DU MILLENIUM A L'APOCALYPSE Cherche Midi

La télévision se doit de rassembler le maximum de public. Sa puissance économique et son pouvoir politique sont à ce prix. Pour les chaînes, dès lors, tous les moyens sont bons pour attirer et conserver les téléspectateurs. Comment en est-on arrivé là ? Comment cette obsession de plaire au plus grand nombre se reflète-t-elle dans chacun des programmes diffusés ? Où va la télévision et que sera-t-elle demain ? C'est à toutes ces questions que Xavier Couture, acteur incontournable du PAF, répond dans *La Dictature de l'émotion*. Son expérience unique - il a travaillé pour les grandes chaînes de télévision avant de rejoindre une des plus importantes sociétés de production françaises - lui permet de décrypter les rouages de tous les programmes. Information, sport, fiction, divertissement, télé-réalité, tout est passé au crible de son analyse. Le constat est saisissant. Pour plaire, une seule règle : la constante identification au public et la dictature de l'émotion. Riche de nombreuses anecdotes, ce livre est un document essentiel pour comprendre le fonctionnement et les coulisses de la télévision.

L'Union Européenne, Acteur de la Sécurité Mondiale Taylor & Francis

Graeco-Roman literary works, historiography, and even the reporting of rumours were couched as if they came in response to an insatiable desire by ordinary citizens to know everything about the lives of their leaders, and to hold them to account, at some level, for their abuse of constitutional powers for personal ends. Ancient writers were equally fascinated with how these same individuals used deceit as a powerful tool to disguise private and

public reality. The chapters in this collection examine the themes of despotism and deceit from both historical and literary perspectives, over a range of historical periods including classical Athens, the Hellenistic kingdoms, late republican and early imperial Rome, late antiquity, and Byzantium.

Cet ouvrage envisage l'état de nécessité sous une nouvelle perspective, en analysant sa fonction de limitation des obligations internationales. L'analyse de la pratique démontre qu'il permet d'éviter que la stricte observation du droit ne produise un coût social excessif dans des situations difficiles. This book analyses state of necessity through a new perspective: its function of limitation of international obligations. State practice shows that this mechanism is meant to avoid an excessive social cost, born out of a strict compliance with the law in a hard case.

This volume is the sixth in the Series The Judges, which collects and synthesizes the opinions of leading international Judges of the contemporary era who have contributed significantly to the progressive development of international law. The current volume contains a selection of the Individual Opinions of Judge Antônio A. Cançado Trindade, former Judge and President of the Inter-American Court of Human Rights, and since 2008 a Judge of the International Court of Justice. Two volume set.

The Canadian Distinctiveness into the XXIst Century - La distinction canadienne au tournant du XXIe siècle Springer

Besides their insistence on praxis and the application of the Word of God to a given situation, Liberation Theologies make ample use of tools of analysis to uncover root causes of oppression. Now, it is precisely with respect to these tools that Liberation Theologies today find themselves on shifting grounds. In intra-ecclesiastical circles cultural concerns have come to replace socio-economic analysis, whereas after the implosion of the East Bloc the liberationists proper also pay more attention to the issues of gender, ecology, and indigenous movements. The contributions to this volume, originating from various continents, discuss to what

extent this shift in emphasis is desirable, and acceptable, and conclude that the cultural focus cannot possibly invalidate but only enrich and complete the socio-economic analysis. They, moreover, try to assess the developments in light of globalization (economics, informatics), on the one hand, and postmodernity on the other. Given the impact of western culture politics, the question arises as to whether the native cultures will succeed in keeping up their religious core values and structures of solidarity - two elements so indispensable for liberative commitments.

Pax International Hotei Publishing

In this collection of essays some of Canada's foremost writers and thinkers, including John Ralston Saul and Margaret Atwood, call for equilibrium among economics, culture, and technological change. While promoting the dynamism and change possible in Canadian society, they also call for a re-examination of Canada's past in order to chart its future.

The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. The work of the Hague Academy receives the support and recognition of the UN. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the "Collected Courses of the Hague Academy of International Law".

La nécessité en droit international BRILL

This volume explores how reproduction and reproducibility impact artistic and literary creation while also examining the ways in which reproducibility impacts our practices and disciplines. Ce volume explore l'impact de la reproduction et de la reproductibilité sur la création artistique et littéraire, mais aussi l'impact de la reproductibilité sur nos pratiques et sur nos disciplines.

