Turkey's contemporary defense and military strategy can be best understood as a result of the historical process the country has experienced. This historical process has significantly altered the security environment surrounding Turkey while transforming her alliance relations, ultimately producing a new political vision for the country and a defense and military strategy that serves this vision. Firstly, although the end of the Cold War and the ensuing dissolution of the Soviet Union has ameliorated international security, Turkey was faced with both conventional and asymmetric threats on multiple fronts. This situation kept defense spending of the country at record levels despite military expenditures within NATO showing a rapid decline. On the other hand, the emerging political geography led to a series of new conflicts erupting in several hotspots, from the Balkans through to the Caucasus and the Middle East. Emerging conflicts were thought to require a common response which precipitated NATO's evolution from a collective defense organization to a collective security organization. Concurrently, it meant that Turkey would actively join NATO's new missions ranging from the peaceful resolution of disputes to stability operations with expeditionary forces featured by mobility, jointness, and readiness. Secondly, the 9/11 terrorist attacks against the U.S. created profound ramifications for Turkey's regional security and her alliance relations. In particular, the American military occupation of Iraq jeopardized Turkey's national security by effectively removing the political authority of that country and dismantling the Iraqi army. While the emerging political vacuum was filled by sectarian politics, the scarcity of security was exploited by the PKK, consolidating its presence in northern Iraqi territories. Divided Iraq has also transformed into a breeding ground for international terrorism which resulted in the rise of various extremist armed organizations, including ISIS. Thirdly, since the so-called Arab spring started in the early 2010s, the political and security landscape of the Middle East and North Africa has undergone significant changes. While the overthrow of dictators led to intra-state conflicts in several places, it was particularly the civil war in Syria that alarmed Turkish decision-makers due to its transformation into a safe haven for various terrorist groups operating at Turkey's southern frontiers. Bereft of concrete ally support, Turkey unilaterally launched military operations into northern Syria in order to eliminate ISIS elements as well as curbing the long-term territorial ambitions of the PKK. The Arab spring has also aggravated previous tensions and engendered various factions that facilitated new alignments which is the case for today's Eastern Mediterranean and Arab-Israeli relations. Against the backdrop of these considerations, Turkey's contemporary defense and military strategy has been formed. In general, this strategy lays down the principles of using military force to support the political aims of the country. It operates as a "bridge" between policy and operation, in a classical sense. And that strategy is now not just informed by protecting the territorial integrity of the nation but has wider objectives, including enhancing the country's international standing as well as achieving strategic autonomy. This in turn has necessitated new tools that extend beyond a sole deterrent force, namely military activism, and defense industry investments, along with the contribution to international security and commitments to the NATO alliance. The summer issue of *Insight Turkey* aims to explain the changing dynamics of Turkey's military and defense strategy by taking into consideration current foreign and security policy practices of Turkey in the Middle East and North Africa region. More specifically, this issue is an attempt to develop a new framework to understand Turkey's revolution in its military and defense strategies. Hulusi Akar, the Minister of National Defense of Turkey, in his commentary sheds light on the global and regional developments that threaten Turkey's peace and stability and which contributed to shaping its defense strategy. A strategy that targets finding common solutions to international problems in a collaborative way. Akar gives special attention to the contribution of the distinguished, deterrent, efficient, motivated, well-trained, and disciplined Armed Forces that are equipped with high-level weaponry produced domestically using national resources. Within the context of the Turkish Defense Industry's strong historical background, Ismail Demir highlights the transformation and rationality of the Turkish Defense Industry. He emphasizes the necessity of addressing the recent rise of the Turkish Defense Industry in two different but interrelated periods. The first provided the defense industry with

