Dans la plupart des sociétés, l'oeil et la vision sont une des principales références sur lesquelles s'appuie la connaissance: VOIR rime avec SA-VOIR dans de nombreux systèmes de pensée. Et pourtant, derrière ce terme général de vision ne se cache pas toujours le même concept, le paradigme visuel ne traduisant pas les mêmes notions dans les différentes civilisations. C'est pourquoi une étude plus approfondie s'impose. Il semble intéressant de commencer par l'étude de la vision chez les Grecs. Ce travail scrute la mythologie et la théogonie à travers les textes d'Homère et d'Hésiode à la recherche d'indices permettant de cerner les grands traits du concept visuel grec. Les résultats obtenus sont assez surprenants et d'une grande actualité.

Septembre 3856 : un système de galeries jusque-là ignorées vient d'être repéré sous la pyramide de Chéops. Informé, le mutant Boyt Margor s'introduit dans l'hypogée tout juste rendue accessible et y dérobe un objet mystérieux qu'il parvient à ouvrir. L'artéfact conservé à l'intérieur évoque un oeil à facettes à structure cristalline rappelant celle d'un diamant. Y plongeant le regard, Margor prend conscience de voir dans l'hyperespace, dans le passé, et sur d'autres mondes. Mais l'objet

émet des rayonnements très dangereux qui ne cessent de renforcer la puissance psionique du mutant. Poursuivant néanmoins sa contemplation, il découvre comment le pharaon Chéops, ayant reçu en cadeau l'Oeil des Dieux, fut amené à faire édifier le Sphinx et la Grande Pyramide afin d'honorer les divinités et de protéger l'objet sacré. Pendant ce temps, les Loowers toujours à l'écoute des impulsions émises par l'Artéfact rassemblent une flotte spatiale à destination du Système Solaire. Devant cette menace d'ampleur extrême, les Terraniens choisissent d'offrir leur aide aux envahisseurs et leur permettent de s'installer sur certaines planètes de Sol. Hélas, ils ne peuvent restituer l'Artéfact au Peuple des Ruines, étant donné que Boyt Margor s'en est emparé et a disparu...

As a genre situated at the crossroad of rhetoric and fiction, declamatio offers the freedom to experiment with new forms of discourse. Placing the literariness of (Ps)Quintilian’s oeuvre into the spotlight, this volume showcases declamation as a realm of genuine literary creation with its own theoretical underpinning, literary technique and generic conventions. It is of interest to students and scholars of rhetoric and Roman Literature.

Part One covers the major theoretical issues in the study of Coptic pilgrimage, such as sacred landscape and shrines' catchment areas, while Part Two examines native Egyptian and Egyptian Jewish pilgrimage practices. Part Three investigates six major shrines, from Philae's diverse non-Christian devotees to the great pilgrim center of Abu Mina and a Thecla shrine on its route. Part Four looks at such diverse pilgrims' rites as oracles, chant, and stational liturgy, while Part Five brings in Athanasius's and an anonymous hagiographer's perspectives on pilgrimage in Egypt. The volume includes illustrations of the Abu Mina site, pilgrims' ampules from the Thecla shrine, as well as several maps.

Dans La Splendeur des dieux, Gaëlle Tallet aborde la question de la transformation des divinités égyptiennes à l’époque gréco-romaine et de l’hellénisation de leur iconographie en interrogeant les enjeux de l’élaboration d’un hellénisme proprement égyptien, et les stratégies qu’il recouvre. In La Splendeur des dieux, Gaëlle Tallet provides a full reappraisal of the transformation of Egyptian deities and of their Hellenized depiction in Graeco-Roman times, and questions the issues and strategies at stake behind the elaboration of an Egyptian Hellenicity.

A Check List of the Literature and Other Material in the Library of Congress on the European War Theetete

The age-old tradition of pictorial illusionism known as trompe l’oeil (“deceive the eye”) employs visual tricks that confound the viewer’s perception of reality and fiction, truth and falsehood. This radically new take on Cubism shows how Pablo Picasso, Georges Braque, and Juan Gris both

parodied and paid homage to classic trompe l’oeil themes and motifs. The authors connect Cubist works to trompe l’oeil specialists of earlier centuries by juxtaposing more than one hundred Cubist paintings, drawings, and collages with related compositions by old masters. The informed and engaging texts trace the changing status of trompe l’oeil over the centuries, reveal Braque’s training in artisanal trompe l’oeil techniques as an integral part of his Cubist practice, examine the material used in Gris’s collages, and discuss the previously unstudied trompe l’oeil iconography within Cubist still lifes.

Theodore de Banville (1823-1891) was a prolific poet, dramatist, critic and prose fiction writer whose significant contribution to poetic and aesthetic debates in nineteenth-century France has long been overlooked. Despite his profound influence on major writers such as Baudelaire, Rimbaud, Verlaine and Mallarme, Banville polarised critical opinion throughout his fifty-year career. While supporters championed him as a virtuoso of French verse, many critics dismissed his formal pyrotechnics, effervescent rhythms and extravagant rhymes as mere clowning. This book explores how Banville's remarkably coherent body of verse theory and practice, full of provocative energy and mischievous humour, shaped debates about poetic value and how to identify it during a period of aesthetic uncertainty caused by diverse social, economic, political and artistic factors. It features a detailed new reading of Banville's most infamous and misunderstood text, the Petit Traitede poesie francaise, as well as extended analyses of verse collections such as Les Stalactites, Odes funambulesques, Les Exiles, Trente-six Ballades and Rondels, illuminated by wide reference to Banville's plays, fiction and journalism. Evans elucidates not only aesthetic tensions at the heart of nineteenth-century French verse, but also a centuries-old tension between verse mechanisms and an unquantifiable, mysterious and elusive poeticity which emerges as one of the defining narratives of poetic value from the Middle Ages, via the Grands Rhétoriqueurs and Dada, to the experiments of the OuLiPo and beyond.

Ils ont entre neuf et quatorze ans et sont divisés en bandes rivales : les Loups, les Ours et les Crazes. Ils sont vingt-neuf exactement, et vivent depuis toujours dans la Bulle, un lieu étrange et hermétiquement clos qui leur dispense nourriture et énergie. Depuis que les robots qui s'occupaient d'eux se sont immobilisés à jamais, ils passent leur temps à se faire la guerre, sous la conduite de Mina et Jeff. Mais un jour, les distributeurs de nourriture s'arrêtent de fonctionner et la Bulle protectrice se métamorphose en un piège mortel.

Salonica, located in northern Greece, was long a fascinating crossroads metropolis of different religions and ethnicities, where Egyptian merchants, Spanish Jews, Orthodox Greeks, Sufi dervishes, and Albanian brigands all rubbed shoulders. Tensions sometimes flared, but tolerance largely prevailed until the twentieth century when the Greek army marched in, Muslims were forced out, and the Nazis deported and killed the Jews. As the acclaimed historian Mark Mazower follows the city’s inhabitants through plague, invasion, famine, and the disastrous twentieth century, he resurrects a fascinating and vanished world.