Liberation Theologies on Shifting Grounds AuthorHouse

Gare à la dictature du Bien... Une menace nouvelle plane aujourd'hui sur notre société : celle venant d'individus qui, rêvant d'une société plus juste, appellent à la censure " pour le bien de

tous ". Cette forme inédite d'autoritarisme prône ainsi la mise au ban ou l'interdiction pure et simple des idées qu'elle ne partage pas, et perçoit le langage même comme un danger potentiel qu'il est nécessaire de corriger. Les bonnes intentions flirtent ainsi dangereusement avec le totalitarisme : cancel culture, complaisance des médias, limitation du discours public par les géants de la Silicon Valley, législation d'État sur les discours " haineux ", etc. Une dictature du " Bien " reste une dictature. Qui aurait pensé, il y a quelques années seulement, que défendre la liberté d'expression, seul rempart efficace contre la tyrannie, suffirait à se faire qualifier de réactionnaire ? Nous en sommes pourtant là. En ce temps de refus du débat et de bannissement des opinions " contestables ", Andrew Doyle nous livre une analyse d'une incroyable pertinence sur ce phénomène nouveau et terrifiant.

F.D. Roosevelt, Ou NED Ediciones

Volume 1: Theories, Methods and Ideas explores the mobility of ideas through time and space and how interdisciplinary theories and methodological approaches used in mobilities studies can be profitably utilised within the humanities and social sciences.

Through a series of short chapters, mobility is employed as an elastic, inclusive and multifaceted concept across various disciplines to shed light on a geographically and chronologically broad range of issues and case studies. In doing so, the concept of mobility is positioned as a powerful catalyst for historical change and as a fruitful approach to research in the humanities and social sciences. Like its sister volume, this volume is edited and written by members of the Centre for Advanced Studies in Mobility and the Humanities (MoHu) at the Department of Historical and Geographical Sciences and The Ancient World (DiSSGeA) of the University of Padua, Italy. The structure of the book mirrors the Theories and Methods, and Ideas thematic research clusters of the Centre. Afterwords from leading scholars from other institutions synthesise and reflect upon the findings of each section. This volume, together with Volume 2: Objects, People and Texts, makes a compelling case for the use of mobility studies as a research framework in the humanities and social sciences. As such, it will be of interest to students and researchers in various disciplines.

La dictature de l'émotion BRILL

La Tierra está en estado crítico. La propiedad domina nuestro

tiempo y también aumenta la desigualdad entre las sociedades del mundo. La Tierra no es solo la tierra, sino que también y fundamentalmente es el mundo habitable; pero está siendo continuamente destruida, el hombre la destruye. Es urgente pensar en ello y si la humanidad desea permanecer libre pensar en qué va a transmitir a las generaciones futuras. Mucho se ha dicho y escrito sobre otros desarrollos posibles, pero carecía de un principio que pudiera explicar el sentido filosófico de la vuelta que debemos tomar. Este es el tema de este libro, que tiene la intención de repensar el concepto de inapropiabilidad, nuestro ser en su relación con los demás, para la humanidad y el mundo de los vivos. Esta reforma tiene tres pilares (cosmopolitas, políticos y éticos) y viene a revisitar nuestra forma de vivir y actuar, individual y colectivamente. En última estancia, debemos superar el nihilismo contemporáneo y restaurar la esperanza en el futuro que no esté obsesionado con el fantasma del desastre.

Idée générale de la Révolution au dix-neuvième siècle
Louis Audibert Editions

Comme l'indique le titre, Le mythe du sale boche, les Allemands ne sont pas les ultimes vilains de l'histoire. Ils ne sont pas non plus, comme le veut la version officielle, les saboteurs de la paix européenne et la cause des deux Guerres mondiales du siècle dernier. Les atrocités qu'ils auraient soi-disant perpétrées durant ces conflits armés furent inventées de toute pièce par la propagande alliée afin d'obtenir l'appui de l'opinion publique. La propagande de la Shoah, qui est apparue après la Seconde Guerre mondiale, a par ailleurs grandement contribué à consolider cette haine du sale boche. Mais cette version officielle de l'histoire est-elle véridique ? L'Allemagne est-elle réellement l'incarnation du mal absolu ? Dans ce livre, l'auteur brosse un tableau différent. Il explique en effet que l'Allemagne n'était la cause ni de la Première ni de la Seconde Guerre mondiale, mais dans les deux cas, la victime de l'agression des alliés. L'instabilité engendrée par la guerre 14-18 a permis la révolution bolchevique russe de 1917 à déclater, ce qui a apporté au monde le communisme. Or, Hitler et l'Allemagne ont tout de suite compris que le communisme international, de sa base en Union soviétique, était une menace existentielle non seulement pour l'Occident, mais pour toute la civilisation chrétienne. L'Allemagne hitlérienne a dès lors amorcé une lutte mortelle contre cette idéologie sanguinaire. Loin d'être le saboteur de la paix européenne, l'Allemagne, en s'érigeant en rempart, a donc empêché la révolution

bolchvique de stendre toute l'Europe. Il est dommage que les allis n'aient pas vu la Russie communiste sous le mme jour que l'Allemagne. Cette alliance entre les pays occidentaux et le communisme a eu des consequences dsastreuses sur la civilisation occidentale chrtienne. L'auteur se dit convaincu que la France, la Grande-Bretagne et les tats-Unis se sont battus du mauvais ct.

