It is your very own mature to feign reviewing habit. in the middle of guides you could enjoy now is **Fundamentals Of Ethics Shafer Landau** below.

Fundamentals Of Ethics Shafer Landau

2020-12-21

MATHEWS MICHAEL

[Ethics for A-Level](#) Oxford University Press

This text carefully reconstructs and analyzes dozens of arguments in depth, and introduces students to the essential ideas of moral philosophy. Offering more comprehensive coverage of the good life, normative ethics, and metaethics than any other text of its kind, this book also addresses issues that are often omitted from other texts, such as the doctrine of doing and allowing, the doctrine of double effect, and more. Ideal for courses in introductory ethics and contemporary moral problems, this book can be used as a stand-alone text or with the author's companion reader, *The Ethical Life: Fundamental Readings in Ethics and Moral Problems*, Third Edition.

Oxford Studies in Metaethics Volume 18 Oxford University Press, USA

The Handbook is a comprehensive reference work in ethical theory consisting of commissioned articles by leading scholars. The first part treats meta-ethics and the second part normative ethical theory. As with all the Oxford Handbooks, the collection is designed to achieve three goals: exposition of central ideas, criticism of other approaches, and defenses of distinct points of view.

Oxford Studies in Metaethics, Volume 17 Wiley-Blackwell

Oxford Studies in Metaethics is the only publication devoted exclusively to original philosophical work in the foundations of ethics. It provides an annual selection of much of the best new scholarship being done in the field. Its broad purview includes work being done at the intersections of ethical theory with metaphysics, epistemology, philosophy of language, and philosophy of mind. The essays included in the series provide an excellent basis for understanding recent developments in the field; those who would like to acquaint themselves with the current state of play in metaethics would do well to start here.

Oxford Studies in Metaethics Volume 15 Broadview Press

"This book is divided into three parts—one on the Good Life, another on Doing the Right Thing, and the last on the Status of Morality. You can read these parts in any order. Many will want to begin at the end, for instance, with a discussion of whether morality is a human invention, or is in some way objective. Some will prefer to start in the middle, asking about the supreme principle of morality (and whether there is any such thing). And others may want to begin at the beginning, by thinking about human well-being and the quality of life. Each part can be understood independently of the others, though there are of course many points of connection across the three main branches of moral philosophy. No matter where you begin, there are footnotes in most chapters that provide cross-references to relevant discussions elsewhere in the book. When beginning a new area of study, you're bound to encounter some unfamiliar jargon. I've tried to keep this to a minimum, and I suppose that you can be thankful that we're doing ethics here, rather than physics or anatomy. I define each technical term when I first use

it, and have also put together a glossary, which appears at the end of the book. Each specialized term that appears in boldface has an entry there. You may be interested enough in what you read here that you'll want to continue your studies in moral philosophy. There is a natural place to begin—the companion volume to this book, *The Ethical Life*, described later in this preface. I have also compiled a list of Suggestions for Further Reading for each chapter or pair of chapters. This list appears at the end of the book, just before the glossary. I have selected the readings with an eye to what might be accessible and interesting to those just beginning their study of moral philosophy"--

Foundations of Ethics Oxford University Press on Demand
Ethics: History, Theory, and Contemporary Issues, Fifth Edition, features sixty-nine selections organized into three parts, providing instructors with great flexibility in designing and teaching a variety of courses in moral philosophy. Spanning 2,500 years of ethical theory, the first part, *Historical Sources*, ranges from ancient Greece to the twentieth century. It moves from classical thought through medieval views to modern theories, culminating with leading nineteenth- and twentieth-century thinkers. The second part, *Modern Ethical Theory*, includes many of the most important essays of the past century. The discussion of utilitarianism, Kantianism, egoism, and relativism continues in the work of major contemporary philosophers, while landmark selections reflect concern with moral language and the justification of morality. The concepts of duty, justice, and rights are explored, as well as recent views on cultural relativism and an ethic influenced by feminist concerns. In the third part, *Contemporary Moral Problems*, the readings present the current debates over abortion, euthanasia, famine relief, animal rights, environmentalism, and the use of torture in interrogations, as well as essays on death and the meaning of life. Wherever possible, each reading is printed in its entirety. The fifth edition features new readings from Cicero, Barbara Herman, and Judith Jarvis Thomson; an expanded selection from Joseph Butler's *Fifteen Sermons*; and a new translation of Kant's *Groundwork for the Metaphysics of Mor*
[Study Guide](#) Oxford University Press, USA

