In *Twenty Affordable Sailboats to Take You Anywhere* you will find in-depth reviews of twenty affordable, comfortable, and seaworthy sailboats. These boats range in size from 30-38 feet, an ideal size for the cruising couple, yet big enough to accommodate an occasional cruising hitchhiker or two. All of these boats were once prominent offerings, designed by some of the world's leading naval architects and produced by reputable manufacturers. These boats are still readily available in the used boat market."Gregg has done a fine research job here, one pleasingly devoid of flim-flam. It's a truly helpful tool for those of you wading with trepidation into the murky waters of boat-buying."John Vigor, Author, *Twenty Small Sailboats to Take You Anywhere*"This book is a must for the boat shopper looking for an experienced vessel."Bob Bitchin - Founder/Editor, *Latitudes and Attitudes*

People v. Walters, 223 MICH 676 (1923) CRC Press

This database provides a vast amount of information about potentially toxic chemicals to regulatory and research agencies, consultants, academics, and libraries. The National Toxicology Program's Chemical Database consists of eight volumes containing 50 fields that present detailed information on 2,270 different chemicals. The data is obtained from the literature or experimentally determined. Each compound is listed in every volume even when there is no information available for it in some volumes. Information in the NTP database was gathered and updated as compounds were used throughout a 12 year period from 1979 to 1991. Throughout the eight volumes, the primary chemical name and the Chemical Abstracts Service Registry Number (CAS No.) remain constant and all 2,270 chemicals are listed alphabetically in each volume. The NTP database can be sold as a set or individually. Each volume consists of one 3-1/2" and two 5-1/4" diskettes, in addition to a 64 page manual that describes how to use the software. Diskettes will run on IBM® or IBM-compatible equipment with DOS 2.0 and higher, 640K internal memory (RAM), and a hard drive with at least 2-17MB of available disk space. Use the eight volumes together to get the full benefit of the NTP Chemical Repository Database, or select only those volumes that contain the information you need and use them as stand-alone databases. Each volume consists of one 3-1/2" and two 5-1/4" diskettes, that will run on IBM or IBM-compatible hardware!

Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Life with Bobby and Bonnie

Since 1926, includes the Annual statistical number, which supersedes the Pacific fisherman year book.

Sea for the Active Boatman

Life with Bobby and Bonnie are lessons about life, using the charming characters of bunny twins. Their adventures and misadventures, along with their family and friends help them to learn about the unconditional love of Jesus Christ, the hope and forgiveness that can be found in Him. Experiences with young adults in an alternative school setting inspired the life lessons of the bunnies. The writer believes that just as academic success is promoted by early and deliberate intervention, so are social and spiritual growth. She hopes addressing concerns of students considered to be "at-risk" through the universality of animal characters will provide intervention that will encourage some of our youngest and most precious natural resource to live lives of love, hope and forgiveness. Author Bio: Alice Walters has been blessed by her diverse experiences working with and learning from children of all ages for over thirty years. Summer camp to summer school, preschool through adult learners, Alice learned early on that not only can all children (and adults) learn, they can also teach. Alice, her husband and their family, live in the Midwest, but she never forgets her Southern upbringing. They enjoy traveling and fine arts (although they don't always agree on genre or quality). After serving as paraprofessional and administrative assistant in her small, local school district, Alice returned to college when her son began kindergarten. After completing three degrees and holding a variety of positions in education, Alice thinks she's done about everything in public education except coach a sport or drive a bus (for which, we are all

grateful). Her most memorable experiences are the ones when her neediest students still found something they could teach or share with their classmates and her.