Les classes sociales sous l'imprialisme Martinus Nijhoff Publishers

Contemporary theatre is one of the best ways for ethno-cultural minorities to express themselves, whether they be of indigenous origin or immigrants. It is often used to denounce social injustice and discrimination and, more generally, it helps to air questions debated in the wider community. It may also express itself thanks to the staging of collective memory, for it constitutes a privileged space for the exploration of the trauma of the past (colonial, for example), as well as providing a means of effecting the reconfiguration of a new identity, or of articulating an uneasiness about that identity. Should minority theatre increase its visibility in relation to the mainstream, or, on the contrary, remain on the margins and assert its specificity? This question is at the centre of French-Canadian experience, for example, but also applies to other postcolonial societies, in Europe and elsewhere. In order to maintain its cultural authenticity, should this type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation? If it is unable to resist the model proposed by globalization and widespread cultural dissemination, will it lose its legitimacy? Can, and should there be, a form of popular art at the service of the community? The term "minority" raises questions that will be examined by the articles collected in this volume. What is the definition of a minority? Does this term refer to experimental and avant-garde art forms as well as to ethno-cultural drama? Contemporary theatre is characterized by an aesthetics of hybridity—in what measure is this the case for theatre outside the mainstream? The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se. Since the development of the electronic media as the privileged vector of culture, has not the theatrical genre itself

become a minority art form? These are some of the pressing questions that this volume will try to address, thanks to a cross-cultural, multidisciplinary approach that aims to reveal the rich diversity of the field under study.

Free Speech BRILL

Recientemente, muchos observadores de políticas y prácticas de cohesión social han discutido que la globalización ha promovido la convergencia global hacia modelos neo-liberales en este campo. Similarmente, estudiosos y practicacionarios de la política regional han contenido que las políticas sociales de Europa representan las "mejores prácticas" a nivel global y por ello han sido promovidas en otras regiones del mundo (por ejemplo en las recientes cumbres UE-Latinoamérica sobre cohesión social), lo que lleva también a la convergencia en la elaboración de la política. Este libro cuestiona estas afirmaciones y se pregunta si distintos enfoques regionales a la cohesión social son todavía pertinentes. El análisis trans-regional comparativo presentado en este volumen está basado en el examen de la competencia entre actores (poder), el papel de la historia y tradiciones sociales (tiempo) y la importancia de límites geográficos a la cohesión social (espacio).

Recueil Des Cours, Collected Courses 1963 Lulu.com

This third volume in a much praised series on The French Revolution and the Creation of Modern Political Culture examines the way in which the Revolution has been portrayed in European thought and its impact upon the development of political philosophy in the nineteenth century. Opening with the influence of Burke and other contemporaries of the Revolution and the ensuing debate over the question "Why the Terror?", this volume explores such diverse themes as the legacy of the Revolution on the political and social evolution of Germany, England, Italy and Russia; the crisis it brought about in the Catholic Church; and the difficulties encountered in determining the end of the Revolution. By showing that the upheaval in European politics and philosophy caused by the French Revolution continued to shape nations, peoples and thought, the texts brought together in this volume

permit a better understanding of the event's extraordinary complexity.

Les Préliminaires de la Guerre de la Succession D'Autriche Рипол Классик

The five elements - governmental authorities, public discourse, corporate and market interests, citizens' associations and international agencies - may help in figuring out the complex and challenging purpose of the research work presented in this volume which is nothing less than the history of the governance of cultural and natural heritage in eleven countries, from its outset to the present. Speaking about governance is challenging. The term has been vastly used and misused. But today, when the feverish popularity of the concept is probably in decline, we rest with one solid conviction at least: that social, economic, cultural and institutional processes are governed not only through government (be it national or local) with its legislative, administrative and jurisdictional mechanisms, but through a larger array of different actors and factors. These include schools and universities, citizens' associations, public opinion, economic corporations, non-governmental organizations, learned societies, unions, media, international agencies, clubs, consultants etc. In fact, the reader is going to meet quite a few of these actors in this publication; they are the unavoidable characters involved in the story the authors have set out to tell.
