WHO Did It? WHO Created Earth and Heaven? CCV Digital

Legendary cricket broadcaster Henry Blofeld takes the reader on a journey from A-Z through the world of cricket. In his trademark charming style, Blowers goes through the alphabet, explaining some of the puzzling cricket terminology and regaling his favourite anecdotes from his fifty years in the sport, covering the most important moments in the sport's history as well as the most entertaining and amusing. The book will also contain a glossary for those who want to make sure they know their googlys from their bouncers. This gift book is perfect for fans

of cricket who want to understand the sport from Henry's unique point of view, it is a humorous and entertaining jaunt through the cricket landscape. *God Created Them All* Hodder & Stoughton Between 1980 and 1993, Simon Hughes was a regular on the county circuit, playing for Middlesex until 1991 before moving on to Durham at the end of his career. In that time, he played alongside some of the great characters in cricket: Mike Brearley, Mike Gatting, Phil Edmonds and Ian Botham. This is not an autobiography of a good county pro, but a look at the ups and downs, the lifestyle, the practical jokes and sheer hard yakka that make such a poorly paid, insecure job appeal to so many. Now a respected journalist and broadcaster, Simon Hughes

has written a brilliant, amusing and wryly self-depracating book, packed with hilarious and embarrassing anecdotes about some of the greatest cricketers of the last 20 years.

In C. L. R. James's classic *Beyond a Boundary*, the sport is cricket and the scene is the colonial West Indies. Always eloquent and provocative, James--the "black Plato," (as coined by the London Times)--shows us how, in the rituals of performance and conflict on the field, we are watching not just prowess but politics and psychology at play. Part memoir of a boyhood in a black colony (by one of the founding fathers of African nationalism), part passionate celebration of an unusual and unexpected game, *Beyond a Boundary* raises, in a warm and witty voice, serious questions about race, class,

politics, and the facts of colonial oppression. Originally published in England in 1963 and in the United States twenty years later (Pantheon, 1983), this second American edition brings back into print this prophetic statement on race and sport in society.

\_\_\_\_\_ 'WE ARE LIVERPOOL - THIS MEANS MORE.' JÜRGEN KLOPP *Allez Allez* *Allez* is the inside account of Liverpool FC during the Klopp era, including the 2018/19 campaign which saw the club compete in the most gripping Premier League title race in history and become Champions of Europe for the sixth time. Featuring access to management, players and staff, *Allez Allez Allez* explains how Liverpool have emerged from what Jürgen Klopp described as the "depression" of 2015 to achieve feats that have eluded an entire generation of supporters. Through original research and exclusive interviews, Simon Hughes takes readers into Melwood, the club's training ground, and behind the dressing room door. He takes them to Chapel Street, where the club's business is determined, and to America,

where it is owned. He takes them into Anfield, where many of the most important moments are defined, and he takes them on to the pitches of the Premier League and the Champions League, as we revisit how Liverpool stormed their way to the top of the Premier League this season.

Herald Pinter (1930-2008) was a British author who won the Nobel prize for Literature in 2005. He said about cricket, 'I tend to think that cricket is the greatest thing that God ever created on earth.' 'Morals and values are the things that make a human life complete. We only emphasize on Universal values that can be followed by all the people of the world, irrespective of their caste, creed, language, religion, sex, nationality and the like. The human tendency is such that if they are forced to follow something they will resist it. Character and behaviour have to be moulded carefully over the years. So how do we do that? This is where one thought cricket could be useful. If values can be taught through stories why should it not be done through cricket? This is the motto behind writing this book. In the first chapter which is an Introduction to the

volume, the role of philosophy in cricket is discussed. In the other chapters also, a judicious mixture of cricket and philosophy is served out in order to make it look like a delicious dish made out of milk and sugar. It is for the readers to enjoy it.