A primer in ethics, *The Good Life* explores the ultimate aims in living as proposed throughout philosophic history. Burton Porter examines the relation between ethics and science, religion, and psychology, as well as the challenges of relativism and determinism. Through the theories of hedonism, self-realization, naturalism, evolutionism, the ethic of duty, religious systems, virtue ethics, and existentialism, this book introduces the foundations of ethical thought.

[The Moral of the Story: An Introduction to Ethics](#) Oxford University Press, USA

SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 68-page guide for "The Fundamentals of Ethics" by Russ Shafer Landau includes detailed chapter summaries and analysis covering 21 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content

includes commentary on major characters, 25 important quotes, essay topics, and key themes The Use of Ethics, and The Attractiveness of Moral Skepticism.

The Methods of Ethics Routledge

In presenting this reader on ethical theory, Shafer-Landau (philosophy, U. of Wisconsin) has made sure to cover the standard topics of the day, consequentialism, deontology, contractarianism, and virtue ethics, but has also sought to include areas that are less common in sections on moral standing, moral responsibility, moral knowledge, and works that question the very possibility of systematic ethics. He also includes a section that discusses ethics and religion and another that examines prima facie duties and particularism. Rather than include critics' views following the various theoretical presentations, he has instead decided to include more works of allied thinkers in order to provide readers with a more nuanced view of the particular view in question. Selections from classic writers such as Aristotle, Thomas Hobbes, Immanuel Kant, and Plato are accompanied by more contemporary writings. Ethics Oxford University Press on Demand

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

The Good Life Routledge

The Twelfth Edition of this best-selling, topically organized anthology provides a superb balance of historical selections and recent material. Now a part of Wadsworth's new Advantage Series and issued for the first time in a paperback format at a reduced price, this new edition features more readings than ever before--79 total--all, where necessary, in the finest translations available. The readings complement each other and naturally build on the topic being covered. Clear, concise introductions to each Part provide just enough guidance to let students learn from experiencing the readings themselves. The text's long-heralded selection of readings covers topics such as reason and religious belief, human knowledge, mind and its place in nature, determinism, free will and responsibility, and morality and its critics in five parts with careful attention to opposing points of view.

Whatever Happened to Good and Evil? Oxford University Press, USA

Introducing Ethics: A Critical Thinking Approach with Readings

combines guiding commentary and questions with a rich selection of concise, carefully edited, and accessible readings on ethical theory and contemporary moral issues. This unique introduction shows students how to do philosophy by first analyzing texts--identifying ethical positions and the arguments that support them--and then evaluating the truth of those positions and the soundness of the arguments. In doing so, it provides students with a uniquely engaging introduction to ethics that also hones their critical thinking skills. FEATURES * A unique Unit 1 gives students the conceptual tools to "do" philosophy with coverage of logic, arguments, moral reasoning, and reading and writing philosophy * Extensive coverage of the three main areas of ethics--metaethics, normative ethics, and applied ethics--addresses issues often ignored by other texts, including ethics vs. science, moral responsibility, moral vs. legal issues, torture, terrorism, and more * Unit and chapter introductions outline major themes and issues and explain why they matter * Reading questions precede the essays and focus students' studying on key points, while discussion questions follow the readings and help students move into the evaluation phase * "Argument Reconstruction Exercises" after each reading provide practice in identifying the premises and conclusions in the essays * An Instructor's Manual with Test Bank on CD is available to adopters * A Companion Website at www.oup.com/us/mcbrayer provides all the material contained on the CD along with student resources

The Ethical Life Hackett Publishing

A Concise Introduction to Ethics offers a condensed and exceptionally well-written introduction to the essential moral theories. Based on Russ Shafer-Landau's best-selling primer on ethical theory, *The Fundamentals of Ethics*, this briefer volume retains the longer one's content advantage over competing books by addressing issues that other texts omit, including the good life (value theory), natural law, and prima facie duties. It also incorporates discussion questions and case studies at the end of each chapter, giving students the opportunity to apply ethical theories to real-world moral problems. A perfect companion to Shafer-Landau's anthology, *The Ethical Life*, this volume's compact size and low price make *A Concise Introduction to Ethics* an ideal complement to any course where it is important that students understand moral theories.

