The suburbs – long sneered at for being dreary and stultifying – have always been far livelier and more entertaining than they're given credit for. In this witty and sharply observed account of what it was like to grow up in one in the 1950s and '60s, David Randall gives the other side of suburbia: full

of absurdities and happiness, scandals and follies, and inhabitants both sage and silly. Here, at last, is the truth about what life was really like behind the often-closed (but not always net) curtains of our semi-detacheds. This is that rare book: a most unmiserable memoir. *Problem Gambling in Europe* The History Press

The average life expectancy of a male New Zealander is 76 years, leaving the few average male New Zealanders interested in the World Cup Finals just 18 tournaments to savour. It still gnaws frustratingly that my first three - the 1966, 1970 and 1974 tournaments - were played while I was alive but somehow managed to elude me. I also doubt whether I will prove average enough to see out my remaining allocation of 15, all of which leaves me to glumly conclude that my life has been largely wasted. Euan McCabe is a football World Cup compulsive. Once a typical rugby-loving New Zealand schoolboy, he was mesmerised by his first sighting of Buenos Aires' Monumental Stadium in 1978 and has since become besotted

with the global phenomenon that is the FIFA World Cup. This book traces his growing infatuation with an event that he chooses to celebrate more for its flaws and its unique ability to accentuate the complexities of human nature and engross our planet, than for its more obvious role as football tournament and sporting event. Incisive, punchy, emotional and humorous, this is a story of obsession. An absolute must-read for those people who spend four years of their lives waiting for each World Cup, not to mention those who have to live with them!

Personal accounts of climbing Mount Fuji and taking part in dragon boat races go hand in hand with events on a global scale, as the author experiences a Nigerian coup d'etat, the handover of Hong Kong

from Great Britain to China, the terrifying SARS outbreak and the opening of Bhutan to more commercial tourism. A unique, light-hearted and warm first-hand account of ordinary and not so ordinary life in foreign cultures will leave the reader hungering after adventure themselves. Football Pools Random House

Set in a rural Welsh village in the late 1950s comes a romantic comedy with great historical detail and larger than life characters that will make you laugh out loud! John Prosser has potential. Everyone knows this - except John, whose indolence and lack of self-confidence hamper his progress. He constantly requires a 'kick up the backside', sometimes from his hardworking parents, and sometimes from Miss 'Smarty Pants', Heulwen Hughes, a cerebral beauty he is captivated by whenever circumstances push them together. Despite this, John shows little sign of wanting to move on. There's security to be had in the close-knit Welsh village of Brynteilo, its occupants numbering various branches of his extended family, and the host of eccentric and

badly-behaved characters provide more than enough amusement. Further still, John feels a need to help his ageing parents - and a need for the coffin-maker's daughter and village temptress, Rianna Lewis... Finally John makes the break and finds success, professionally and romantically, both in his home country and abroad. But life is determined to throw him a few curveballs along the way! A romantic comedy with a difference, Cockles and Muscles attempts to recreate the living conditions of the late 1950s, and aims to represent the Welsh people's hard but interesting lives from that period before those voices are lost.

This report, carried out by the National Centre for Social Research, sets out the results of the British Gambling Prevalence Survey (BGPS) 2007, the second nationally representative survey of its kind (the first was undertaken in 1999). Based on a random sample of just over 9,000 people, the survey contains data on attitudes to gambling, levels of

participation and the prevalence of problem gambling. The report will provide the Gambling Commission and the Government with some important benchmark information which will help assess the overall impact of the Gambling Act following its full implementation on 1st September 2007. Findings include that 68 per cent had participated in some form of gambling activity within the past year, compared to 72 per cent in 1999. The most popular activities were the National Lottery Draw (57 per cent), scratchcards (20 per cent), horserace betting (17 per cent) and playing slot machines (14 per cent). Six per cent of the population used the internet to gamble in the past year.

#### Football Nation

Bloomsbury Publishing  
Featured in The Scotsman's Sport Books of 2020 A collection of lyrical sweet-nothings whispered to late goals, local radio commentators, referees falling over and 47 other reminders of why we love football. Despite its flaws and excesses, modern football is still sprinkled with simple yet beguiling delights. In his previous book Saturday, 3pm, Daniel Gray captured

many of them. Now he is back with a further 50 short essays of prose poetry dedicated to the game's charming, technicolour minutiae. From club lottos to undeserved wins, and from pitch-invading animals to the roar after a minute's silence, Extra Time is another romantic celebration of football fandom and its shared joys, habits, eccentricities and peculiarities. It is a salute to keepers going forward for corners, match balls landing on stand roofs and goals scored in quick succession. These chapters offer a gleeful antidote to disillusionment with modern football, VAR and all. They are reminders of why we care and justifications for our devotion. Each warmly evokes this sport's blessed capacity to offer escape and diversion. Let us share the delight once more.

But what does your furniture point at?' asks the character Joey in the sitcom Friends on hearing an acquaintance has no TV. It's a good question: since its beginnings during WW2, television has assumed a central

role in our houses and our lives, just as satellite dishes and aerials have become features of urban skylines. Television (or 'the idiot's lantern', depending on your feelings about it) has created controversy, brought coronations and World Cups into living rooms, allowed us access to 24hr news and media and provided a thousand conversation starters. As shows come and go in popularity, the history of television shows us how our society has changed. Armchair Nation reveals the fascinating, lyrical and sometimes surprising history of telly, from the first demonstration of television by John Logie Baird (in Selfridges) to the fear and excitement that greeted its arrival in households (some viewers worried it might control their thoughts), the controversies of Mary Whitehouse's 'Clean Up TV' campaign and what JG Ballard thought about Big Brother. Via trips down memory lane with Morecambe and Wise, Richard Dimbleby, David Frost, Blue Peter and Coronation Street, you can flick between fascinating nuggets from the strange side of TV: what happened after a chimpanzee called 'Fred J.