Batsmen are the poster boys of cricket. They are the richly rewarded and rightly celebrated stars of the game: Sachin Tendulkar, Vivian Richards, Brian Lara, Ricky Ponting, A.B.de Villiers and Kevin Pietersen. This is a story about them. Their hopes and fears, their triumph and torment. It is a book about the real feelings that batsmen experience and probes into their minds to see how they deal with one of the most precarious jobs in sport, in which life and death are one ball apart. Simon Hughes hero-worshipped the famous batsmen of his youth, and dreamt of scoring a hundred for England. His flawed attempts to make runs in a 15-year professional career are the prism through which he reflects on how some talented boys turn into great batsmen, and others lose their way. Now universally known as *The Analyst*, Hughes assesses

what ingredients a batsman needs to succeed. He delves into sports psychology, showing that what goes on in the mind is the key to batting. There is no right way or wrong way to bat. This book reflects the diverse range of batting personalities and styles. Hughes spends time with many of the legendary players - from Garfield Sobers to Kumar Sangakkara - revealing what made each of them so prolific, and the secrets behind Sir Donald Bradman's phenomenal output. He chronicles the way batting has evolved and answers the fundamental question: are batsmen born or made? Written in the same wry, sardonic style as the award-winning *A Lot of Hard Yakka*, it is the most insightful and entertaining book about batsmen ever published.

In the second half of the 19th century Britain ruled the largest and most culturally diverse empire the world had ever seen, yet non-European faces were a rarity in all but the larger port cities. For the majority of Britons, the colonies were seen as distant and exotic outposts populated by natives who were frequently

characterised as alien and uncivilised. Against this background, the arrival of a touring party of Australian Aborigines in 1868 caused something of a sensation. Initially viewed as a curiosity, they soon won the public over with their athleticism and demeanour. Over the following decades others followed in their footsteps; well off Parsee amateur enthusiasts in the 1880s, mixed race West Indian teams in the 1900s and the first Indian side composed of representatives of all her major communities in 1911. From the 1890s onwards the first individual Black and Asian players also began to appear for English club and county sides. They came from a wide range of backgrounds, some were princes others plantation workers, and their stories once they reached Britain were equally diverse. All of their stories are part of a tale in which cricket - that most English of institutions - became a catalyst for multi-cultural Britain and helped shape emerging national identities in the Commonwealth.

A Corner of a Foreign Field seamlessly

interweaves biography with history, the lives of famous or forgotten cricketers with wider processes of social change. C. K. Nayudu and Sachin Tendulkar naturally figure in this book but so, too, in unexpected ways, do B. R. Ambedkar, Mahatma Gandhi, and M. A. Jinnah. The Indian careers of those great British cricketers, Lord Harris and D. R. Jardine, provide a window into the operations of Empire. The remarkable life of India's first great slow bowler, Palwankar Baloo, provides an arresting new perspective on the struggle against caste discrimination. Later chapters explore the competition between Hindu and Muslim cricketers in colonial India and the destructive passions now provoked when India plays Pakistan. For this new edition, Ramachandra Guha has added a fresh introduction as well as a long new chapter, bringing the story up to date to cover, among other things, the advent of the Indian Premier League and the Indian team's victory in the World Cup of 2011, these linked to social and economic transformations in contemporary India. A pioneering work, essential for anyone interested in either of those vast themes, cricket and India, A

Corner of a Foreign Field is also a beautifully written meditation on the ramifications of sport in society at large.

Winner of the Cricket Writers' Club Book of the Year 2016 Shortlisted for the MCC Book of the Year Shortlisted for Cricket Book of the Year at the Sports Book Awards Scyld Berry draws on his experiences as a cricket writer of forty years to produce new insights and unfamiliar historical angles on the game, along with moving reflections on episodes from his own life. The author covers a range of themes including cricket in different areas of the world, and abstract concepts such as language, numbers, ethics and psychology; Scyld Berry relishes the joys cricket provides and is convinced of the positive effect it can have in people's lives. Cricket: The Game of Life is an inspiring book that reminds readers why they love the game and prompts them to look at it in a new way.

