 Desiree's Baby BY Kate Chopin is about the daughter of Monsieur and Madame Valmond, who are wealthy French Creoles in antebellum Louisiana.

Abandoned as a baby, Desiree was found by Monsieur Valmond lying in the shadow of a stone pillar near the Valmond gateway. She is courted by the son of another wealthy, well-known and respected French Creole family, Armand. They marry and have a child. People who see the baby have the sense it is different. Eventually they realize that the baby's skin is

the same color as a quadroon (one-quarter African)-the baby has African ancestry. At the time of the story, this would have been considered a problem for a person believed to be white.

 To every explorer with his map upside down, to every air-traffic controller suddenly receiving Magic FM through his

headphones, to every astronomer whose new planet turns out to be a bit of bran-flake on the eyepiece of his telescope, Sod's Law says: you are not alone. Sam Leith tells the hilarious—and painful—stories of the unsinkable boat that sunk, the unbeatable horse that lost, and the fireproof theater that burned to the ground. Sod's Law demonstrates that the entire universe is

actually set up to ensure that your toast always lands butter side down and, what's more, that it lands precisely where the cat has shed hair all over the carpet. In this age of doubt, fewer and fewer of us are able to believe that a higher power takes an interest in our fate. This book reassures us that indeed it does—and that that higher power is hell bent on bugging things up. Only by laughing

heartlessly at the misfortunes of others can we make ourselves feel better. Sod's Law enables us to do just that.

"Anchored by data and aromatized by

anecdotes, [Rosin] concludes that women are gaining the upper hand." –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And "the end of men"—the title of Rosin's Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan's "feminine mystique," Simone de Beauvoir's "second sex," Susan Faludi's "backlash," and Naomi Wolf's "beauty myth" once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in *The End of Men* she helps us see how, regardless of gender, we

can adapt to the new reality and channel it for a better future.

A member of a British-American surveillance team in Cold War Berlin finds himself in too deep in this "wholly entertaining" work (The Wall Street Journal) from the Booker Prize winner and bestselling author of *Atonement*. Twenty-five-year-old Leonard Marnham's intelligence

work—tunneling under a Russian communications center to tap the phone lines to Moscow—offers him a welcome opportunity to begin shedding his own unwanted innocence, even if he is only a bit player in a grim international comedy of errors. His relationship with Maria Eckdorf, an enigmatic and beautiful West Berliner, likewise promises to loosen the bonds of his

ordinary life. But the promise turns to horror in the course of one terrible evening—a night when Marnham learns just how much of his innocence he's willing to shed. Don't miss Ian McEwan's new novel, *Lessons*.

Dip in the Pool is a short, sharp story from Roald Dahl, the master of the shocking tale. In Dip in the Pool, Roald Dahl, one of

the world's favourite authors, tells an unsettling story of human folly. Here, a man acts rashly and life-threateningly to ensure he wins a prize . . . Dip in the Pool is taken from the short story collection Someone Like You, which includes seventeen other devious and shocking stories, featuring the wife who serves a dish that baffles the police; a curious machine that reveals the

horrifying truth about plants; the man waiting to be bitten by the venomous snake asleep on his stomach; and others. 'The absolute master of the twist in the tale.'

This story is also available as a Penguin digital audio download read by Adrian Scarborough. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach,

Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today. **Report of the Special Commission Appointed by the President,**

Drawing on first-hand ethnographic data, field interviews with interpreters, interviewers

and decision-makers, observations and off-record comments, The Asylum Speaker examines discursive processes in the asylum procedure and the impact these processes may have on the determination of refugee status. The book starts from the assumption that far-reaching legal decisions often have to be made on very limited grounds. Unable to submit any

evidence to substantiate their case, the only chance that many asylum seekers have is to argue their case during the oral hearings with public officials at the different asylum agencies. Maryns investigates the performance of the asylum seeker during these interviews and analyzes the relationship between narrative structuring and gradations of linguistic

competence. She explores a number of related questions: first, how the interaction between applicants and public officials proceeds; second, how this interaction forms the discursive input into long and complicated textual trajectories, and third, how the outcome of these discursive processes affects the assessment of asylum applications. Maryns demonstrates

how propositional aspects play a crucial role in the asylum procedure whereas little attention is paid to narrative-linguistic diversity and multilingual speaker repertoires. Her analysis reveals how insufficient insight into the linguistic structure and narrative features of the asylum account often results in a deficient processing of important details.
