American Jazz Mass Simon and Schuster Includes 32 color photos taken by the author during the month he was embedded with the 82nd in Kuwait and Iraq. This is a riveting account of the war in Iraq moving north with the 82nd Airborne. Units of the 82nd depart Kuwait and convoy to Iraq's Tallil Air Base en route to night-and-day battles within the major city of Samawah and its intact bridges across the Euphrates. Boots on the Ground quickly becomes an action-filled microcosm of the new kinds of ultramodern war fighting showcased in the overall battle for Iraq. At the same time it remains specific to the daily travails of the soldiers. Karl Zinsmeister, a frontline reporter who traveled with the 82nd, vividly conveys the careful planning and technical wizardry that go into today's warfare, even local firefights, and he brings to life the constant air-ground interactions that are the great innovation of modern precision combat. What exactly does it feel like to travel with a spirited body of fighting men? To come under fire? To cope with the battlefield stresses of sleep-deprivation, and a steady diet of

field rations for weeks on end? Readers of this day-to-day diary are left with not only a flashing sequence of strong mental images, but also a notion of the sounds and smells and physical sensations that make modern military action unforgettable. Ultimately, *Boots on the Ground* is a human story: a moving portrayal of the powerful bonds of affection, trust, fear, and dedication that bind real soldiers involved in battle. There are unexpected elements: The humor that bubbles up amidst dangerous fighting. The pathos of a badly wounded young boy. The affection openly exhibited by many American soldiers--love of country, love of family and hometown, love of each other. This is a true-life tale of superbly trained men in extraordinary circumstances, packed with concrete detail, often surpassing fiction for sheer drama. *The Living Church* Harper Collins *The Snow, Op.26 No.1* by Edward Elgar, is a beautiful and evocative three-part song for SSA female voices with accompaniments for two violins and piano. “an impressive contribution to jazz history and surprisingly good reading” (Michael Ullman, author of *Jazz Lives*). This informative bookdocuments the careers of South Carolina jazz and blues musicians from the nineteenth century to the present. The musicians range from the renowned (James Brown, Dizzy Gillespie), to the notable (Freddie Green, Josh White), the largely forgotten (Fud Livingston, Josie Miles), the obscure (Lottie Frost Hightower, Horace “Spoons” Williams), and the unknown (Vince Arnold, Johnny Wilson). Though the term “jazz” is commonly understood, if difficult to define, “blues” has evolved over time to include R&B, doo-wop, and soul. Performers in these genres are also represented, as are members of the Jenkins Orphanage bands of Charleston. Also covered are nineteenth-century musicians who performed what might be called proto-jazz or proto-blues in string bands, medicine shows, vaudeville, and the like. Organized alphabetically, from Johnny Acey to Webster Young, the entries include basic biographical information, South Carolina residences, career details, compositions, recordings as leaders and as band

members, films, awards, websites, and lists of resources for additional reading. Former host of Jazz in Retrospect on NPR Benjamin Franklin V has ensured biographical accuracy to the greatest degree possible by consulting numerous public documents, and information in these records permitted him to dispel myths and correct misinformation that have surrounded South Carolina's musical history for generations. "Elucidates South Carolina as a profoundly crucial puzzle piece alongside New Orleans, Chicago, Kansas City and New York." —Harry Skoler, professor, Berklee College of Music Includes photos

"As majestic in its scope as the country it celebrates. [Johnson's] theme is the men and women, prominent and unknown, whose energy, vision, courage and confidence shaped a great nation. It is a compelling antidote to those who regard

the future with pessimism."— Henry A. Kissinger Paul Johnson's prize-winning classic, *A History of the American People*, is an in-depth portrait of the American people covering every aspect of U.S. history—from politics to the arts. "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson's remarkable work. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In *A History of the American People*, historian Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the

politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. Sometimes controversial and always provocative, *A History of the American People* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people. *Sacred Choral Music in Print* Philadelphia : Musicdata (Piano Instruction). In development as a television series from Reese Witherspoon's Hello Sunshine production company and ABC Studios! This hilarious, poignant and true story of one teen's experience growing up in America as an undocumented immigrant from the Middle East is an increasingly necessary read in today's divisive world. Perfect for fans of Mindy Kaling and Trevor Noah's books. "Very funny but never flippant, Saedi mixes '90s pop culture references, adolescent angst and Iranian history into an intimate, informative narrative." —The New York Times At thirteen, bright-eyed, straight-A student Sara Saedi uncovered a terrible family secret: she was breaking the law simply by living in the United States. Only two years old when her parents fled Iran, she didn't learn of her undocumented status until her older sister wanted to apply for an after-

school job, but couldn't because she didn't have a Social Security number. Fear of deportation kept Sara up at night, but it didn't keep her from being a teenager. She desperately wanted a green card, along with clear skin, her own car, and a boyfriend. *Americanized* follows Sara's progress toward getting her green card, but that's only a portion of her experiences as an Iranian-"American" teenager. From discovering that her parents secretly divorced to facilitate her mother's green card application to learning how to tame her unibrow, Sara pivots gracefully from the terrifying prospect that she might be kicked out of the country at any time to the almost-as-terrifying possibility that she might be the only one of her friends without a date to the prom. This moving, often hilarious story is for anyone who has ever shared either fear. **FEATURED ON NPR'S FRESH AIR A NYPL BEST BOOK OF THE YEAR A CHICAGO PUBLIC LIBRARY BEST OF THE BEST BOOK SELECTION A SCHOOL LIBRARY JOURNAL BEST BOOK OF THE YEAR FOUR STARRED REVIEWS!** "A must-read, vitally important memoir. . . . This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise, passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me." —Anne Lamott, New York Times bestselling author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we're bombarded by media images and messages about the despairs and declines of our later years. Beauty and pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds

and bodies are too frail to keep up with the pace of the modern working world and elders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life. Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It's time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you're older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride!

What happens when the avant-garde grows old? Examining a group of writers and artists who continued the modernist experiment into later life, Scott Herring reveals how their radical artistic principles set out a new path for creative aging. *Aging Moderns* provides portraits of writers and artists who sought out or employed unconventional methods and collaborations up until the early twenty-first century. Herring finds Djuna Barnes performing the principles of high modernism not only in poetry but also in pharmacy orders and grocery lists. In mystery novels featuring Gertrude Stein and Alice B. Toklas along with modernist souvenir collections, the gay writer Samuel Steward elaborated a queer theory of aging and challenged gay male ageism. The Harlem Renaissance dancer Mabel Hampton dispelled stereotypes about aging through her queer of color performances at the Lesbian Herstory Archives. Herring explores Ivan Albright's magic realist portraits of elders, Tillie Olsen's writings on the aging female

worker, and the surrealistic works made by Charles Henri Ford and his caregiver Indra Bahadur Tamang at the Dakota apartment building in New York City. Showcasing previously unpublished experimental art and writing, this deeply interdisciplinary book unites new modernist studies, American studies, disability studies, and critical age studies. *Aging Moderns* rethinks assumptions about literary creativity, the depiction of old age, and the boundaries of modernism.

Many teens today who use the Internet are actively involved in participatory cultures—joining online communities (Facebook, message boards, game clans), producing creative work in new forms (digital sampling, modding, fan videomaking, fan fiction), working in teams to complete tasks and develop new knowledge (as in Wikipedia), and shaping the flow of media (as in blogging or podcasting). A growing body of scholarship suggests potential benefits of these activities, including opportunities for peer-to-peer learning, development of skills useful in the modern workplace, and a

more empowered conception of citizenship. Some argue that young people pick up these key skills and competencies on their own by interacting with popular culture; but the problems of unequal access, lack of media transparency, and the breakdown of traditional forms of socialization and professional training suggest a role for policy and pedagogical intervention. This report aims to shift the conversation about the "digital divide" from questions about access to technology to questions about access to opportunities for involvement in participatory culture and how to provide all young people with the chance to develop the cultural competencies and social skills needed. Fostering these skills, the authors argue, requires a systemic approach to media education; schools, afterschool programs, and parents all have distinctive roles to play. The John D. and Catherine T.
