American Recycler

The area of Silver Creek Township was settled in the 1850s by Swedish immigrants who left their ancestral home to face the challenges of life in the new world. They cleared the land and developed a prosperous farming community, which they named Enfield when a post office was established in 1910. Enfield was a booming farm community in the early part of the 20th century, with schools, churches, a potato

warehouse, a cheese factory, and its own baseball team. The rural farm community thrived for a century, but now the farming way of life has given way to a residential bedroom community for nearby Minneapolis. Those first homesteaders are long gone, but their legacy lives on, and many of their descendants continue to live and work in the community.

Decision-Maker's Guide to Solid-Waste Management DIANE Publishing
Anna is not sick, but she might as well be. By age 13, she has undergone countless surgeries, transfusions, and shots so that her older sister Kate can somehow fight

the leukemia that has plagued her since childhood.

Concrete Producer News Jhg Partners

This Guide has been developed particularly for solid waste management practitioners, such as local government officials, facility owners and operators, consultants, and regulatory agency specialists. Contains technical and economic information to help these practitioners meet the daily challenges of planning, managing, and operating municipal solid waste (MSW) programs and facilities. The Guide's primary goals are to encourage reduction of waste at the source and to foster implementation of integrated solid waste management systems that are cost-effective and protect human health and the environment. Illustrated.

Benefits and drawbacks; The composing process; Raw materials; Composting methods; Composting operations; Management; Site and environmental considerations; Using compost; Marketing agricultural compost; Farm composting economics: focus on production costs;

Other options for waste management and composting; Characteristics of raw materials; Equipment tables; Troubleshooting and management guide; Work sheets and forms; Environmental agencies; Metric conversions.

Commissioner of Patents Annual Report Surplus Record

This book examines the full spectrum of compressor types, how they operate, how to control them, and how operating conditions can significantly impact their performance. Discussed in detail are the influence of pressure, temperature, molecular weight, specific heat ratio, compression ratio, speed, vane position, and volume bottles. The various methods of throughput control are also addressed, including discharge throttling, suction throttling, guide pain positioning, volume bottles, suction valve unloaders, speed control, as well as how each of these control methods affects compressor life. Compressor surge is defined and discussed in detail, along with the types of instrumentation (controllers, valves, pressure, and temperature transmitters) available, and which of those are most suitable for controlling search. Case

studies have been included to illustrate the principles covered in the text. This edition also includes detailed information on compressor seals. Various types of seals providing the best results for different applications are discussed, thereby giving the reader a basic understanding of seals serotypes and applications.

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 95,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. August 2022 issue. Vol. 99, No. 8

Skillings' Mining Review CRC Press

Part of the regionalist movement that included Grant Wood, Paul Engle, Hamlin Garland, and Jay G. Sigmund, James Hearst helped create what Iowa novelist

Ruth Suckow called a poetry of place. A lifelong Iowa farmer, Hearst began writing poetry at age nineteen and eventually wrote thirteen books of poems, a novel, short stories, cantatas, and essays, which gained him a devoted following. Many of his poems were published in the regionalist periodicals of the time, including the Midland, and by the great regional presses, including Carroll Coleman's Prairie Press. Drawing on his experiences as a farmer, Hearst wrote with a distinct voice of rural life and its joys and conflicts, of his own battles with physical and emotional pain (he was partially paralyzed in a farm accident), and of his own place in the world. His clear eye offered a vision of the midwestern agrarian life that was sympathetic but not sentimental - a people and an art rooted in place.

My Sister's Keeper Surplus Record

In quarries and mines around the world, Haulpak and Lectra Haul off-highway haulers are legendary. The Haulpak truck line (launched in 1957) and the Lectra Haul diesel-electric drive truck (introduced in 1960) shaped the way all modern off-highway haulers are designed even to this

day. The Haulpak name was carried by such companies as LeTourneau-Westinghouse/WABCO (Westinghouse Air Brake Company), Dresser, Komatsu-Dresser, and finally Komatsu. Lectra Haul was the trademark name for trucks built by Unit Rig, becoming part of Terex and sold to Bucyrus International. Each truck's designs were the templates for most future mining trucks. Construction Equipment author Eric Orlemann honors these off-highway haulers that carried these names, both past and present, with historic and modern photography, much of it never seen in published form before.

Annual Report

Monthly magazine devoted to topics of general scientific interest.
