Providing a solid foundation in medical-surgical nursing, Susan deWit's Medical-Surgical Nursing: Concepts and Practice, 3rd Edition ensures you have the information you need to pass the NCLEX-PN® Examination and succeed in practice. Part of the popular LPN/LVN Threads series, this uniquely understandable, concise text builds on the fundamentals of nursing, covering roles, settings, and health care trends; all body systems and their disorders; emergency and

disaster management; and mental health nursing. With updated content, chapter objectives, and review questions, this new edition relates national LPN/LVN standards to practice with its integration of QSEN competencies, hypertension, diabetes, and hypoglycemia. Concept Maps in the disorders chapters help you visualize difficult material, and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Get Ready for the NCLEX® Examination! section includes Key Points that summarize chapter objectives, additional resources for further study, review questions for the NCLEX® Examination, and critical thinking questions. Nursing Care Plans with critical thinking questions provide a clinical scenario and demonstrate application of the nursing process with updated NANDA-I nursing diagnoses to individual patient problems. Anatomy and physiology content in each body system overview chapter provides basic information for understanding the body system and its disorders, and appears

along with Focused Assessment boxes highlighting the key tasks of data collection for each body system. Assignment Considerations, discussed in Chapter 1 and highlighted in feature boxes, address situations in which the RN delegates tasks to the LPN/LVN, or the LPN/LVN assigns tasks to nurse assistants, per the individual state nurse practice act. Gerontologic nursing presented throughout in the context of specific disorders with Elder Care Points boxes that address the unique medical-surgical care issues that affect older adults. Safety Alert boxes call out specific dangers to patients and teach you to identify and implement safe clinical care. Evidence-based Practice icons highlight current references to research in nursing and medical practice. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care — and prepare you to educate patients on their health condition and recovery. Health Promotion boxes address wellness and disease prevention strategies that you can provide in patient teaching.

The basics you need to succeed! Covering basic anatomy & physiology and medical-surgical nursing for the LPN/LVN, *Adult Health Nursing, 8th Edition* provides just the right amount of information you need - with a level of detail that is neither overwhelming nor too superficial. Guidelines for patient care are presented within the framework of the nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. New to this edition, an updated art program replaces line art to provide a realistic view of procedures and skills. In addition, enhanced holistic health care options, and updated health promotion topics, provide an updated view of current practice. This easy-to-understand text is best when used with *Foundations of Nursing, 8th Edition*, to give you complete coverage of all the content needed in an LPN/LVN curriculum! Tenth grade reading level helps students understand complex topics. Skills are presented in a step-by-step format with clearly

defined nursing actions and rationales. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter along with an overview of A&P in all body systems chapters. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Expanded and updated Cultural Considerations boxes explore specific health and cultural issues to help you address the needs of the increasingly diverse patient and resident populations. The Nursing Process connects specific disorders to patient care - with a summary at the end of each chapter.

Older Adult Considerations boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Health Considerations boxes discuss issues facing patients and their caregivers in the home setting. Get Ready for the NCLEX® Examination section at the end of each chapter provides Key Points, Review Questions,

and Critical Thinking Activities to reinforce learning. Assessment section is separated into Subjective and Objective Data to provide a clear distinction between the two. Safety Considerations boxes cover issues related to safe patient care in a variety of settings. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Patient Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Health Promotion Considerations boxes highlight information on wellness and disease prevention, including infection control, diet, and pregnancy. Communication sections include real-life examples of nurse-patient dialogue. Medication Tables provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Complementary and Alternative Therapy boxes, provide a

breakdown of specific therapies, along with precautions and possible side effects. NEW! Expanded and updated art program enhances content with original photos and line art. NEW! NCLEX-PN Review questions at the end of each chapter include alternate item formats and cover all chapter objectives.