strong support with an extremely decisive and long-term projection. The second represents the transformation of the expectations from the defense industry, in coordination with the changing position and function of the defense industry in bureaucratic mechanisms. Michaël Tanchum's commentary is a coherent and rigorous analysis of the logical result of Turkey's post-Cold War strategic reorientation, presented in its new expeditionary capability of enhanced naval capacity and new forward bases. Michaël examines Ankara's challenge of calibrating the use of its hard power instruments to serve its post-Lausanne strategic orientation toward establishing Turkey-centered, inter-regional connectivity. In the middle of the COVID-19 global pandemic, Minister of Health of the Republic of Turkey, Fahrettin Koca, underscores the role of Turkey in the management of COVID-19. His commentary asserts that Turkey has successfully contained the COVID-19 pandemic and prevented devastating consequences due to its idiosyncratic approach to the crisis and the robustness of its healthcare system. After 85 years as a museum, Hagia Sophia welcomes Muslim worshippers', a decision that has drawn intense criticism in Turkey and worldwide. However, Deputy Minister of Foreign Affairs of the Republic of Turkey, Yavuz Selim Kiran, argues that the functional change of Hagia Sophia will not affect Turkey's centuries-old tradition of promoting tolerance, harmony, and diversity. The final off-topic commentary of this issue underlines the challenges to Pakistan's nuclear threshold. Muhammad Haris Bilal Malik and Muhammad Abbas Hassan explain why Pakistan has been further threatened by India's aggressive policies and provocative military modernization. The commentary concludes that Pakistan may be compelled to further revisit its nuclear threshold level to overcome India's aggression. Besides the commentaries, this issue comprises five articles that focus on the Turkish Defense Industry past, present, and future and underline the factors that led to its remarkable evolution. The first article by Murat Yeşiltaş presents a general framework of Turkey's Military and Defense Strategy. By taking into account the main drivers, primary objectives, and essential pillars, as well as its tangible repercussions on the military mindset, the author explains how the change in Turkey's defense and military strategy stems both from Turkey's changing security landscape and its quest to be an assertive regional player. Can Kasapoğlu's research article covers two interrelated strategic topics regarding Turkey's national military capacity in the 21st century: its defense technological and industrial base and its military policy, both currently characterized by a burgeoning assertiveness. In light of the rapid advances in technology that are continually shaping developments in the aerospace and defense sector, notably the evolution of airpower, Arda Mevlütoğlu, provides us with an understanding of the features of the next generation of air warfare, while presenting the status of the Turkish Air Force and offering suggestions on several challenges and opportunities. As a reply to the critics that Turkey is caught between a rock and a hard place due to the adamant opposition of its NATO allies, Mustafa Kibaroğlu tries to make sense of Turkey's S-400 choice by assessing the impact of the S-400 deal on Turkey's defense industries. On one hand, he presents his conception of the current "international political non-order" as an underlying factor behind the deal. On the other, he suggests that the deal must be approached from a wider perspective to grasp the extent of the service it has done in bolstering Turkey's military-industrial complex. The last article related to the main theme of this issue focuses on Turkey's defense spending. Merve Seren attempts to show that prioritization of defense spending during the AK Party era is specifically the outcome of a political preference. In other words, the shift in the political landscape from idealism to realism, associated with pragmatism. Our initial off-topic article highlights how Trump's peace plan optimistically called the "Deal of the Century" adopts the Zionist discourse regarding al-Aqsa and its effects on undermining the Muslim sovereignty over the mosque, which will be a clear violation of the International law and status quo. Khalid el-Awaisi and Cuma Yavuz investigate the results of the implementation of Trump's plan which they assert will lead to three main changes that would undo the centuries-old status quo of Masjid al-Aqsa completely and give Israel full control over this important historic and religious site. Ahmad AlShwawra and Ahmad Almuhtady's off-topic article completes the dossier of this issue. The authors examine the potential implications of Jordan's decision to import Mediterranean gas through Israel on Jordanian energy security, with special attention to how this decision will impact Jordanian foreign policy regarding the Palestinian cause. Through a wide range of articles and commentaries, this issue aims to bring to its readers a comprehensive framework on the transformation of Turkey's

Defense Industry and changing patterns of its military strategy. **Sanathana Sarathi English Volume 07 (2012 - 2021)** Palala Press This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Is Narendra Modi's government innovative and free of vote-bank politics? How did Narendra Modi bring 24-hour, three-phase domestic power supply to 18,000 villages in Gujarat? How did Modi turn the forlorn Kutch into a top tourist destination? One of the most hotly debated topics in this general elections has been the development and governance of Narendra Modi's government in Gujarat. In *Centrestage*, Uday Mahurkar tries to present a balanced assessment of Narendra Modi's government by uncovering and analysing the Modi mantra of governance. With chapters on energy, technology, agriculture, finance, and innovation to name a few, Mahurkar aims at understanding and revealing the ground reality through facts and research beyond the media hype. Has Gujarat really made progress under Narendra Modi? Is Narendra Modi really a visionary and a good administrator? Read *Centrestage* to find out and get an insider's view of Narendra Modi's governance from a man who has followed him closely for the past three decades.

The Fourth of July Encyclopedia Cornell University Press
Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty. This is the reason why it has emerged. This Sarathi will fight in order to establish world prosperity. It is bound to sound the paean of triumph when universal Ananda is achieved.