Nurtured in the lap of comfort, educated at Eton and Cambridge, the hero of the

British sport-loving public, C. T. Studd, whose Cambridge career has been described as "one long blaze of cricketing glory", created a stir in the secular world of his youth by renouncing wealth and position to follow Christ. He was captain of the Eton XI in 1879, and of Cambridge University in 1883, being accorded in the latter year (vide *The Cricketing Annual*) "the premier position as an all-round cricketer for the second year in succession". The illness of a brother brought him face to face with realities and the transitoriness of worldly riches and fame. He obeyed the divine command, "Go thy way, sell what thou hast and give to the poor ... take up thy cross and follow me", throwing himself into the work which had called him with the same thoroughness and earnestness with which he had learned to "play a straight bat". Henceforward his life was dedicated to the service of God and his fellow men, and the story of his labours and adventures makes an epic of faith and courage against great odds that will be an inspiration to all who rejoice in a tale of high endeavour. *Allez Allez Allez* Duke University Press

"God Created them all" is a collection of fifty five short stories depicting the authors myriad experience spanning 25 years as a doctor, dealing with different personalities in life. Some of the candid moments in the real life of these hapless people are captured truly in these short stories intertwined with the humorous, aberrant frailties of human nature shrouded in uncanny beliefs, rituals and cultural shackles, societal sanctions; aided and abetted by moral upholders in the society. No doubt, all the characters

are creations of GOD trying to make a living in their own way in whatever they are skilled in, many not understanding nor are aware of the consequences of their actions. Among them the caregivers struggle to live with their loved ones normally in a stigma ridden, supposedly unpredictable sane world. In these short stories, the author has provided simple solutions to complex problems, making use of their inherent strength and weakness, with the object of providing a chance to lead their lives with self-respect and dignity. The untold supreme sacrifice of these lesser brethren is a clarion call for all of us to lend a supportive and helping hand to make their lives purposeful and happy in our own small humble way as 'God would certainly have done if he were in a human form' as God created them all.

As a former family therapist, I know the extreme need for children to know the "whys" of life. As all parents know, children ask exhausting questions about the world and life. One major question they eventually ask is, "How did we get here?" It is so important to give an answer

that children understand. The book *WHO did it?* gives a clear, fun, colorful, and affirming answer to the little ones with so many questions. It is crucial to the mental health of children that they understand there is a God who made the world and cares about people. This understanding helps children cope with so many growing-up stressors. Adults who have learned as children the truth regarding *WHO did it?* are usually the ones with less anxiety and depression. Knowing there is a God who cares about people helps take the stress out of life as a child or an adult. As the current operations director for over forty Christian licensed therapists in the Chicago and Indiana areas and having over two thousand counseling sessions a month, I have found that parents who have taught their children the truth as to how we got here benefit the most from counseling therapy if it is needed. Knowing the Creator of the world and that He cares for His creation is a key to a satisfied and emotionally healthy life. -Duane Kapp, MA, LMFT Director of Operations, Chicago Christian Counseling Center

'Book of the Year' 2022 and the Sunday Times Sports Book Awards 'Cricket Book of the Year' 2023 In telling the story of cricket from the bottom up, *Different Class* demonstrates how the "quintessentially English" game has done more to divide, rather than unite, the English. In 1963, the West Indian Marxist C.L.R. James posed the deceptively benign question: "What do they know of cricket, who only cricket know?" A challenge to the public to reconsider cricket and its meaning by placing the game in its true social, political and economic context, James was, all too subtly, attempting to counter the game's orthodox history that, he argued, had played a key role in the formation of national culture. As a consequence, he failed, and the history of cricket in England has retained the same stresses and lineaments as it did a century ago — until now. In examining recreational rather than professional (first-class) cricket, *Different Class* does not simply challenge the widely accepted orthodoxy of English cricket, it

demonstrates how the values and belief systems at its heart were, under the guise of amateurism, intentionally developed in order to divide the English along class lines at every level of the game. If the creation of opposing class-based cricket cultures in the North and South of England grew out of this process, the institutional structures developed by those in charge of English cricket continue to discriminate. But, as much as the exclusion of Black and South Asian cricketers from the recreational mainstream is the most obvious example, it is social class that remains the greatest barrier to participation in what used to be the national game.
