Sometimes the magic inside us isn't meant to be discovered. . . . Orphan, exile, priest, Josan has been posted to a lighthouse on the farthest edge of the kingdom. As a member of the collegium, he once dreamed of making a real contribution to the Learned Brethren, but those dreams died after a mysterious fever shattered him, body and mind. At least that's the story he's been told to explain a past he can't remember. But that past has returned . . . with a vengeance. When Lady Ysobel Flordelis is shipwrecked on Josan's island, this sets in motion an explosive destiny. The Seddonian trade liaison is traveling to Ikaria on official business, but her secret purpose is to revive the revolution brutally crushed years before. Neither Ysobel nor Josan can foresee the significance of their brief meeting. But as Ysobel navigates the elaborate court intrigues in Ikaria, Josan will be forced to leave his island exile and embark on a treacherous journey to unlock the secrets that bind his past—an act that could lead him to glory . . . or doom.

Writing in the Social Studies is a practical guide for educators. On each page are strategies, tips, and takeaways for teachers to implement in their classroom, while every chapter concludes with helpful handouts to distribute directly to students. Beginning with a framework and pacing guide, Writing in the Social Studies examines foundational, academic, and real-world writing, concluding with a methodology for grading and a spirited plea for teachers to write themselves. Teachers who believe in teaching "skills through content" finally have a blueprint from which to

work. Those who understand it is imperative students graduate with the ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.

John Steinbeck and the Great Depression National Academies Press

Personal recollections recreate experiences of two Dust Bowl communities.

*The Worst Hard Time* New York : Oxford University Press

Presents comprehensive, up-to-date information on weather and climate basics, weather conditions and phenomena, natural disasters, forecasting, and human influences on weather and climate.

The Children's Blizzard Simon and Schuster

This is the story of Lawrence Svobida, a Kansas wheat farmer who fought searing drought, wind, erosion, and economic hard times in the Dust Bowl. It is a vivid account by a farmer who pitted his physical strength, mental faculties, and financial resources against the environment as nature wreaked havoc across the southern Great Plains. Svobida's description of Dust Bowl agriculture is important not only because it accurately describes farming in that region but also because it is one of the few first-hand accounts that remain of the frightening and still haunting dust-laden decade of the 1930's.

*History of the Persian Empire* University of Chicago Press

Collection of remembrances by those who knew Cesar Chavez best the famous, members of the Chavez family, UFW staff and farmworkers themselves.

*The Dust Bowl* Courier Corporation

Whether admired or reviled, Lyndon B. Johnson and his tumultuous administration embodied the principles and contradictions of his era. Taking advantage of newly released evidence, this second edition incorporates a selection of fresh documents, including transcripts of Johnson's phone conversations and conservative reactions to his leadership, to examine the issues and controversies that grew out of Johnson's presidency and have renewed importance today. The voices of Johnson, his aides, his opponents, and his interpreters address the topics of affirmative action, the United States' role in world affairs, civil rights, Vietnam, the Great Society, and the fate of liberal reform. Additional photographs of Johnson in action complement Bruce J. Schulman's rich biographical narrative, and a chronology, an updated bibliographical essay, and new questions for consideration provide pedagogical support.

*Writing in the Social Studies* Pickle Partners Publishing

This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

**Fabric of a Nation** Oxford University Press

The Great Depression and the New Deal. For generations, the collective American consciousness has believed that the former ruined the country and the latter saved it. Endless praise has

been heaped upon President Franklin Delano Roosevelt for masterfully reining in the Depression's destructive effects and propping up the country on his New Deal platform. In fact, FDR has achieved mythical status in American history and is considered to be, along with Washington, Jefferson, and Lincoln, one of the greatest presidents of all time. But would the Great Depression have been so catastrophic had the New Deal never been implemented? In *FDR's Folly*, historian Jim Powell argues that it was in fact the New Deal itself, with its shortsighted programs, that deepened the Great Depression, swelled the federal government, and prevented the country from turning around quickly. You'll discover in alarming detail how FDR's federal programs hurt America more than helped it, with effects we still feel today, including:

- How Social Security actually increased unemployment
- How higher taxes undermined good businesses
- How new labor laws threw people out of work
- And much more

This groundbreaking book pulls back the shroud of awe and the cloak of time enveloping FDR to prove convincingly how flawed his economic policies actually were, despite his good intentions and the astounding intellect of his circle of advisers. In today's turbulent domestic and global environment, eerily similar to that of the 1930s, it's more important than ever before to uncover and understand the truth of our history, lest we be doomed to repeat it.

*U-X-L Encyclopedia of Weather and Natural Disasters* National Geographic Books

The first interdisciplinary reference to cover the socioeconomic and political history, the movements, and the changing face of poverty in the United States. *Poverty in the United States: An Encyclopedia of History, Politics, and Policy* follows the history of poverty in the United States with an emphasis on the 20th century, and examines the evolution of public policy and the impact of critical movements in social welfare such as the New Deal, the War on Poverty, and, more recently, the "end of welfare as we know it." Encompassing the contributions of hundreds of experts, including historians, sociologists, and political scientists, this resource provides a much broader level of information than previous, highly selective works. With approximately 300 alphabetically-organized topics, it covers topics and issues ranging from affirmative action to the Bracero Program, the Great Depression, and living wage campaigns to domestic abuse and

unemployment. Other entries describe and analyze the definitions and explanations of poverty, the relationship of the welfare state to poverty, and the political responses by the poor, middle-class professionals, and the policy elite.

