## LORELAI VAUGHAN

*Haralambos and Holborn Sociology* Causeway Press

Sociology provides an introduction to its field. The fourth edition preserves the lucid, lively and comprehensive qualities which marked the book in its earlier versions. Numerous student learning aids are provided.

*Introducing Sociology for AS Level* Pearson Education India

Ideal as a companion for any course at AS and A2, this bite-sized textbook will help students access, understand and revise for their exams.

*AQA A Level Sociology Themes and Perspectives: Year 2*

(*Haralambos and Holborn AQA A Level Sociology*) Pearson Higher Education AU

This revised set of resources for Cambridge International AS and A Level Sociology syllabus (9699) is thoroughly updated for the latest syllabus. Written by a highly experienced author, the Coursebook provides comprehensive support for the syllabus.

Accessible language combined with the clear, visually-engaging layout makes this an ideal resource for the course. Discussion of significant sociological research, case studies, explanation of key terms and questions within the text reinforce knowledge.

Stimulating activities build interpretation and application as well as analytical and evaluation skills. Revision checklists help in consolidating understanding. The book provides complete exam support with each chapter culminating in exam-style questions and a further chapter dedicated to revision, and examination skills and practice. A Teacher's CD-ROM is also available.

**AQA A Level Sociology Student Book 1 (Collins AQA A Level Sociology)** Yale University Press

SociologyThemes and PerspectivesCollins Educational

*Themes and Perspectives : Activity Pack : Accompanies the Sixth Edition* Polity

Perspectives in Sociology provides students with a lively and critical introduction to sociology and to the ways in which sociologists are trained to think and work. The subject is presented as a sequence of different perspectives on the social world, all of them interrelated, sometimes in conflict with one another, and all contributing important and necessary insights. The discussion is backed up by extensive reference to empirical studies. This edition has been completely revised. A chapter on critical theory has been added in order to reflect the extensive work and thinking that Marx's basic work continues to stimulate. The chapter on research strategies now takes account of new developments in the philosophy of science that are relevant for sociological approaches. Throughout, the authors have rewritten extensively in their continuing desire to produce clarity, and to respond to the comments of students and teachers.

*Themes and Perspectives : AS- and A-level Student Handbook* Unwin Hyman

Building upon the success of previous editions, this fully revised edition of Sociology lays the foundations for understanding sociology in Australia. The depth and breadth of the book ensures its value not only for first-year students, but for sociology majors requiring on-going reference to a range of theoretical perspectives and current debates. This fifth Australian edition continues to build on the book's reputation for coverage, clarity and content, drawing upon the work of leading Australian sociologists as well as engaging with global social trends and sociological developments.

*Sociology Themes and Perspectives* Radcliffe Publishing

This fully revised and updated version of Anthony Giddens's Sociology, now in its fifth edition, offers an unrivalled introduction for students new to the subject - lucid, lively, authoritative and original. Written by one of the world's leading sociologists, this comprehensive textbook manages to be clear, accessible and jargon-free, but without oversimplifying complex debates. Earlier editions of Sociology broke new ground by incorporating cutting-edge debates, such as the impact of globalisation, into an introductory text. This fifth edition remains a state of the art textbook, with fresh and engaging new material added throughout. While covering all of the core topics of sociology, the fifth edition also includes a great deal of substantive new material, ensuring that students are introduced to the most recent sociological debates. Throughout, the book weaves together classical and contemporary theory and data, and provides a wide range of everyday examples to which students

can easily relate. The fifth edition also benefits from: \* New discussions of global inequality, disability, ageing and the life course, risk, the network society, and terrorism, as well as many other additional and up-to-date topics. \* Numerous learning aids in every chapter, such as summary points, questions for further thought, and additional reading suggestions, which help to reinforce students' knowledge. \* Lots of extra photographs, diagrams, case studies and cartoons, to bring ideas to life and fire students' imaginations. \* High-quality supplementary resources on a dedicated website, including a full instructors' manual and additional student aids, all specially designed to stimulate students' learning and critical thinking. The fifth edition of this classic textbook is an ideal teaching text for first-year university and college courses, and will be essential reading for all students who are looking for an exciting, authoritative and easy-to-follow introduction to sociology. "A glossary of key concepts was just the sort of thing I needed when I was a sociology student. Peter Braham has written a lively, comprehensive guide to the most important concepts in our discipline. It will become an essential student resource." - David Silverman, Goldsmith's and King's College, University of London "A triumphant tour de force... will be a useful, even essential tool for students and faculty. It is actually fascinating reading even for non-sociologists since these ideas impact all of us all the time." - Anthony Synnott, Concordia University in Montreal "A crisp and comprehensive guide to the discipline. The thirty-eight entries, covering history, substance and evaluation, thereby describe both conventional and new topics that define the syllabus of modern sociology. A valuable guide to both teachers and students." - Bryan S. Turner, Presidential Professor of Sociology, CUNY USA Sociology consists of a myriad of frequently confusing concepts. Key Concepts in Sociology provides a comprehensive, lively and clearly-written guide to the most important concepts in the subject. It includes both what might be regarded as 'classic' sociological concepts, such as 'class', 'bureaucracy' and 'community', as well as subjects that have become increasingly prominent in recent times, such as 'celebrity', 'risk' and 'the body'. Each of the thirty-eight substantive entries: defines the concept provides a clear and compelling narrative clarifies the main debates, perspectives and disagreements gives advice on further reading Key Concepts in Sociology should be the first choice for sociology students at all levels of learning. **Sociology** Routledge

