A fire fighter's ability to recognize an incident involving hazardous materials is critical. They must possess the knowledge required to identify the presence of hazardous materials and weapons of mass destruction (WMD), and have an understanding of what their role is within the response plan. Hazardous Materials Awareness and Operations will provide fire fighters and first responders with	

these skills and enable them to keep themselves and others safe while mitigating these potentially deadly incidents. Hazardous Materials Awareness and Operations is the center of an integrated teaching and learning system that combines groundbreaking content with dynamic new features to support instructors and to help prepare students for the job. The text meets and exceeds the requirements for Fire Fighter I and II certification and satisfies the core competencies for operations level responders including the eight mission-specific responsibilities for first responders within the 2008 Edition of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents. Additionally, the material presented also exceeds the hazardous materials response requirements of the Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency (EPA). Hazardous Materials Awareness and Operations provides in-depth coverage of: the properties and effects of hazardous materials and WMDs; how to calculate potential danger and initiate a response plan; selection, use, advantages, and disadvantages of personal protective equipment; performing mass and technical decontamination; performing evidence preservation and sampling; performing product control. Performing air monitoring and sampling; performing victim rescue and recovery; and responding to illicit laboratory incidents. Listen to a Podcast with Hazardous Materials Awareness and Operations author Rob Schnepf to learn more about this training program! This training manual is part of an innovative training program, developed in conjunction with the North American Transportation Management Institute (NATMI). It utilizes a seminar format that concentrates on all levels of hazardous materials training. Transportation of hazardous materials by the trucking industry is covered in depth, as well as issues of compliance of carrier companies and individual truck drivers with Department of Transportation (DOT) regulations. Coverage meets the needs of carriers to provide HazMat refresher training that is required at least once every three years. Issues of safety and security of trucking fleets, including HazMat handling, are also addressed to help ensure that the carrier's safety management team fulfills the task of making sure that truck drivers are trained on the transport of hazardous materials.

A Complete Training Solution for Hazardous Materials Technicians and Incident Commanders! In 1982, the authors Mike Hildebrand and Greg Noll, along with Jimmy Yvorra, first introduced the concept of the Eight-Step Process® for managing hazardous materials (hazmat) incidents when their highly regarded manual, Hazardous Materials: Managing the Incident was published. Now in its revised fourth edition, this text is widely used by fire fighters, hazmat teams, bomb squads, industrial emergency response teams, and other emergency responders who may manage unplanned hazardous materials incidents. As a result of changing government regulations and consensus standards, as well as the need for terrorism response training, Mr. Noll and Mr. Hildebrand have modified and refined their process of managing hazmat incidents and added enhanced content, tips, case studies, and detailed charts and tables. The Revised Fourth Edition contains comprehensive content covering: • Hazard assessment and risk evaluation • Identifying the problem and implementing the response plan • Hazardous materials properties and effects • Identifying and coordinating resources • Decontamination procedures • The Eight-Step Process® • Personal protective equipment selection • Procedures for terminating the incident The Revised Fourth Edition's dynamic features include: • NFPA 1072 and 472 Correlation Guide for the Hazardous Materials Technician and Hazardous Materials Incident Commander levels • Correlation matrix to the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) Bachelor's (Non-Core) Managerial Issues in Hazardous Materials Course (C0274) • Realistic, detailed case studies • Practical, step-by-step skill drills • Important hazardous materials technician and safety tips Also available to support Hazardous Materials: Managing the Incident, Fourth Edition: • Hazardous Materials: Managing the Incident, Fourth Edition Field Operations Guide • Hazardous Materials: Managing the Incident, Fourth Edition Student Workbook • Navigate TestPrep: Hazardous Materials: Managing the Incident • Hazardous Materials: Awareness and Operations, Third Editio