America's Independence Day Celebration Wentworth Press
This book is the result of Dr. Alan Bruce (A. Bruce) Clark's decades of study, and it discusses the impact of the world's major events upon the Annual, Federal Holidays of the United States of America, which start with New Year's Day and end with Christmas Day. Dr. Clark wrote corporate histories for Historic Houston, a book that President George H. W. Bush also helped write and Dr. Clark, for several years, wrote the monthly feature articles in the E. W. Forbes Report, which received written praise from many world-renown leaders, including Dr. Denton Cooley who performed the first heart transplant in the USA. He wrote these articles before the death of Elroy Forbes, a Vietnam War veteran exposed to Agent Orange and honored by multiple Houston mayors with an "E. W. Forbes Day." In a strict sense, there are no national holidays when every person living in the United States is not working. However, there are eleven holidays that the Federal Government of the USA declared as annual celebrations. Five of these holidays occur on specific dates, provided the calendar days do not occur on weekends, while the dates for the other six holidays vary from year to year. This book is the result of Professor Clark's providing handouts to his students about each Annual Federal Holiday, and their encouraging Alan Bruce Clark, PhD to compile the articles into an easy-to-read, interesting book. Dr. Clark wrote this book to show the terrific contributions made to America by those of different racial heritages, genders and creeds. As for Dr. Clark's ancestry it includes those who came to the United States on the Mayflower and his predecessors are buried in Hickory Grove Cemetery in Waverly, Pennsylvania along with the Underground Railroad African-Americans they supported. Thus, this work incorporated insights provided by African-Americans, Asian-Americans, Hispanic-Americans and Native-Americans. As noted, even the New Year's celebration, which did not originally occur on January 1, has elements of the world's major ethnic groups. History buffs, patriotic Americans, teachers wanting a unique required textbook for their students, librarians, active military personnel, veterans, children, teenagers, young adults, retirees, seniors, citizens, residents, business leaders,

community leaders, political leaders, unions and even those who do business with American companies and/or are contemplating a visit or moving to the "land of opportunity" will greatly benefit from this book. This is due to its providing details on the history and customs behind the New Year's Day, Birthday of Martin Luther, King, Jr., Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day and Christmas Day Celebrations. This book even has events planned through 2025 and is dedicated to all Americans past, present and future. It is because of their devotion, determination and hard work that the United States became a great nation and that it can become even better. Each annual holiday has its own rich heritage, which all Americans, regardless of their personal beliefs, can appreciate and respect. The reason is that the sacrifices of others made the USA great. More importantly, the United States can become even better with your dedication and commitment. Having said these things, it is hoped that you will enjoy this trip through the Annual Federal Holidays of the United States of America! Businesspersons can give this book to clients, employees and schools. Likewise, government officials can present this book to military personnel and other public servants to let them know that their efforts are deeply appreciated, while teachers can order this book for their history, American culture and U.S. citizenship courses. Dr. Clark thanks you for your interest in this book and hopes that it will bless you in a very special way.

On this day, fireworks are launched, and citizens take to the streets, shopping, games and for walks to celebrate Independence Day as one of the most important holidays in the history of their country, and the American flag is raised in the streets and parks. *The Independence Day Association of Harlem* McFarland
Celebrating the Fourth provides a history of this holiday and explores its role in shaping a national identity and consciousness in three cities - Boston, Charleston, and Philadelphia - during the first fifty years of the American republic. Independence Day celebrations justified, validated, and helped maintain nationalism among people unused to offering political allegiance beyond their own state borders.

The Fourth of July, Thanksgiving, Washington's Birthday, Memorial Day, Columbus Day, Labor Day, Martin Luther King's Birthday, and other celebrations matter to Americans and reflect the state of American local and national politics. Commemorations of cataclysmic events and light, apparently trivial observances mirror American political and cultural life. Both reveal much about the material conditions of the United States and its citizens' identities, historical consciousness, and political attitudes. Lying dormant within these festivals is the potential for political consequence, controversy, even transformation. American political fetes remain works in progress, as Americans use historical celebrations as occasions to reinvent themselves and their nation, often with surprising results. In six engaging chapters 'assaying particular political holidays over the course of their histories, Red, White, and Blue Letter Days examines how Americans have shaped and been shaped by their calendar. Matthew Dennis explores this vast political and cultural terrain, charting how Americans defined their identities through celebration. Independence Day invited African Americans to demand the equality promised in the Declaration of Independence, for example, just as Columbus Day—celebrating the Italian, Catholic explorer—helped immigrants proclaim their legitimacy as Americans. Native Americans too could use public holidays, such as Thanksgiving or Veterans Day, to express dissent or demonstrate their claims to citizenship. Merchants and advertisers colonized the American calendar, moving in to sell

their products by linking them, often tenuously, with holiday occasions or casting consumption as a patriotic act.

The American Revolution was an ideological and political revolution that occurred in British America between 1765 and 1791. The Americans in the Thirteen Colonies formed independent states that defeated the British in the American Revolutionary War (1775-1783), gaining independence from the British Crown and establishing the constitution that created the United States of America, the first modern constitutional liberal democracy.