**London Naval Conference** Vintage

Preached at Enfield, Connecticut on July 8, 1741, this is perhaps the greatest sermon ever preached in America—and is certainly among the most well known. Owing to its forthright dealing with God's wrath and His intense hatred of sin and the sinner, it is also one of the most controversial. Indeed, for more than three-quarters of the sermon Edwards lays down a relentless stream of the most vivid and horrifying descriptions of the danger facing unregenerate men. While it is difficult to read such graphic language, there is abundant hope in the sermon's conclusion. Edwards puts it this way, "And now you have an extraordinary opportunity, a day wherein Christ has thrown the door of mercy wide open and stands calling and crying with a loud voice to poor sinners." While those who would rather ignore God's justice in favor of His mercy condemn Edwards and his sermon, those who were present and actually heard him preach that day reacted in a decidedly different manner. According to the diary of Reverend Stephen Williams who attended the sermon, "Before the sermon was done there was a great moaning and crying through the whole House, 'what shall I do to be saved; oh, I am going to hell, etc.'" The diary goes on to indicate that Edwards had to interrupt his sermon and come down to minister to those who were under such awful conviction. And so, in spite of what the scoffers might think or say, "the amazing and astonishing power of God" was manifested among the people that day—with many falling not into the hands of an angry God, but into the arms of a mighty Savior.

**Among the Hidden** Bloomsbury Publishing USA

A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving,

sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

**What Does Justice Look Like?** Cornell University Press

Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. "The fullest and most reliable presentation of the history of the Persian Empire in existence."—M. Rostovtzeff

**Dust Bowl** Rowman & Littlefield Publishers

This book condemns slavery, by appealed to whites' rational self-interest, rather than any altruism towards blacks. Helper claimed that slavery hurt the Southern economy by preventing economic development and industrialization, and that it was the main reason why the South had progressed so much less than the North since the late 18th century.

*The Big Thirst* Cavendish Square Publishing, LLC

Gregory reaches into the migrants' lives to reveal both their economic trials and their impact on California's culture and society. He traces the development of an 'Okie subculture' which is now an essential element of California's cultural landscape.

*Daily Life in the United States, 1920-1940* Crown

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects

for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

#### **Logical Reasoning** Bradley Dowden

In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

*American Airpower Comes Of Age—General Henry H. “Hap” Arnold’s World War II Diaries Vol. II [Illustrated Edition]* UXL Includes the Aerial Warfare In Europe During World War II illustrations pack with over 180 maps, plans, and photos. Gen Henry H. “Hap.” Arnold, US Army Air Forces (AAF) Chief of Staff during World War II, maintained diaries for his several journeys to various meetings and conferences throughout the conflict. Volume 1 introduces Hap Arnold, the setting for five of his journeys, the diaries he kept, and evaluations of those journeys and their consequences. General Arnold’s travels brought him into strategy meetings and personal conversations with virtually all leaders of Allied forces as well as many AAF troops around the world. He recorded his impressions, feelings, and expectations in his diaries. Maj Gen John W. Huston, USAF, retired, has captured the essence of Henry H. Hap Arnold—the man, the officer, the AAF chief, and his mission. Volume 2 encompasses General Arnold’s final seven journeys and the diaries he kept therein.

#### **Round-Trip to America** Taylor Trade Publications

The US was in the midst of the Depression when Dorothea Lange (1895-1965) began documenting its impact through depictions of unemployed men on the streets of San Francisco. Her success won the attention of Roosevelt's Resettlement Administration (later the Farm Security Administration), and in 1935 she started photographing the rural poor under its auspices. One day in Nipomo, California, Lange recalled, she "saw and approached [a]

hungry and desperate mother, as if drawn by a magnet." The woman's name was Florence Owens Thompson, and the result of their encounter was seven exposures, including Migrant Mother. Curator Sarah Meister's essay provides a fresh context for this iconic work.

#### The Whiskey Rebellion Oxford University Press

SHORT-LISTED FOR THE MAN BOOKER PRIZE A Christian Science Monitor Best Book of the Year On the morning after harvest, the inhabitants of a remote English village awaken looking forward to a hard-earned day of rest and feasting at their landowner's table. But the sky is marred by two conspicuous columns of smoke, replacing pleasurable anticipation with alarm and suspicion. One smoke column is the result of an overnight fire that has damaged the master's outbuildings. The second column rises from the wooded edge of the village, sent up by newcomers to announce their presence. In the minds of the wary villagers a mere coincidence of events appears to be unlikely, with violent confrontation looming as the unavoidable outcome. Meanwhile, another newcomer has recently been spotted taking careful notes and making drawings of the land. It is his presence more than any other that will threaten the village's entire way of life. In effortless and tender prose, Jim Crace details the unraveling of a pastoral idyll in the wake of economic progress. His tale is timeless and unsettling, framed by a beautifully evoked world that will linger in your memory long after you finish reading.
