similarities of characters appearing in both HD and AN. Special attention will be paid to the symbolic value of the plot of the story- the metaphorical meaning of darkness- appearing in both Conrad's novel and Coppola's movie and the question of how and why the screenplay-writers of AN applied Conrad's ideas on their film adaptation. The second part will be with special focus on Coppola's film adaptation of Conrad's novel. The analysis of several scenes will pay special attention to details of techniques for visualisation and sound used by Coppola to depict the plot.

End of Darkness

Independently Published Michael O'Brien presents a thrilling apocalyptic novel about the condition of the Roman Catholic Church at the end of time. It explores the state of the modern world, and the strengths and weaknesses of the contemporary religious scene, by taking his central character, Father Elijah Schäfer, a Carmelite priest, on a secret mission for the Vatican which embroils him in a series of crises and subterfuges affecting the ultimate destiny of the Church. Father Elijah is a convert from Judaism, a survivor of the Holocaust, a man once powerful in Israel. For twenty years he has been "buried in the dark night of Carmel" on the mountain of the prophet Elijah. The Pope and the Cardinal Secretary of State call him out of obscurity and give him a task of the highest sensitivity: to penetrate into the inner circles of a

man whom they believe may be the Antichrist. Their purpose: to call the Man of Sin to repentance, and thus to postpone the great tribulation long enough to preach the Gospel to the whole world. In this richly textured tale, Father Elijah crosses Europe and the Middle East, moves through the echelons of world power, meets saints and sinners, presidents, judges, mystics, embattled Catholic journalists, faithful priests and a conspiracy of traitors within the very House of God. This is an apocalypse in the old literary sense, but one that was written in the light of Christian revelation.

The end of the world brings out the best and worst in all of us. In 1975, after his two Godfather epics, Francis Ford Coppola went to the Philippines to film *Apocalypse Now*. He scrapped much of the original script, a jingoistic narrative of U.S. Special Forces winning an unwinnable war. Harvey Keitel, originally cast in the lead role, was fired and replaced by Martin Sheen, who had a heart attack. An overweight Marlon Brando, paid a huge salary, did more philosophizing than acting. It rained almost every day and a hurricane wiped out the set. The Philippine government promised the use of helicopters but diverted them at the last minute to fight communist and Muslim separatists. Coppola filmed for four years with no ending in the script. The shoot threatened to be the biggest disaster in movie history. Providing a detailed snapshot of American cinema during the Vietnam War, this book tells the story of how *Apocalypse Now* became one of the great films of all time.
