The theme of the conference is "Reconstructing Morals, Education, and Social Sciences for Achieving Sustainable Development Goals". This theme was

formulated due to several considerations. First, the symptoms of moral decline that have the potential to destroy the nation. Morals guide humanity towards truth and civilization. The phenomenon of the dehumanization process in the industrial era that pushed people to be part of abstract societies tends to ignore humanity. The education process as a humanitarian system is increasingly marginalized, especially during discussions about the industrial revolution 4.0 and Society 5.0. The conference placed six sub-themes for speakers and participants to share ideas, namely: Social Sciences and Laws, History and Cultural Studies, Interdisciplinary Studies, Morals and Humanities, Policy, Politics, and

Communication, Education. The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.

Projections of Power LKIS PELANGI AKSARA

Independen dan objektif, merupakan dua

kata kunci yang menjadi kiblat dan klaim setiap jurnalis di seluruh dunia. Seorang jurnalis selalu menyatakan dirinya telah bertindak objektif, seimbang, dan tidak berpihak pada kepentingan apapun kecuali keprihatinan atas hak masyarakat untuk mengetahui kebenaran. Meskipun sikap independen dan objektif menjadi kiblat setiap jurnalis, pada kenyataannya kita seringkali mendapatkan suguhan berita yang beraneka warna dari sebuah peristiwa yang sama. Berangkat dari sebuah peristiwa yang sama, media tertentu mewartakannya dengan cara menonjolkan sisi atau aspek tertentu, sedangkan media lainnya meminimalisir, memelintir, bahkan menutup sisi/aspek tersebut, dan sebagainya. Ini semua menunjukkan bahwa di balik jubah kebesaran independensi dan objektivitas, seorang jurnalis menyimpan paradoks, tragedi, dan bahkan ironi. Dengan membandingkan beberapa pemberitaan di media, sangat mungkin kita akan menemukan kesimpulan yang setara, bahwa media apapun tidak bisa lepas dari bias-bias, baik yang berkaitan dengan ideologi, politik, ekonomi, sosial, budaya, bahkan agama. Tidak ada satu pun media

yang memiliki sikap vi Analisis Framing: Konstruksi, Ideologi, dan Politik Media independensi dan objektivitas yang absolut. Tanpa adanya kesadaran seperti ini, mungkin saja kita menjadi bingung, merasa terombang-ambing, dan dipermainkan oleh penyajian media. Analisis framing merupakan salah satu alternatif model analisis yang dapat mengungkap rahasia di balik semua perbedaan (bahkan pertentangan) media dalam mengungkapkan fakta. Analisis framing dalam buku ini dipakai untuk mengetahui bagaimana realitas dibingkai oleh media. Dengan demikian, realitas sosial dipahami, dimaknai, dan dikonstruksi dengan bentuk dan makna tertentu. Elemen-elemen tersebut bukan hanya bagian dari teknis jurnalistik, melainkan menandakan bagaimana peristiwa dimaknai dan ditampilkan. Inilah sesungguhnya sebuah realitas politik, bagaimana media membangun, menyuguhkan, memper- tahankan, dan mereproduksi suatu peristiwa kepada pembacanya. Melalui analisis framing akan dapat diketahui siapa mengendalikan siapa, siapa lawan siapa, mana kawan mana lawan, mana patron

dan mana klien, siapa diuntungkan dan siapa dirugikan, siapa menindas dan siapa tertindas, dan seterusnya. Kesimpulan-kesimpulan seperti ini sangat mungkin diperoleh karena analisis framing merupakan suatu seni kreativitas yang memiliki kebebasan dalam menafsirkan realitas dengan menggunakan teori dan metodologi tertentu. Dalam konteks ini, kita bisa melihat bagaimana penulis buku ini mampu membangun peta teoretis-metodologis dan melakukan analisis atas berbagai kasus yang pernah dimuat berbagai surat kabar dan majalah di Tanah Air. Buku ini dapat kami katakan memiliki “kesejajaran” dengan karya Eriyanto yang telah kami terbitkan sebelumnya, yang berjudul *Analisis Wacana: Pengantar Analisis Teks Media* (LKIS, April 2001). Kedua buku ini dapat menjadi teman dialog dan jembatan bagi pembaca untuk mendalami ilmu komunikasi, vii khususnya jurnalistik. Untuk bacaan yang lebih aplikatif tentang teks media, karya Agus Sudibyo berjudul *Politik Media dan Pertarungan Wacana* (LKIS, Agustus 2001) dapat pula memudahkan pembaca dalam mendalami analisis ini. Kami menghaturkan terima kasih kepada