This new textbook has been designed to accompany Ken Browne's widely-used Sociology for AS AQA. Ken Browne has teamed up with co-authors Jonathan Blundell, Pamela Law and Margaret Whalley who have a wealth of classroom experience and all share a passion for teaching sociology. In this book they combine sociological rigour and accessibility for final-year A-level students. This exciting, full-colour textbook includes: chapters on each topic covered in the A2 specification; special sections on research methods in the chapter on crime and deviance, and stratification and differentiation; up-to-date discussions of a wide range of recent sociological data and debates; lots of colour photographs and diagrams to bring ideas to life and fire students' imaginations; a dedicated website, including resources for teachers and additional material designed to help students revise or research themes in the book. Key sociological terms are systematically highlighted throughout the text and are included in a comprehensive glossary, with thoughtful questions and activities at important points within the chapters to develop and test students' understanding further. Exam style questions are also found in every chapter. Pitched at exactly the right level for the new AQA A2 sociology specification, the book provides all the tools necessary to help students achieve top grades and encourage them to take their study of sociology further, whatever their needs, interests and abilities. You can also find pointers to new contemporary resources for both AS and A2 Sociology by following @BrowneKen on Twitter.

**AS- and A-level Student Handbook** HarperCollins UK

In this lively and entertaining book, Gordon Marshall explores ten classic studies of British society to demonstrate the valuable qualities of British sociology, and its importance for understanding contemporary society. In each case he provides a precis of the research undertaken, assuming no prior knowledge on the part of the reader, a series of points that can be made in praise or criticism of the research, and an assessment of the sociological contribution made by the researchers. The ten studies chosen are: Goldthorpe on social mobility, Townsend on poverty, Rex and Moore on race and the inner city, the Affluent Worker project, Wallis on sectarianism, Jackson and Marsden on education and

the working class, Brown and Harris on clinical depression among women, Cohen on deviance, Bott on families and social networks, and Burns and Stalker on management and new technology. An excellent introduction for the student to the concerns and values of sociology, this book gives a powerful statement of the achievements of post-war British sociologists, and a manifesto for good sociology in the 1990s.

Identifies gender-based power structures that are prevalent throughout humanity and how they compromise community and the planet, explaining why traditional gender values prevent ethical and humane lifestyles.

*Psychology: The Science of Mind and Behaviour 8th Edition* Collins

Build a solid foundation for students to develop the skills and knowledge they need to progress with the updated edition of Richard Gross's best-selling introduction to Psychology. This 8th edition of Psychology: The Science of Mind and Behaviour is the essential guide to studying Psychology, helping over half a million students during its 30 years of publication. - Easily access psychological theories and research with user-friendly content and useful features including summaries, critical discussion and research updates. - Develop evaluative skills, with new evaluation boxes, encouraging students to put classic and contemporary studies into context. - Consolidate understanding by identifying common misconceptions. - Stay up to date with revised content and the latest psychological research. - Understand the research process with updated contributions from leading Psychologists including Elizabeth Loftus, Alex Haslam and David Canter. **A New Approach** Polity

The second edition of Ken Browne's highly successful Introducing Sociology for AS-level provides in-depth and up-to-date coverage of the complete specification for AQA AS-level sociology. The first edition of this book was widely praised for its comprehensive coverage, and student-friendly style. In this second edition, all of the chapters have been revised to include new studies, reports and statistics. Key sociological terms are now systematically highlighted all the way through the book, and included in a comprehensive glossary, with fresh questions and activities added to develop and test students' understanding further. Fuller consideration of issues of identity has been given throughout the text. More detailed advice has been provided on coursework, including a top-mark example to show students exactly what they have to do to achieve the highest grades. What's more, two authentic exam questions are now included on every topic. Pitched at exactly the right level for AS sociology, the book provides all the tools necessary to help students achieve top grades, and a sound basis for progression to A2. A host of cartoons, photographs, graphs, tables, and spider diagrams help to enliven the text, as well as reinforcing key issues. Web sites and web-based activities are included throughout, encouraging students to engage with the most recent social changes, and developments in sociology. Although it assumes no previous knowledge of sociology, its dedicated and in-depth coverage of all the AQA's AS topics provides a useful reference tool for the synoptic elements at A2. The second edition of Introducing Sociology for AS Level combines sociological rigour and accessibility in a way unrivalled by any other book at this level. It will be an invaluable resource to anyone following the AQA specifications.

**Cambridge International AS and A Level Sociology Coursebook** OUP India

Sociology teachers exercise immense teaching and pedagogical skills to 'entertain' and motivate the generation of post-16 sociology students. This title seeks to develop a teaching and

learning package to support teachers.

**The Social Context of Birth** Cambridge University Press

Social life is in a constant process of change, and sociology can never stand still. As a result, sociology today is a theoretically diverse enterprise, covering a huge range of subjects and drawing on a broad array of research methods. Central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies, though our understanding of these concepts necessarily evolves and changes. This clear and jargon-free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so.

Going beyond brief, dictionary-style definitions, Anthony Giddens and Philip W. Sutton provide an extended discussion of each concept which sets it in historical and theoretical context, explores its main meanings in use, introduces relevant criticisms, and points readers to its ongoing development in contemporary research and theorizing. Organized in ten thematic sections, the book offers a portrait of sociology through its essential concepts, ranging from capitalism, identity and deviance to globalization, the environment and intersectionality. It will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world.
