who combined science and sanctity. His contribution turns on the theory of the suspended middle of the original relationship between the natural and the supernatural, which he experienced and elaborated. The device of the relationship between the original metaphysical-affective-symbolic structure of the believing conscience and the affective turn in

metaphysics, intrinsically linked to his trinitarian ontology, allowed Rosmini to elaborate theories and epistemologies from a unitary perspective in various fields of knowledge. This volume indicates the implications of the unbreakable bond between Rosmini's philosophy and theology in disciplines such as pedagogical science, political science, and juridical science.

Following the favorable resolution of the "Rosminian question" the Catholic Church beatified Rosmini in 2007 and in 2018 indicated his theoretical-practical approach as a universal education model to be followed. Through essays by major experts in Rosmini's thought, this curatorship offers an international public a brief, reasoned overview of Rosmini's

thinking on these disciplines, finally translated into English, so that this perspective can be understood and explored with particular regard to the possibility of encouraging ecumenical comparison between Rosmini's suspended middle and, for example, that of Radical Orthodoxy. *Roma Tre Law Review - 01/2020* sellier. european law publ. The book is a true

knowledge-enhancing project, dealing with the forms of rationality at work in social life, which are so many, varied and complex. Published already in Spanish and Italian, it analyses the role played by rationality through the lens of social theories in order to propose a problematic interpretation of human action. Since there is nothing more practical than a good theory when seeking

to understand our society, the book reflects on the theoretical approaches that provide useful categories by means of which to understand and interpret individual, organizational, and institutional action. It proposes an analysis of a wide variety of classics by eminent European and Anglo-American thinkers, such as Dahrendorf, Mannheim, Marx, Popper, Weber,

<p>Habermas, Luhmann, Machiavelli, Pareto, Ardigò, Cesareo, Parsons, Schütz, Alexander, Bauman, Beck, Sennett, Antiseri, Boudon, Sen, Simon, to shed light on the relationship between rationality, difficulties in thinking and extra-rationality. Finally, the reasons for unexpected action are investigated as well as the strategic role played by ethics,</p>	<p>rationality and skills in postmodern societies on the basis of the contributions of Nussbaum and Piketty. <i>Pratica universale ... estratta in compendio per alfabeto dalle principali leggi, bandi, statuti, ordini, e consuetudini ... che vegliano nelli stati del ... beyond the Italian national boundaries. The fifteen essays that make up the book discuss the birth and evolution of the Italian regionalism (including those regions with Special Statutes) as well as reforms of 1999-2001. A particular attention is devoted to the role of autonomy in defining regional statutes, regional forms of government, and regulatory and

administrative powers. These are subjects on which there is by now an abundant body of constitutional case law, which is extensively referred to by the chapters. The role of the regions vis-à-vis the local bodies and vis-à-vis the European and international order is also discussed, as the right to negotiate with foreign powers has now been conferred on the regions. Lastly, the volume

presents contributions on regional finance and on the new law on fiscal federalism, as well as on regional powers in the area of health and welfare. Rendiconti della Reale Accademia dei Lincei, Classe di scienze morali, storiche e filologiche Lulu.com The book provides a detailed study of the Biblioteca Apostolica Vaticana and its interior decoration which today still remains

inaccessible to the ordinary visit. Placing the history of the Vatican Library in the larger context of how erudition was administered and organized within the Early Modern Roman Curia, the book will also take into consideration how the Vaticana was used in contrast to other newly founded libraries.

As a direct result of an international conference organized in the year 2021, the volume tries to shed light on the way in which the translation activity contributed to the Romanian culture and language, drawing from different traditions and cultures it came in contact with (directly or indirectly), and thus mingling the own Slavonic church tradition with the new and revolutionary ideas of the

Western world and using this mix to modernise the society, language and the politics in this region. Furthermore, this eclectic collection of articles highlights the fact that it was neither the exclusive merit of the Transylvanian scholars, nor of the Moldavian or Wallachian ones to have contributed decisively to the formation of the national consciousness and to the standardisation of the language, but

it was rather the collaboration, the circulation of people and ideas that furthered the modernity in all three Romanian Principalities. Without disregarding the regional specificity of the Romanian Enlightenment, the volume focuses on the interconnections of the agents involved in the cultural transfer, on the networks they created for the dissemination of knowledge and political thought and

on the common effort to render the new ideas and concepts of the foreign cultures in a national language that could be accessible to the Romanians. Parliamentary Papers Editoriale Jaca Book "Roma Tre Law Review" is a law review sponsored by the Department of Law of the University of Roma Tre. It is not focused on a specific topic or a set of issues, but it is aimed at surveying

transversally – and from an interdisciplinary perspective – the national and trans-national legal landscape. Its main aim is to promote the diffusion of the Italian legal culture, and namely the type of scholarship produced at Roma Tre, abroad, as well as to investigate the development of the law in several fields and places from an Italian and European viewpoint. Accordingly, the review will host

contributions ideally characterized by a specific set of features, and namely by their openness to comparative, historical, and interdisciplinary perspectives on all legal issues of not strictly local concern.