Saudara Eriyanto yang mempercayakan penerbitan karya ini kepada kami. Demikian pula kepada Bapak Deddy Mulyana yang berkenan menularkan wawasannya dalam pengantar buku ini. Kami berharap buku ini dapat memberikan pencerahan kepada khalayak di tengah serbuan aneka macam media yang tak mungkin dapat dibendung lagi.

#### MICOSS 2020 LKIS PELANGI AKSARA

This is an open access book. The ultimate goal of physical education and physical activity promotion is to facilitate and encourage individuals to engage in a physically active lifestyle. It can be achieved by improving physical literacy, which is defined as ‘the ability of individuals to move with competence and confidence in a wide variety of physical activities, in multiple environments that benefit the healthy development and overall quality of life of the whole person.’ Prior to developing strategies for improving physical literacy, its concept needs to be defined and conceptualized because it involves complex interplays of individuals’ knowledge and understanding of physical activity as well as individuals’ motivation, self-confidence and physical

competence for being physically active for life. The 6th Yogyakarta International Seminar on Health, Physical Education, and Sports Science (YISHPESS 2023) respond to this issue by organising the conference which carries a theme of “Lessening the prevalence of sedentary lifestyles through the use of physical education resources”. The Conference invites reputable international scholars and experts closely working in physical literacy, physical education and sports science in general.

*PEMIKIRAN KEPARIWISATAAN MASA JEDA PARIWISATA UNTUK BANGKIT KEMBALI LKIS PELANGI AKSARA*

To succeed in foreign policy, U.S. presidents have to sell their versions or framings of political events to the news media and to the public. But since the end of the Cold War, journalists have increasingly resisted presidential views, even offering their own spin on events. What, then, determines whether the media will accept or reject the White House perspective? And what consequences does this new media environment have for policymaking and public opinion? To answer these questions, Robert M. Entman develops a powerful new model of how media framing works—a model that allows him to explain why the media cheered American victories over small-time dictators in Grenada and Panama but barely noticed the success of far more difficult missions in Haiti and

Kosovo. Discussing the practical implications of his model, Entman also suggests ways to more effectively encourage the exchange of ideas between the government and the media and between the media and the public. His book will be an essential guide for political scientists, students of the media, and anyone interested in the increasingly influential role of the media in foreign policy.

The field of sustainability continues to evolve as a discipline. The world is facing multiple sustainability challenges such as climate change, water depletion, ecosystem loss, and environmental racism. The Handbook of Sustainability will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E's of sustainability: environment, equity, and economics. These three themes will serve as the main organizing body of the work. In addition, the work will include sections on history and sustainability, major figures in the development of sustainability as a

discipline, and important organizations that contributed or that continue to contribute to sustainability as a field. The work is explicitly global in scope as it considers the very different issues associated with sustainability in the global north and south

Indonesia has long been hailed as a rare case of democratic transition and persistence in an era of global democratic setbacks. But as the country enters its third decade of democracy, such laudatory assessments have become increasingly untenable. The stagnation that

characterized Susilo Bambang Yudhoyono's second presidential term has given way to a more far-reaching pattern of democratic regression under his successor, Joko Widodo. This volume is the first comprehensive study of Indonesia's contemporary democratic decline. Its contributors identify, explain and debate the signs of regression, including arbitrary state crackdowns on freedom of speech and organization, the rise of vigilantism, deepening political polarization, populist mobilization, the dysfunction of key democratic institutions, and the erosion of checks and balances on executive power. They ask why Indonesia, until recently considered a beacon of democratic exceptionalism, increasingly conforms to the global pattern of democracy in retreat.