Moral Realism Oxford University Press, USA

"A compact yet thorough collection of readings in ethical theory and contemporary moral problems - at the best price"--

Normative Ethics OUP USA

Featuring new selections chosen by coeditor Lewis Vaughn, the third edition of Louis P. Pojman's *The Moral Life: An Introductory Reader in Ethics and Literature* brings together an extensive and varied collection of ninety-one classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, the book uses literary works to enliven and make concrete the ethical theory or applied issues addressed in each chapter. Literary works by Camus, Hawthorne, Hugo, Huxley, Ibsen, Le Guin, Melville, Orwell, Styron, Tolstoy, and many others lead students into such philosophical concepts and issues as relativism; utilitarianism; virtue ethics; the meaning of life; freedom and autonomy; sex, love, and marriage; animal rights; and terrorism. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Nozick, Singer, and Sartre. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, and biographical sketches of the writers. The third edition brings the collection up-to-date, adding selections by Jane English, William Frankena, Don Marquis, John Stuart Mill,

Mary Midgley, Thomas Nagel, Judith Jarvis Thomson, and J.O. Urmson. It also features a new chapter on euthanasia with essays by Dan W. Brock, J. Gay-Williams, and James Rachels. Ideal for introductory ethics courses, *The Moral Life*, Third Edition, also provides an engaging gateway into personal and social ethics for general readers

Six Myths about the Good Life Hackett Publishing
Now in its eighth edition, *The Moral of the Story* continues to bring understanding to difficult concepts in moral philosophy through storytelling and story analysis. From discussions on Aristotle's virtues and vices to the moral complexities of the *Game of Thrones* series, Rosenstand's work is lively and relatable, providing examples from contemporary film, fiction narratives, and even popular comic strips. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here: <http://www.mheducation.com/highered/platforms/connect/trainin g-support-students.html>

The Oxford Handbook of Ethical Theory Wadsworth Publishing Company

Providing a thorough introduction to current philosophical views on morality, *Normative Ethics* examines an acts rightness or wrongness in terms of such factors as consequences, harm, and consent. Shelly Kagan offers a division between moral factors and theoretical foundations that reflects the actual working practices of contemporary moral philosophers. Intended for upper-level or

graduate students of philosophy, this book should also appeal to the general reader looking for a clearly written overview of the basic principles of moral philosophy. }Providing a thorough introduction to current philosophical views on morality, *Normative Ethics* examines an acts rightness or wrongness in light of such factors as consequences, harm, and consent. Shelly Kagan offers a division between moral factors and theoretical foundations that reflects the actual working practices of contemporary moral philosophers. The first half of the book presents a systematic survey of the basic normative factors, focusing on controversial questions concerning the precise content of each factor, its scope and significance, and its relationship to other factors. The second half of the book then examines the competing theories about the foundations of normative ethics, theories that attempt to explain why the basic normative factors have the moral significance that they do. Intended for upper-level or graduate students of philosophy, this book should also appeal to the general reader looking for a clearly written overview of the basic principles of moral philosophy.

The Ethical Life Oxford University Press, USA

This collection of classic and contemporary readings in ethics presents sharp, competing views on a wide range of fundamentally important topics: moral relativism and objectivism, ethical egoism, value theory, utilitarianism, deontological ethics, virtue ethics, ethics and religion, and applied ethics. The Fourth Edition dramatically increases the volume's utility by expanding and updating the selections and introductions while retaining the structure that has made previous editions so successful.
