Constance in Peril is a brilliantly funny story from the creators of the critically acclaimed The Misadventures of Frederick, a Sunday Times Children's Book of the Year. Told with all Ben Manley's characteristic wit and genius for comic timing, with beautiful, atmospheric illustrations by Emma Chichester Clark adding to the fun. Edward's favourite toy was a soft, old, cloth doll. Her name was Constance Hardpenny and she had led a tragic life. Having been rescued from a rubbish bin by a boy called Edward, Constance suffers a series of potentially catastrophic incidents. More suited to elegant tea parties in a bygone age, she nevertheless remains stoic throughout. From being forgotten and left out in the rain or trapped up a tree, even being caught between the jaws of the neighbour's dog, Constance is constantly finding herself in mortal danger. Although she's luckily rescued each time by the watchful Grace, Edward's loving older sister, it seems disaster is never far behind. Is Constance doomed to suffer a life of never-ending peril? Probably.

We're right in the middle of World War I, deep in the trenches. The soldiers are confronted by unimaginable suffering and violent death on a daily basis. Considered as nothing more than cannon fodder by their superiors, they try desperately to survive. Partly as an act of defiance in the face of hardship, partly as the ultimate irony, the soldiers nickname their regiment after the famous Parisian cabaret club 'Folies Bergère'. They laugh and joke, they write, they draw, they fight, they die in appalling circumstances, they kill themselves, they lose their minds. And then one of their number is sentenced to death by firing squad... and miraculously survives...

Everything in life passes, moves on, or transforms—except one thing that never fades. With her signature warmth, playfulness, and beautiful illustrations, Beatrice Alemagna reminds us that in a changing world, the love between parent and child remains constant.

J. Paul Getty had a passion for the exquisitely made furniture and decorative objects of eighteenth-century France, which he began collecting in the 1930s. Gillian Wilson, curator of decorative arts since 1971, has broadened and strengthened the collection, adding Boulle furniture, mounted oriental porcelain, tapestries, clocks, ceramics, and more. In the 1980s and 1990s the Museum continued to enlarge its decorative arts holdings, creating a European sculpture department in 1984 and adding glass, maiolica, goldsmiths' work, pietre dure, and furniture from Italy and Northern Europe. This book is a revised and expanded edition of Decorative Arts: An Illustrated Summary Catalogue of the Collection of the J. Paul Getty Museum (1993). In addition to more than forty recent acquisitions—among these four wall sconces from Versailles that once belonged to Marie Antoinette and an elaborate upholstered bed from the collection of Karl Lagerfeld—it includes the results of years of research. Designed for scholars, students, and devotees of the decorative arts, this volume provides a comprehensive look at the Getty's fine collection.

The Antinomies of Realism is a history of the nineteenth-century realist novel and its legacy told without a glimmer of nostalgia for artistic achievements that the movement of history makes it impossible to recreate. The works of Zola, Tolstoy, Pérez Galdós, and George Eliot are in the most profound sense inimitable, yet continue to dominate the novel form to this day. Novels to emerge since struggle to reconcile the social conditions of their own creation with the history of this mode of writing: the so-called modernist novel is one attempted solution to this conflict, as is the ever-more impoverished variety of commercial narratives – what today's book reviewers dub “serious novels,” which are an attempt at the impossible endeavor to roll back the past. Fredric Jameson examines the most influential theories of artistic and literary realism, approaching the subject himself in terms of the social and historical preconditions for realism's emergence. The realist novel combined an attention to the body and its states of feeling with a focus on the quest for individual realization within the confines of history. In contemporary writing, other forms of representation – for which the term “postmodern” is too glib – have become visible: for example, in the historical fiction of Hilary Mantel or the stylistic plurality of David Mitchell's novels. Contemporary fiction is shown to be conducting startling experiments in the representation of new realities of a global social totality, modern technological warfare, and historical developments that, although they saturate every corner of our lives, only become apparent on rare occasions and by way of the strangest formal and artistic devices. In a coda, Jameson explains how “realistic” narratives survived the end of classical realism. In effect, he provides an argument for the serious study of popular fiction and mass culture that transcends lazy journalism and the easy platitudes of recent cultural studies.

A betrayal and a murder in pro-Nazi Spain spark a struggle for power that grips a family for generations in this sweeping historical thriller Fierce, edgy, brisk, and enthralling, this brilliant novel by Victor del Árbol pushes the boundaries of the traditional historical novel and in doing so creates a work of incredible power that resonates long after the last page has been turned. When

Isabel, a Spanish aristocrat living in the pro-Nazi Spain of 1941, becomes involved in a plot to kill her Fascist husband, she finds herself betrayed by her mysterious lover. The effects of her betrayal play out in a violent struggle for power in both family and government over three generations, intertwining her story with that of a young lawyer named Maria forty years later. During the attempted Fascist coup of 1981, Maria is accused of plotting the prison escape of a man she successfully prosecuted for murder. As Maria's and Isabel's narratives unfold they encircle each other, creating a page-turning literary thriller firmly rooted in history.

Named a Best Book of the Year by The Times (UK) and the Los Angeles Public Library Winner of the 2018 Goncourt Prize, this poignant coming-of-age tale captures the distinct feeling of summer in a region left behind by global progress. August 1992. One afternoon during a heatwave in a desolate valley somewhere in eastern France, with its dormant blast furnaces and its lake, fourteen-year-old Anthony and his cousin decide to steal a canoe to explore the famous nude beach across the water. The trip ultimately takes Anthony to his first love and a summer that will determine everything that happens afterward. Nicolas Mathieu conjures up a valley, an era, and the political journey of a young generation that has to forge its own path in a dying world. Four summers and four defining moments, from "Smells Like Teen Spirit" to the 1998 World Cup, encapsulate the hectic lives of the inhabitants of a France far removed from the centers of globalization, torn between decency and rage.
