Presently, I am teaching a group of students in Hong Kong to play by ear. Many of them have difficulty reading the standard music notation. They want to play the piano but reading music slows them down. In the process of teaching, I started coming up with this method that works effectively for them. That's how I started teaching them how to play by ear a year ago. In the process, I started coming up with a method that works effectively for them. Most people in Hong Kong are aware of another kind of music notation that is used widely among the older generation. The system is simple, known by the Chinese as Jianpu which means "simplified music notation". We sometimes see this Asian Music Notation in the older books but we seldom pay much attention to it because we've been trained to study the Western standard music notation when learning music. In the process of teaching my students to play by ear, I discover that they pick up this Asian Numeric Music Notation easily, and their play by ear skill thrives as a result. One of my students started playing by ear publicly as a church pianist half a year into the course. He is even able to compose his music at the piano and performs for us. You should see the glowing joy on his face. In the Play By Ear series, I provide you with many tips and analysis to show you how to take full advantage of this system. As I said earlier, it only takes a few hours to learn the system, maybe only one hour. That's how simple the system is. You don't believe me? Tell me about it after you learn the system from the PBE course. To guide you to use the system comfortably, I provide 40 songs in Play By Ear Volume 1 for you to work on, so that you get lots of practice to become proficient with the Asian Music Notation. By the end of the course, you will be able to notate your own songs in this numeric notation. It totally simplifies the thought process when you play songs. To me this is most valuable because it frees the student from reading the more complicated music staff notation, and helps the student to acquire a QUIET mind to listen to the sounds deeply, to play with ease and with creative freedom. Level: Beginners to Advanced. In this course, you will learn 10 steps to start playing songs by EAR. The principles of playing by ear are laid out in detail. I also demonstrate in audios and in 40 videos with animated dotted keyboards to teach you how to play in different keys with the Asian Numeric Music Notation. Each video shows a song demonstrated in at least 3 keys. This is a further look at the approach I take in this Series. Think in SCALE TONE NUMBERS to play BY EAR. To play a song by ear, first limit yourself to the 7 scale tones of a key. I use software-animated videos that show you clearly how to apply the simple Asian Music Notation to playing songs by ear. I first demonstrate how this is easily done in the key of C. Play song easily in ALL 12 KEYS. What you can do to the key of C can easily be done to any key, even in the more difficult keys such as Db key, B key or F# key. The thinking and application is CONSISTENT in all 12 keys. In my videos, using 40 songs, I show you how to apply the Asian Numeric Music Notation to playing songs in all 12 different keys. I purposely also choose some of the harder keys to play in (B, Db, F#) so that you can see how easy the system is once your thinking is clear. Playing in all keys: Simplified FINGERING and HANDSHAPES. Learn to LISTEN DEEPLY. A lot of ear training programs want to help us to LISTEN DEEPLY to the sounds. My approach uses songs to help you listen DEEPLY to the tones you play rather than naming the intervals such as M6, m6, m2, M2, m7 or M7 etc. If playing songs by ear is what you want, this is perfect for you. If you want to learn sound intervals and distinguish them, you would have to go for ear training software for those drilling exercises. Have fun, Rosa

Discover How to Get Lightning Fast Piano Scales With 5 Minutes a Day of Practice. You're about to discover how to learn and speed up your scales from scratch, the easy way. A lot of beginners simply practice their scales over and over, without realizing that's the slow way of learning. This book has all the specific strategies and tactics to practice more efficiently and get your scales up to speed fast. Want proof? Here's a video of me playing all 12 major scales: <http://youtu.be/Ow6BacGikwQ> I used this exact method to get my scales fast and smooth. How does this work? Think back to school when you had to learn a long list of vocabulary words. The first time you learned them, you probably just repeated them over and over and over, and it took forever. Then eventually you figured out strategies to learn them faster. You used flashcards, or acronyms, or flowcharts, and you realized words that used to take you 4 hours to learn you could learn in 15 minutes! It's the same way with piano! If you have the right strategies, you can learn scales reallllly fast and: -Captivate Audiences -Boost Your Technique -Surprise Your Teacher -Feel "At Home" On The Keyboard There are also physical techniques that help you play faster. For example, the thumb-under section of the scale causes problems for a lot of people. The Quick-Thumb strategy in this book is specifically designed to overcome this problem. We'll also go over correct form, using the Over-Under wrist motion. If you aren't already using the Over-Under motion, you'll see immediate results in not only your scales but everything else you play. You'll become a "Piano Superhuman" and: -Cut Down Your Practice Time -Or... Practice More And 2x Your Results -Master The Tricky "Thumb Under" Move -Memorize Scales -Fast -Eliminate the "Stuck" Feeling This book will give you a simple, step-by-step training plan on exactly what to do every day to learn your scales. You'll start out with specific exercises in Phase 1, then move onto intermediate exercises in Phase 2, then finally advanced exercises in Phase

3. These phases give you a complete progression on how to learn piano scales fast, without frustration and anxiety. Why should you learn from me? Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces

that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically.
