The dots on our dot grid paper are spaced .2" apart. Dot grid paper was popularized by the bullet journal (Bujo) around 2014. The most popular/recommended bullet journal by fans is published by Leuchtturm1917. Bullet journaling is a simple organizational method which uses small icons to represent daily tasks and how they are to be handled. You can learn more about it at [bulletjournal.com](#) Bullet journaling has expanded to include complex 'spreads' shared on social media - graphical or chart images drawn across the dot grids which can represent things like mood tracking, weight loss or tasks completed. Be aware that Bullet Journal, Bujo and Leuchtturm are all trademarks so we suggest referring to this paper as 'dot grid.' Dot grid paper is very flexible and can be used for design, creating your own bullet style journals, drawing, pen and paper games and many more purposes. Many people like the simplicity of connecting the dots to make boxes, tables and so on. Some people prefer to write on dot grid paper.