Muggs' interrupted American footage of the Queen's wedding, and why aliens might be tuning in to The Benny Hill Show.

Youth gambling represents a potentially serious public policy and health issue.

Nevertheless, the rise in youth gambling issues and problems in the global context is not matched with a parallel increase in research on adolescent gambling. As such, there is an urgent need to conduct more studies on adolescent gambling behaviour. Recently significant advances in the knowledge of the risk factors associated with adolescent problems has emerged. This book addresses issues related to prevalence, assessment, prevention and treatment of youth gambling problems as well as concerns related to technological changes associated with youth problem gambling.

Football is unquestionably the world's most popular and influential sport.

There is no corner of the globe in which the game is not played or followed.

More countries are affiliated to FIFA, football's governing body, than to the United Nations. The sport has therefore become an important component of our social, cultural, political and economic life. The Routledge Handbook of Football Studies is a landmark work of reference, going further than any other book in considering the historical and contemporary significance of football around the world. Written by a team of leading sport scholars, the book covers a broad range of disciplines from history, sociology, politics and business, to philosophy, law and media studies. The central section of the book examines key themes and issues in football studies, such as the World Cup and international competition, governance and ownership, fandom and celebrity. The concluding section offers in-depth surveys of the culture and organisation of football in each of the regional confederations, from UEFA to CONCACAF. This book will be fascinating reading for any serious football fan and an essential resource for advanced students or scholars undertaking

research in football or sport studies, and any practitioner or policy-maker working in football.

Shortlisted for the Saltire Society Non-Fiction Book of the Year "A few years ago, I asked Tom Petty how his songs had been influenced by his life. As a rule, songwriters aren't keen on unpicking their work, and Petty was no exception. He didn't want to get into specifics. 'Life is so difficult,' he said. 'And easy. It's just a chain of spontaneous events.'" Alastair McKay grew up in the fading Scottish seaside town of North Berwick in the 1970s. The cinema and outdoor swimming pool were closing, there were boot boys in the park, and excitement was scarce. An exceptionally shy boy, Alastair found his voice through the punk explosion: the ethos that 'anyone could do it' prompted him to start writing, largely because it was easier than talking. He also sang in a band that was tipped by Sounds magazine to be 'big in 1982'. It wasn't. From these hesitant beginnings, he went on to an award-winning career in journalism that included

meeting Iggy Pop at the Chateau Marmont, being led astray by Tilda Swinton, corresponding with Mark E. Smith and shooting the breeze with Dolly Parton.

Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about

Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition ("That's me, that's my

company") as you find out whether your organization is: • Passive-Aggressive ("everyone agrees, smiles, and nods, but nothing changes"): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall • Fits-and-Starts ("let 1,000 flowers bloom"): filled with smart people pulling in different directions • Outgrown ("the good old days meet a brave new world"): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole • Overmanaged ("we're from corporate and we're here to help"): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses • Just-in-Time ("succeeding, but by the skin of our teeth"): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest • Military Precision ("flying in formation"): executes brilliant strategies but usually does not deal well with events not in the playbook • Resilient ("as good as it gets"): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels For anyone who's

ever said, "Wow, that's a great idea, but it'll never happen here" or "Whew, we pulled it off again, but I'm tired of all this sprinting," Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

Aside from simple wagers--betting a friend that one's favorite baseball team will win its division, for instance, or buying a football "square" for the Super Bowl--sports betting is commonly done through a bookmaker. Bookmakers generally offer two types of wagers on the winner of a sporting event: a straight-up or money line bet, or a point spread wager. Moneylines and straight-up prices are used to set odds on sports such as soccer, baseball and

hockey (the scoring nature of which renders point spreads impractical) as well as individual vs. individual matches, like boxing.

Most relationships between a fan and a favourite football team go way beyond the casual. Almost always that relationship is a torrid, steamy and passionate love affair. A love affair that rarely lives up to expectations. A love affair that seldom satisfies and, most of the time, just plain hurts. So it is for

supporters of Leeds United, a club with a big reputation secured in the late 1960s and early '70s, but tarnished in the '80s and rebuilt only partially in the '90s. Come the start of the 1996-97 season, Leeds were a Premiership club on paper, but on the pitch looked far from it. The supporters groaned and the new board acted swiftly, manager Howard Wilkinson being replaced by the once disgraced George Graham. The football world watched as the former Arsenal supreme sought to rebuild both Leeds and his own reputation. All the club

had was time, hope and the love of its fans . . . Love Hurts tells the story of some of those fans. It is a diary of one extraordinary season, told and photographed in a uniquely personal way by two men for whom following Leeds is a labour of love requiring hours of motorway travel to matches offering variable amounts of torment and despair, of ecstasy and humour. The book pulls no punches, and points the finger whether the team wins or loses. No quarter is given and no fan of any team who reads it can fail to recognise the joy and pain it contains.
